

(2) on the issue of Deere's alleged financing of certain EVSPFHs; (3) with respect to the ALJ's application of the "all or substantially all" standard, including a statement of the type and number of sales relied on and the basis for reliance on those sales, especially the basis for including used sales of North American-version harvesters in the assessment of whether that standard has been met by Deere; and (4) on whether all or substantially all of Deere's sales of SPFHs were of North American versions of these machines.

On March 13, 2008, the Commission asked the parties to discuss (1) The total quantity of new and used EVSPFHs sold by John Deere's official European dealers to the United States from 1997 through 2002, including (a) all European dealer sales for importation to the United States for which there is documentary evidence in the existing record and (b) an estimate of the total quantum of additional European dealer sales for importation to the United States for which there may not be documentary evidence on this record; (2) an exclusively legal discussion of the relevance of the agency doctrines of actual and apparent authority in the context of gray market sales in the United States; and (3) whether, if the Commission were to take into account only sales of gray market EVSPFHs by U.S. dealers (i.e. sales within the United States after importation), and not sales for importation of gray market goods by John Deere's European dealers, it would in effect improperly limit the scope of the unlawful activities that it is required to consider under the statute, which includes within the Commission's jurisdiction "the sale for importation" as well as "the sale within the United States after importation" of articles that infringe a valid United States trademark. 19 U.S.C. Section 1337(a)(1)(C).

Written submissions were received by the parties on April 15 and April 24, 2008. On April 30, the parties each filed reply submissions.

Having considered the record and briefing in this investigation, the Commission has determined to reverse the ALJ's finding of violation. A Commission Opinion in support of its determinations will follow shortly.

The authority for this notice is contained in section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, and in section 210.45(c) of the Commission's Rules of Practice and Procedure (19 CFR 210.45(c)).

By order of the Commission.

Issued: August 12, 2008.

Marilyn R. Abbott,

Secretary to the Commission.
