SUPPLEMENTARY INFORMATION: On May 19, 2008, the Bureau of Industry and Security (BIS) published a notice of inquiry (73 FR 28795) to elicit comments regarding two specific recommendations made by the Deemed Export Advisory Committee (DEAC) with respect to the Bureau of Industry and Security's (BIS's) deemed export licensing policy. BIS is continuing to seek comments on whether the scope of technologies on the Commerce Control List that are subject to deemed export licensing requirements should be narrowed, and if so, which technologies should be subject to deemed export licensing requirements. Additionally, BIS is continuing to seek comments on whether a more comprehensive set of criteria should be used to assess country affiliation for foreign nationals with respect to deemed exports.

The original deadline for comments was August 18, 2008. BIS is now reopening the comment period to allow the public more time to comment on this notice of inquiry. The new comment period will end September 22, 2008.

Dated: August 18, 2008.

Background

Section 9 of the ESA and Federal regulations prohibits the taking of a species listed as endangered or threatened. The term take is defined under the ESA to mean harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct. Harm is defined to include significant habitat modification or degradation where it actually kills or injures wildlife by significantly impairing essential behavioral patterns, including breeding, feeding, and sheltering.

Section 10(a) of the ESA and its implementing regulations specify the requirements for issuance of permits to non-Federal parties for the take of listed species. Any proposed take must be incidental to, and not the purpose of, otherwise lawful activities, must not appreciably reduce the likelihood of the survival and recovery of the species in the wild, and must minimize and mitigate the impact of such take to the maximum extent practicable. FWS regulations governing permits for threatened and endangered species are promulgated in 50 CFR 13.21. NMFS regulations governing permits for threatened and endangered species are promulgated at 50 CFR 222.307.

The Elliott State Forest encompasses approximately 93,000 acres of state-owned forestlands in Coos and Douglas Counties in Oregon's Coast Range. ODF manages the Elliott State Forest out of its Coos District Office, located in Coos Bay. The action area for this proposal focuses on a mostly contiguous block of land approximately 18 miles long from north to south, and about 16 miles wide from west to east. An additional 4,000 acres, scattered tracts in Coos, Douglas, and Curry Counties, were originally included as part of the action area, but have been removed from the proposal by the applicant.

The Elliott State Forest is managed in accordance with the 1994 Elliott State Forest Management Plan (FMP). ODF currently holds a section 10(a)(1)(B) Permit for potential incidental take of the northern spotted owl on the Elliott State Forest; the Permit and associated Plan went into effect in 1995. ODF is proposing to manage the forest according to a revised FMP that would go into effect concurrently with the proposed Plan. Some of the proposed forest management activities have the potential to affect the northern spotted owl, as well as other species subject to protection under the ESA, including the
