

Rules and Regulations

Federal Register

Vol. 73, No. 165

Monday, August 25, 2008

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

9 CFR Part 78

[Docket No. APHIS-2008-0003]

Brucellosis in Cattle; State and Area Classifications; Texas

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Affirmation of interim rule as final rule.

SUMMARY: We are adopting as a final rule, without change, an interim rule that amended the brucellosis regulations concerning the interstate movement of cattle by changing the classification of Texas from Class A to Class Free. We determined that Texas meets the standards for Class Free status. The interim rule relieved certain restrictions on the interstate movement of cattle from Texas.

DATES: Effective on August 25, 2008, we are adopting as a final rule the interim rule published at 73 FR 6007-6008 on February 1, 2008.

FOR FURTHER INFORMATION CONTACT: Dr. Debbi A. Donch, National Brucellosis Epidemiologist, Ruminant Health Programs Staff, National Center for Animal Health Programs, VS, APHIS, 4700 River Road Unit 43, Riverdale, MD 20737-1231; (301) 734-5952.

SUPPLEMENTARY INFORMATION:

Background

Brucellosis is a contagious disease affecting animals and humans, caused by bacteria of the genus *Brucella*.

The brucellosis regulations, contained in 9 CFR part 78 (referred to below as the regulations), provide a system for classifying States or portions of States according to the rate of *Brucella* infection present and the general

effectiveness of a brucellosis control and eradication program. The classifications are Class Free, Class A, Class B, and Class C. States or areas that do not meet the minimum standards for Class C are required to be placed under Federal quarantine.

In an interim rule¹ effective and published in the **Federal Register** on February 1, 2008 (73 FR 6007-6008, Docket No. APHIS-2008-0003), we amended the regulations by changing the classification of the State of Texas from Class A to Class Free. That action relieved certain restrictions on the interstate movement of cattle from Texas.

Comments on the interim rule were required to be received on or before April 1, 2008. We received one comment by that date, from an industry organization. The commenter supported the action taken in the interim rule to classify Texas as a Class Free State. Therefore, for the reasons given in the interim rule and in this document, we are adopting the interim rule as a final rule without change.

This action also affirms the information contained in the interim rule concerning Executive Order 12866 and the Regulatory Flexibility Act, Executive Orders 12372 and 12988, and the Paperwork Reduction Act.

Further, for this action, the Office of Management and Budget has waived its review under Executive Order 12866.

List of Subjects in 9 CFR Part 78

Animal diseases, Bison, Cattle, Hogs, Quarantine, Reporting and recordkeeping requirements, Transportation.

PART 78—BRUCELLOSIS

■ Accordingly, we are adopting as a final rule, without change, the interim rule that amended 9 CFR part 78 and that was published at 73 FR 6007-6008 on February 1, 2008.

Done in Washington, DC, this 19th day of August 2008.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc. E8-19624 Filed 8-22-08; 8:45 am]

BILLING CODE 3410-34-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2008-0187; Airspace Docket No. 07-ASO-27]

Modification of Area Navigation Route Q-110 and Jet Route J-73; Florida

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; correction.

SUMMARY: This action corrects a final rule published in the **Federal Register** on July 30, 2008; Airspace Docket No. 07-ASO-27, FAA Docket No. FAA-2008-0187. In that rule, an error was made in the navigation aid radials stated in the description for jet route J-73. This action corrects that error. The description of area navigation route Q-110 is correct as published in the rule.

DATES: *Effective Date:* 0901 UTC, September 25, 2008. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

FOR FURTHER INFORMATION CONTACT: Paul Gallant, Airspace and Rules Group, Office of System Operations Airspace and AIM, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; *telephone:* (202) 267-8783.

SUPPLEMENTARY INFORMATION:

History

On July 30, 2008, a final rule for Airspace Docket No. 07-ASO-27, FAA Docket No. FAA-2008-0187 was published in the **Federal Register** (73 FR 44147) to modify area navigation route Q-110 and jet route J-73. The legal description for J-73 contained an error in the radials used to form an intersection on the route between the La Belle, FL, very high frequency omnidirectional range/tactical air navigation (VORTAC) aid and the Lakeland, FL, VORTAC. The rule incorrectly described the point as: “* * * INT Labelle 314° and Lakeland, FL 162° radials. * * *” The correct version should read “* * * INT Labelle 313° and Lakeland, FL 161° radials. * * *” This action corrects the error. The description of route Q-110 is correct as published in the rule.
