19 CFR Part 141

[Docket No. USCBP-2008-0062]

RIN 1505-AB96; CBP Dec. 08-31

First Sale Declaration Requirement

AGENCIES: Customs and Border Protection, Department of Homeland Security; Department of the Treasury.
ACTION: Interim rule; solicitation of comments.

SUMMARY: This document establishes an importer declaration requirement pursuant to section 15422(a) of the Food, Conservation, and Energy Act of 2008 to assist Customs and Border Protection (CBP) in gathering information for all goods entered for consumption or withdrawn from warehouse for consumption on the transaction valuation of goods imported into the United States. Effective for a one-year period beginning August 20, 2008, all importers will be required to provide a declaration to CBP at the time of filing a consumption entry when, in a series of sequential sales, the transaction value of the imported

merchandise is determined on the basis of the “first or earlier sale” of goods—the first sale in which the goods are “sold for exportation to the United States” or any other sale earlier than the last sale prior to the introduction of the merchandise into the United States. CBP will then report the frequency of the use of the “first sale” rule and other associated data to the International Trade Commission (ITC) on a monthly basis.

DATES: This interim rule is effective on August 20, 2008. Comments must be received on or before October 24, 2008.

ADDRESSES: You may submit comments, identified by *docket number*, by one of the following methods:

SUPPLEMENTARY INFORMATION:

Public Participation

Interested persons are invited to participate in this rulemaking by submitting written data, views, or arguments on all aspects of the interim rule. Customs and Border Protection

(CBP) also invites comments that relate to the economic, environmental, or federalism effects that might result from this interim rule. Comments that will provide the most assistance will reference a specific portion of the interim rule, explain the reason for any recommended change, and include data, information, or authority that support such recommended change.

Background

The value of merchandise imported into the United States is determined primarily under transaction value which the U.S. value law, set forth in 19 U.S.C. 1401a, defines as “the price actually paid or payable for the merchandise when sold for exportation to the United States” plus specified additions to that amount. 19 U.S.C. 1401a(b)(1). The phrase “sold for exportation to the United States” is not defined in 19 U.S.C. 1401a, nor in the implementing regulations set forth in part 152 of title 19 of the Code of Federal Regulations (19 CFR part 152).

Notice of Proposed Interpretation

On January 24, 2008, CBP published in the **Federal Register** (73 FR 4254) a notice informing interested parties that CBP proposed a new interpretation of the expression “sold for exportation to the United States” for purposes of applying the transaction value method of valuation in a series of sales importation scenario. Under this proposed new interpretation in a transaction involving a series of sales, the price paid in the last sale occurring prior to the introduction of the goods into the United States, instead of an earlier sale, would be considered the price actually paid or payable for the imported goods when sold for exportation to the United States. CBP is withdrawing the notice of proposed interpretation.

Food, Conservation, and Energy Act of 2008

On May 22, 2008, Congress passed the Food, Conservation, and Energy Act of 2008 (the “Act”), Public Law 110–234, 122 Stat. 1547 (19 U.S.C. 1484 note). Section 15422 of the Act, in pertinent part, requires:

- CBP must collect a declaration as to whether the transaction value of the imported merchandise is determined on the basis of the price paid in the first or earlier sale occurring prior to the introduction of the merchandise into the United States.
- CBP must provide the collected information to the ITC on a monthly basis.

- ITC must submit a report to the House Ways and Means Committee and the Senate Finance Committee within 90 days of receipt of CBP’s final monthly report.

- A “sense of Congress” provision advises that CBP not amend its interpretation of “sold for exportation to the United States” for purposes of applying the transaction value of the imported merchandise in a series of sales before January 1, 2011. Beginning on January 1, 2011, CBP may propose to change its interpretation only if CBP: (1) Consults with and provides notice to the committees noted above not less than 180 days prior to proposing a change and not less than 90 days prior to publishing a change; (2) consults with, provides notice to, and takes into consideration views expressed by the Commercial Operations Advisory Committee not less than 120 days prior to proposing a change and not less than 60 days prior to publishing a change; and (3) receives the explicit approval of the Secretary of the Treasury prior to publishing a change. CBP should also take into consideration the ITC report before publishing any change to the expression “sold for exportation to the United States.”

Required Information on Entry Summary (CBP Form 7501)

In addition to the entry and entry summary information otherwise required for importation into the United States, as per section 484 of the Tariff Act of 1930, as amended (19 U.S.C. 1484), the Act obligates CBP to require that a U.S. importer of merchandise provide a declaration at the time of entry of the merchandise on the entry summary form, CBP Form 7501, as to whether the value of the imported merchandise was determined on the basis of the price paid by the buyer in the “first or earlier sale.”

On June 10, 2008, CBP participated in a teleconference call with members of the Trade Support Network (TSN), a group of private-sector trade representatives that provides CBP with input on the development of Customs Modernization projects. Participants in the call discussed various ways to indicate when customs value is based on the “first sale” on CBP Form 7501. Initially, CBP had considered requiring importers to provide three data elements on CBP Form 7501. During the teleconference, CBP agreed with TSN members that requiring importers to provide as few data elements as possible would be the most efficient and least burdensome manner in which to implement the declaration requirement. CBP has concluded, based upon its

consultation with the TSN, that it will require importers to provide one data element.

In order to implement the above requirement of the Act, importers will be required to insert a single code on CBP Form 7501 at the line-item level, indicating when first sale was used to determine the value of the imported merchandise. An importer will be required to enter an “F” next to the declared value if the value of the merchandise is based on transaction value, and the transaction value of the merchandise is based on the price paid by the buyer in the “first or earlier sale.” This special indicator code will enable CBP to fulfill its information collection obligation under the Act.

Inapplicability of Notice and Delayed Effective Date Requirements

Pursuant to 5 U.S.C. 553(b)(B) and (d)(3), CBP has determined that it would be impracticable and contrary to the public interest to delay publication of this rule in final form pending an opportunity for public comment and that there is good cause for this interim rule to become effective immediately upon publication. These interim amendments to 19 CFR 141.61(g) conform the regulations to the information collection requirements set forth in section 15422(a) of the Food, Conservation, and Energy Act of 2008, Public Law 110–234, 122 Stat. 1547 (19 U.S.C. 1484 note), which is effective August 20, 2008. These interim amendments inform the public of the procedures necessary to comply with the statutory requirements. For these reasons, pursuant to the provisions of 5 U.S.C. 553(d)(3), CBP finds that there is good cause for dispensing with a delayed effective date.

Regulatory Flexibility Act and Executive Order 12866

Because no notice of proposed rulemaking is required for this interim rule, the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) do not apply. Further, these interim amendments do not meet the criteria for a “significant regulatory action” as specified in E.O. 12866.

Paperwork Reduction Act

The collections of information in this document are contained in § 141.61(g) (19 CFR 141.61(g)). This information is used by CBP to fulfill its information collection obligations under section 15422(a) of the Food, Conservation, and Energy Act of 2008, Public Law 110–234, 122 Stat. 1547 (19 U.S.C. 1484 note), which mandates that CBP require a U.S. importer of merchandise to

provide information at the time of entry of the merchandise on the entry summary form, CBP Form 7501, as to whether the value of the imported merchandise was determined on the basis of the price paid by the buyer in the "first or earlier sale." The likely respondents are business organizations including importers and brokers. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid control number assigned by OMB. This collection of information falls under the previously approved collection 1651-0022 for the Entry Summary, CBP Form 7501.

[Docket No. FDA-2008-N-0423]

FDA Regulations; Technical Amendment

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule; technical amendment.

SUMMARY: The Food and Drug Administration (FDA) is amending a regulatory hearing process regulation to correct an inaccurate citation, and regulations pertaining to biological products to correct two typographical errors. FDA is also amending certain medical device regulations to include references to and mailing address information for the Center for Biologics Evaluation and Research (CBER), Center for Drug Evaluation and Research (CDER), and Center for Devices and Radiological Health (CDRH). This action is being taken to ensure the accuracy of FDA's regulations.

DATES: This rule is effective August 25, 2008.

FOR FURTHER INFORMATION CONTACT:

Denise Sánchez, Center for Biologics Evaluation and Research (HFM-17), Food and Drug Administration, 1401 Rockville Pike, suite 200N, Rockville, MD 20852-1448, 301-827-6210.

SUPPLEMENTARY INFORMATION:

I. Background

FDA is amending 21 CFR 16.1 to correct an inaccurate citation and is amending 21 CFR 610.51 and 21 CFR 640.53 to correct typographical errors.

FDA is also amending its medical device regulations in 21 CFR 812, 814, and 860 to include references to and mailing addresses for CBER and CDER,

and 21 CFR 822.8 to correct an inadvertent omission of the mailing address for CDRH. Submissions regarding a medical device must be sent to the address of the appropriate center that has regulatory responsibility for the medical device. Therefore, FDA is updating these regulations to include address information for all appropriate centers.

Publication of this document constitutes final action under the Administrative Procedures Act (5 U.S.C. 553). FDA has determined that notice and public comment are unnecessary because this amendment to the regulations provides only technical changes to correct an inaccurate citation and typographical errors, and to update mailing addresses and other information, and is nonsubstantive.
