SUPPLEMENTARY INFORMATION:

Background.—The final phase of this investigation is being scheduled as a result of an affirmative preliminary determination by the Department of Commerce that imports of small diameter graphite electrodes from China are being sold in the United States at less than fair value within the meaning of section 733 of the Act (19 U.S.C. 1673b). The investigation was requested in a petition filed on January 17, 2008, with the Commission and Commerce by SGL Carbon LLC, Charlotte, NC, and Superior Graphite Co., Chicago, IL.

Authorized applicants must represent interested parties, as defined by 19 U.S.C. 1677(9), who are parties to the investigation. A party granted access to BPI in the preliminary phase of the investigation need not reapply for such access. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Staff report.—The prehearing staff report in the final phase of this investigation will be placed in the nonpublic record on December 16, 2008, and a public version will be issued thereafter, pursuant to section 207.22 of the Commission's rules.

Background: Chapter 4 and Annex 4-A of the USAFTA contain the rules of origin for textiles and apparel for application of the tariff provisions of the USAFTA. These rules are set forth for the United States in general note 28 to the Harmonized Tariff Schedule (HTS). According to the request letter, U.S. negotiators have recently reached agreement in principle with representatives of the Government of Australia to modify the USAFTA rules of origin for certain yarns because it has been determined that U.S. and Australian producers are not able to produce viscose rayon staple fiber in commercial quantities in a timely manner. Information supplied to the Commission indicates that the yarns affected include blends of viscose rayon staple fibers with synthetic fibers, e.g., polyester, and with other artificial fibers, e.g., acetate. Section 203(o) of the United States-Australia Free Trade Agreement Implementation Act (the Act) authorizes the President, subject to the consultation and layover requirements of section 104 of the Act, to proclaim such modifications to the rules of origin as are necessary to implement an agreement with Australia pursuant to Article 4.2.5 of the Agreement. One of the requirements set out in section 104 of the Act is that the President obtains advice regarding the proposed action from the United States International Trade Commission.

The request letter asks that the Commission provide advice on the probable effect of the proposed modification of the USAFTA rules of origin noted above on U.S. trade under the USAFTA, on total U.S. trade, and on domestic producers of the affected articles. As requested, the Commission will submit its advice to USTR by
