I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of particular interest to persons who work in agricultural settings or persons who are concerned about implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA); the Federal Food, Drug, and Cosmetic Act (FFDCA); and the amendments to both of these major pesticide laws by the Food Quality Protection Act (FQPA) of 1996. Potentially affected entities may include, but are not limited to: Agricultural workers and farmers; pesticide industry and trade associations; environmental, consumer, and farmworker groups; pesticide users and growers; pest consultants; State, local and Tribal governments; academia; public health organizations; food processors; and the public. If you have questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Copies of this Document and Other Related Information?

1. *Docket.* EPA has established a docket for this action under docket identification (ID) number EPA-HQ-OPP-2008-0669. Although a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Publicly available docket materials are available either in the electronic docket at <http://www.regulations.gov>, or, if only available in hard copy, at the Office of Pesticide Programs (OPP) Regulatory Public Docket in Rm. S-4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Drive, Arlington, VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket Facility telephone number is (703) 305-5805.

2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet

under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr>.

A draft agenda is under development and will be posted by September 26, 2008, on EPA's website at: <http://www.epa.gov/pesticides/ppdc/>.

II. Background

EPA's Office of Pesticide Programs (OPP) is entrusted with the responsibility to help ensure the safety of the American food supply, the education and protection from unreasonable risk of those who apply or are exposed to pesticides occupationally or through use of products, and general protection of the environment and special ecosystems from potential risks posed by pesticides. The Charter for EPA's Pesticide Program Dialogue Committee (PPDC) was established under the Federal Advisory Committee Act (FACA), Public Law 92-463, in September 1995, and was renewed November 2, 2007, for another 2-year period. The purpose of PPDC is to provide advice and recommendations to the EPA Administrator on issues associated with pesticide regulatory development and reform initiatives, evolving public policy and program implementation issues, and science issues associated with evaluating and reducing risks from use of pesticides. It is determined that PPDC is in the public interest in connection with the performance of duties imposed on the Agency by law. The following sectors are represented on the PPDC: Pesticide industry and trade associations; environmental/public interest, consumer, and animal rights groups; farm worker organizations; pesticide user, grower, and commodity groups; Federal and State/local/Tribal governments; the general public; academia; and public health organizations. The objective of the PPDC Work Group on Web-Distributed Labeling is to provide advice regarding a process to ensure that the most current version of pesticide labeling is available to purchasers and users electronically. Copies of the PPDC Charter are filed with appropriate committees of Congress and the Library of Congress and are available upon request.

III. How Can I Request to Participate in this Meeting?

PPDC meetings are open to the public and seating is available on a first-come basis. Persons interested in attending do not need to register in advance of the meeting.

Summary of the Notice of Inquiry

I. Introduction

1. On July 25, 2008, the Commission adopted a *Memorandum Opinion and Order and Report and Order*, FCC 08-178 (“*Merger Order*”), approving the transfer of various licenses and authorizations from XM Satellite Radio Holdings Inc. (“XM”) to Sirius Satellite Radio Inc. (“Sirius”), both licensees of Satellite Digital Audio Radio Service (“SDARS”) systems in the United States. In the *Merger Order*, the Commission committed to initiate a Notice of Inquiry (“NOI”) within 30 days of adoption of the *Merger Order* on the issues of (i) requiring devices capable of receiving SDARS to include digital audio broadcast (“DAB”), or HD Radio™, or any other technologies capable of providing audio entertainment services; and (ii) requiring devices capable of receiving HD Radio to include SDARS or any other technologies capable of providing audio entertainment services. With this proceeding, we initiate this NOI.

II. Background

2. *HD Radio.* The Commission first considered the feasibility of terrestrial and satellite digital radio services in 1990. With respect to terrestrial digital radio, the Commission concluded that the available systems were undeveloped and that it was premature to engage in discussions regarding standards, testing, licensing, and other policy issues. In 1999, the Commission recognized new technological developments and innovations and commenced the DAB proceeding to begin the process of adopting a DAB system. In the *DAB NPRM*, the Commission proposed criteria for the evaluation of DAB models and systems and considered certain DAB system testing, evaluation, and standard selection issues. In October 2002, the Commission selected iBiquity's IBOC HD Radio technology as the sole digital technology for the terrestrial radio broadcast service. IBOC technology makes use of the existing AM and FM bands (in-band) by adding digital carriers to a radio station's analog signal, thereby allowing broadcasters to transmit digitally on their existing channel assignments (on-channel) while simultaneously maintaining their analog service. The Commission concluded that adoption of a single IBOC transmission standard would benefit the radio broadcast industry, and solicited industry assistance in developing a formal standard. In 2007, the Commission released the *Second DAB Report and Order*, adopting service rules, programming and operational rules, and technical rules. In the *Second DAB Report and Order*, the Commission refrained from imposing a mandatory conversion schedule for radio stations to commence digital broadcast operations, but many radio stations have begun digital transmissions on a voluntarily basis.

3. *SDARS.* SDARS was established by the Commission in 1997 and, after an auction, licenses were granted to two entities, Sirius and XM. In establishing SDARS, the Commission explained that the new service would provide “continuous nationwide radio programming with compact disc (CD) quality sound” and would “increase the variety of programming available to the listening public.” XM commenced service in September 2001, and Sirius began service in February 2002. In 2007, Sirius and XM requested Commission approval to merge. The Commission adopted a decision on July 25, 2008 approving the merger subject to conditions. The companies publicly reported on July 29, 2008 that they completed the transaction and the
