IV. Commission's Findings and Order Granting Accelerated Approval of the Proposed Rule Change

After careful consideration, the Commission finds that the proposed rule change is consistent with the requirements of the Exchange Act and the rules and regulations thereunder applicable to a national securities exchange.¹⁴ In particular, the Commission finds that the proposed rule change is consistent with Section 6(b)(5) of the Exchange Act,¹⁵ which requires that the rules of an exchange be designed, among other things, to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

The Commission finds good cause for approving this proposal before the 30th day after the publication of notice thereof in the **Federal Register**. The proposal seeks to conform the Exchange's rules for ELDS to the rules of Amex and NYSE Arca that have previously been approved by the Commission.¹⁶ Therefore, the Commission does not believe that the Exchange's proposal raises any novel regulatory issues. The Commission believes that accelerating approval of this proposal should benefit investors by creating, without undue delay, additional competition in the market for ELDS.

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Exchange Act,¹⁷

¹⁴ In approving this rule change, the Commission notes that it has considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).
