Contractors are only required to transcribe summary information from

SUPPLEMENTARY INFORMATION:

I. Abstract

This information collection, JSC Form 1625, has to do with operational groups at JSC and other NASA centers, NASA contractors, subcontractors, and vendors to provide descriptions of radioactive items used in or supplied for human space missions or approved JSC projects. The form also provides records of accountability, responsibility, transfer, location, and disposition of these items.

II. Method of Collection

The form, which is now available electronically, accompanies a physical shipment of nuclear materials and requires recipients to confirm shipment receipt. Converting the form to an electronic format and making it available on line has significantly reduced the burden of information gathering for respondents.
