

consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange and, in particular, with Section 6(b)(5) of the Act,⁷ which requires, among other things, that the rules of a national securities exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to, and perfect the mechanism of, a free and open market and a national market system and, in general, to protect investors and the public interest.⁸

The Commission believes that it is appropriate for the NYSE to align the timing requirement in Section 802.02 of the Manual for issuance of a press release when a company has received notice that it has fallen below the Exchange's continued listing standards with the Commission's timing requirement for providing notification of such event on the Form 8-K. The Commission believes that this change will ensure that a company issues a press release no later than the date it is currently required to file a Form 8-K providing notice of such event. The Commission notes that the amended rule provides that the company must issue a press release within the time period allotted by SEC rules, but in any event, no longer than four business days after notification. The Commission believes that reducing the time period from 45 days to 4 days within which companies must issue a press release is consistent with the protection of investors and the public interest because it will provide investors with earlier press release notification that the company has fallen out of compliance with Exchange listing requirements and avoids any confusion by conforming the time periods in the NYSE rules with current Commission requirements.

Further, the Commission believes that it is appropriate for the NYSE to reduce from 90 days to 30 days the period within which non-U.S. companies must issue a press release regarding a notification by the Exchange of noncompliance with the Exchange's listing standards. The Commission believes that this change should still allow companies sufficient time to make the required disclosure, while at the same time providing investors with a more timely notification of important news that the company does not satisfy a rule or standard for continued listing

on the Exchange. The Commission notes that non-U.S. companies that do not qualify as foreign private issuers would have to comply with the amended disclosure for domestic companies pursuant to Section 802.02.⁹

The Commission also believes that it is appropriate for the Exchange to issue a press release itself in the event that a company has not acted within the new time periods required by this proposed rule change. This will ensure that investors are provided notification of a company's non-compliance in a timely fashion, regardless of a company's failure to meet the timing requirements of these rules. The Commission notes that the existing rule being amended herein did allow the Exchange to make such disclosure under the longer time periods. This proposal will permit a continuation of this authority, but with the updated time periods.¹⁰

For the reasons set forth above, the Commission finds that the proposed rule change is consistent with the Act.

IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹¹ that the proposed rule change (SR-NYSE-2008-59) be, and hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹²

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, NYSE included statements concerning the purpose of, and basis for, the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. NYSE has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Regulation NMS, adopted by the Securities and Exchange Commission ("SEC") in April 2005,⁸ provides that each trading center intending to qualify for trade-through protection under Regulation NMS Rule 611⁹ is required to have a Regulation NMS-compliant trading system fully operational by March 5, 2007 (the "Trading Phase Date").¹⁰

For stocks priced below \$1.00 per share, Regulation NMS Rule 612¹¹ permits markets to accept bids, offers, orders and indications of interest in increments smaller than a \$0.01, but not less than \$0.0001, and to quote and trade such stocks in sub-pennies. Markets may choose not to accept such bids, offers, orders or indications of interest and the NYSE has done so, maintaining a minimum trading and quoting variation of \$0.01 for all securities trading below \$100,000. See NYSE Rule 62.

The SEC's interpretation of Rule 612 requires a market that routes an order to another market in compliance with Rule 611 and receives a sub-penny execution, to accept the sub-penny execution, report that execution to the customer, and compare, clear and settle that trade.

The SEC, however, provided a limited exemption to Rule 611's proscription against trade-throughs to protected quotes that include a sub-penny component to such quotes that are better-priced by a minimum of \$0.01.¹²

In March, 2007, the Exchange amended Rule 123D to provide for a "Sub-penny trading" condition because the Exchange's trading systems did not then accommodate sub-penny executions on orders routed to better-priced protected quotations, nor could it recognize a quote disseminated by another market center if such quote had a sub-penny component and, therefore, could have inadvertently traded through better protected quotations. The amended rule automatically halts trading on the Exchange in a security whose price was about to fall below \$1.00, without delisting the security, so that the security could continue to trade on other markets that deal in bids, offers, orders or indications of interest in sub-penny prices, until the price of the security had recovered sufficiently to permit the Exchange to resume trading in minimum increments of no less than one penny or the issuer is delisted for failing to correct the price condition within the time provided under NYSE rules.¹³ A subsequent amendment established that any orders received by the NYSE in a security subject to a "Sub-penny trading" condition would be routed to NYSE Arca, Inc. and handled in accordance with the rules governing that market.¹⁴

Federal Government Takeover of Fannie Mae and Freddie Mac

On September 7, 2008, Secretary of the Treasury Henry Paulson announced that the federal government would force Fannie Mae and Freddie Mac into a conservatorship that will result in the companies issuing warrants to the federal government representing approximately 80% ownership of the entities. Details of the plan are available at the Department of the Treasury's Web site, at http://www.treas.gov/press/releases/reports/pspa_factsheet_090708%20hp1128.pdf.

The NYSE anticipates that the government's action will have a significantly disruptive effect on the

trading in the common stock of both Fannie Mae and Freddie Mac, which may cause those shares to trade below \$1.00 per share. Ordinarily, such an action would result in the NYSE invoking its sub-penny trading halt, which would halt trading on the primary listing venue of the securities. But, given the scope of the government's action, the NYSE believes that the market will substantially benefit from having the most available liquidity and the greatest number of venues in which investors can trade the securities of Fannie Mae and Freddie Mac, and would further benefit from the efforts of the NYSE specialists in those securities to stabilize the markets as public investors react to the news. The NYSE further believes that these benefits outweigh the potential harms that NYSE Rule 123D was intended to address, and that therefore, a temporary suspension of that rule for this limited purpose would serve the interests of customers and the investing public, notwithstanding the possibility that some investors may receive an inferior execution due to sub-penny quoting. The NYSE recognizes that the suspension of Rule 123D does not thereby exempt the Exchange from Reg NMS Rules 611 and 612, but notes that the inferior executions that may result would only amount to fractions of a penny per share, and therefore the potential harm, even in the case of large orders, would be minimal.

2. Statutory Basis

The proposed rule change is consistent with Section 6(b)¹⁵ of the Securities Exchange Act of 1934 (the "Act"), in general, and furthers the objectives of Section 6(b)(5)¹⁶ in particular in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanism of a free and open market and a national market system.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has designated the proposed rule change as one that: (1) Does not significantly affect the protection of investors or the public interest; (2) does not impose any significant burden on competition; and (3) does not become operative for 30 days from the date of filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest. Therefore, the foregoing rule change has become effective pursuant to section 19(b)(3)(A) of the Act¹⁷ and subparagraph (f)(6) of Rule 19b-4 thereunder.¹⁸

A proposed rule change filed under 19b-4(f)(6) normally does not become operative until 30 days after the date of filing.¹⁹ However, Rule 19b-4(f)(6)(iii)²⁰ permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has requested that the Commission waive the 30-day operative delay so that the proposal may become operative immediately upon filing. The Exchange believes that the proposed relief is limited in nature, and that the benefits of the proposed relief outweigh the potential harms. Moreover, given the rapidity of recent developments with respect to Fannie Mae and Freddie Mac, the Exchange believes that immediate effectiveness is required in order to avoid significant disruption to the market.

The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest. The Commission therefore grants the Exchange's request and designates the proposal to be operative upon filing.²¹

¹⁷ 15 U.S.C. 78s(b)(3)(A).

¹⁸ 17 CFR 240.19b-4(f)(6).

¹⁹ *Id.* In addition, Rule 19b-4(f)(6)(iii) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. NYSE has satisfied this requirement.

²⁰ *Id.*

²¹ For purposes only of waiving the 30-day operative delay of this proposal, the Commission has considered the proposed rule's impact on

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:
