

the § 102.20 specific rule or other requirements applicable to the good.

A change in tariff classification is not allowed with respect to the PCB subassembly. As stated above, both the PCB subassembly and the GFCI are classified in subheading 8536.30.80, HTSUS. The PCB subassembly is manufactured in China (as are all of the components of the GFCI). Therefore, under section 102.11(b)(1), CBP Regulations, the country of origin of the GFCI is China.

Pursuant to 19 U.S.C. 1304, the country of origin of the GFCI for country of origin marking purposes is China.

Holdings

The assembly operations to be performed in Mexico are not sufficiently complex for the process to result in a substantial transformation of the components. Therefore, the country of origin of the GFCI for government procurement purposes is China.

Pursuant to 19 U.S.C. 1304, the country of origin of the GFCI for country of origin marking purposes is China.

Notice of this final determination will be given in the **Federal Register**, as required by 19 CFR 177.29. Any party-at-interest other than the party which requested this final determination may request, pursuant to 19 CFR 177.31, that CBP reexamine the matter anew and issue a new final determination. Pursuant to 19 CFR 177.30, any party-at-interest may, within 30 days after publication of the **Federal Register** notice referenced above, seek judicial review of this final determination before the Court of International Trade.

Sincerely,

Myles B. Harmon,
Acting Executive Director,
Office of Regulations and Rulings,
Office of International Trade.

SUPPLEMENTARY INFORMATION:**Background**

On March 13, 2007, the Department of the Interior published a notice of establishment of the Committee and call for nominations in the **Federal Register** (72 FR 11373). The Committee's purpose is to provide advice and recommendations to the Secretary of the Interior (Secretary) on developing effective measures to avoid or minimize impacts to wildlife and their habitats related to land-based wind energy facilities. The Committee is expected to exist for 2 years and meet approximately four times per year, and its continuation is subject to biennial renewal. All Committee members serve without compensation. In accordance with the Federal Advisory Committee Act (5 U.S.C. App.), a copy of the Committee's charter has been filed with the Committee Management Secretariat, General Services Administration; Committee on Environment and Public
