

Estimated total number of potential respondents: 1758.

Frequency of response: Once.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: \$30,147.

Estimated total annual costs: \$30,147. This includes estimated burden costs only as there are no capital costs or operating and maintenance costs associated with this collection of information.

Are There Changes in the Estimates From the Last Approval?

Burden estimates included here are based on the supporting statement submitted for the original, approved ICR. Burden estimates will be revised to reflect new information and will be made available for public comment at the time the ICR is submitted to OMB for approval.

What is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: September 15, 2008.

Title: Final Authorization for Hazardous Waste Management Programs (Renewal).

ICR numbers: EPA ICR No. 0969.08, OMB Control No. 2050-0041.

ICR status: This ICR is currently scheduled to expire on September 30, 2008. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: In order for a State to obtain final authorization for a State hazardous waste program or to revise its previously authorized program, it must submit an official application to the EPA Regional office for approval. The purpose of the application is to enable EPA to properly determine whether the State's program meets the requirements of § 3006 of the Resource Conservation and Recovery Act (RCRA). A State with an approved program may voluntarily transfer program responsibilities to EPA by notifying EPA of the proposed transfer, as required by 40 CFR 271.23. Further, EPA may withdraw a State's authorized program under 40 CFR 271.23.

State program revision may be necessary when the controlling Federal or State statutory or regulatory authority is modified or supplemented. In the event that the State is revising its program by adopting new Federal requirements, the State shall prepare and submit modified revisions of the program description, Attorney General's

statement, Memorandum of Agreement, or such other documents as EPA determines to be necessary. The State shall inform EPA of any proposed modifications to its basic statutory or regulatory authority in accordance with 40 CFR 271.21. If a State is proposing to transfer all or any part of any program from the approved State agency to any other agency, it must notify EPA in accordance with 40 CFR 271.21 and submit revised organizational charts as required under 40 CFR 271.6, in accordance with 40 CFR 271.21. These paperwork requirements are mandatory under § 3006(a) of RCRA. EPA will use the information submitted by the State in order to determine whether the State's program meets the statutory and regulatory requirements for authorization.

Burden Statement: EPA does not expect any States to develop a program application or to submit a base program application over the three year period covered in this ICR. For a State submitting a revised program to EPA, the reporting burden is estimated to be 1,009 hours per year, with no associated recordkeeping burden. For a State whose program is being withdrawn, the reporting burden is estimated to average 207 hours, with no associated recordkeeping burden. EPA, however, does not expect that any State program will be withdrawn during the next three years.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: State governments.

Estimated Number of Respondents: 58.

Frequency of Response: Annually.

Estimated Total Annual Hour Burden: 19,968.

Estimated Total Annual Cost: \$658,454, which includes \$658,454 annualized labor costs and \$0 annualized capital or O&M costs.

Changes in the Estimates: There is no change in hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens.

Dated: September 16, 2008.

Sara Hisel-McCoy,

Director, Collection Strategies Division.
