

operative delay based upon CBOE's representation to the Commission that Lehman Brothers Inc. is seeking to transfer its trading operations on CBOE to Barclays Capital Inc. on an expeditious basis and that the waiver of the foregoing time period will help to facilitate the orderly transfer of these operations and avoid the disruption to those operations and to CBOE's market that would result if those operations needed to be curtailed because Barclays Capital Inc. would not have immediate use of the Interim Trading Permits used to support those operations. Although the foregoing is the impetus for this rule change, going forward any other Interim Trading Permit holder would also be able to avail themselves of the proposed transfer provision if desired. Based on these reasons, the Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest, and thus designates the proposal effective upon filing.¹¹

At any time within sixty days of the filing of the proposed rule change, the Commission may summarily abrogate the rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments
