DATE: The State and Local Training Advisory Committee will meet Thursday, October 16, 2008, from 8 a.m. to 4 p.m. Please note that the meeting may close early if the committee has completed its business.

ADDRESSES: The meeting will be held at the Epworth by the Sea, 100 Arthur J. Moore Drive, St. Simons Island, GA 31522. Send written material, comments, and/or requests to make an oral presentation to the contact person listed below by October 6th. Requests to have a copy of your material distributed to each member of the committee prior to the meeting should reach the contact person at the address below by October 6th. Comments must be submitted by one of the following methods:

- E-mail: reba.fischer@dhs.gov.
- Fax: (912) 267–3531. (Not a toll-free number.)
- Mail: Reba Fischer, Designated Federal Officer (DFO), Federal Law Enforcement Training Center, Department of Homeland Security, 1131 Chapel Crossing Road, Townhouse 396, Glynnco, GA 31524.

Instructions: All submissions received must include the words “Department of Homeland Security” and the docket number for this action. Comments received will be posted without alteration at www.regulations.gov, including any personal information provided.

Docket: For access to the docket to read background documents or comments received by the State and Local Training Advisory Committee, go to www.regulations.gov.

FOR FURTHER INFORMATION CONTACT: Reba Fischer, Designated Federal Officer, Federal Law Enforcement Training Center, Department of Homeland Security, 1131 Chapel Crossing Road, Townhouse 396, Glynnco, GA 31524; (912) 267–2343; reba.fischer@dhs.gov.

SUPPLEMENTARY INFORMATION: Notice of this meeting is given under the Federal Advisory Committee Act, 5 U.S.C. App. (Pub. L. 92–463). The mission of the State and Local Training Advisory Committee is to advise and make recommendations on matters relating to the selection, development, content and delivery of training services by the OSL/FLETC to its state, local, campus, and tribal law enforcement customers.

Draft Agenda

The draft agenda for this meeting includes briefings to update committee members on OSL and FLETC training initiatives and to provide feedback on committee recommendations. Committee members will be asked to provide recommendations on intelligence led policing, rural training needs, and validation of training programs.

Procedural

This meeting is open to the public. Please note that the meeting may close early if all business is finished. Visitors must pre-register attendance to ensure adequate seating. Please provide your name and telephone number by close of business on October 6, 2008, to Reba Fischer (contact information above).

Information on Services for Individuals with Disabilities: For information on facilities or services for individuals with disabilities or to request special assistance at the meeting, contact Reba Fischer as soon as possible.

Seymour A. Jones,
Deputy Assistant Director, Office of State and Local Law Enforcement Training.

DEPARTMENT OF THE INTERIOR
Fish and Wildlife Service
Endangered and Threatened Wildlife and Plants; 5-Year Review
AGENCY: Fish and Wildlife Service, Interior.
ACTION: Notice of initiation of review; request for information on the piping plover (Charadrius melodus).
SUMMARY: We, the U.S. Fish and Wildlife Service (Service), initiate 5-year reviews of the piping plover (Charadrius melodus).
DATES: To allow us adequate time to conduct these reviews, we must receive your information no later than December 1, 2008. However, we will continue to accept new information about any listed species at any time.

FOR FURTHER INFORMATION CONTACT: Please contact the appropriate person under “Public Solicitation of New Information.” Individuals who are hearing impaired or speech impaired may call the Federal Relay Service at 800–877–8337 for TTY (telephone typewriter or teletypewriter) assistance.

SUPPLEMENTARY INFORMATION: We initiate 5-year reviews of the Atlantic Coast, Great Lakes, and Northern Great Plains populations of the piping plover (Charadrius melodus), under the Act. In our December 11, 1985, final rule listing the piping plover across its range, we determined the Great Lakes breeding population to be endangered (but threatened when occurring outside of the Great Lakes watershed—See Table 1) and the Atlantic Coast and Great Plains populations to be threatened (50 FR 50726). We then approved recovery plans for the Atlantic Coast (USFWS 1988a, 1996), Great Lakes (USFWS 1988b, 2003), and Northern Great Plains (USFWS 1988b) populations. The three populations share wintering habitats along the Atlantic and Gulf Coasts, from North Carolina to Mexico and into the Caribbean Islands.

We request any new information on these populations that may have a bearing on their classification as endangered or threatened. Based on the results of these 5-year reviews, we will make findings on whether these populations are properly classified under the Act.

Why Do We Conduct a 5-Year Review?
Under the Act, we maintain the List of Endangered and Threatened Wildlife and Plant Species (List) at 50 CFR 17.11 and 17.12. We amend the List by publishing final rules in the Federal Register. Section 4(c)(2)(A) of the Act requires that we conduct a review of listed species at least once every 5 years. Section 4(c)(2)(B) requires that we determine (1) whether a species no longer meets the definition of threatened or endangered and should be removed from the List (delisted); (2) whether a species more properly meets the definition of threatened and should be reclassified from endangered to threatened; or (3) whether a species more properly meets the definition of endangered and should be reclassified...
from threatened to endangered. Using the best scientific and commercial data available, a species will be considered for delisting if the data substantiate that the species is neither endangered nor threatened for one or more of the following reasons: (1) The species is considered extinct; (2) the species is considered to be recovered; and/or (3) the original data available when the species was listed, or the interpretation of such data, were in error. Any change in Federal classification requires a separate rulemaking process. Therefore, we are requesting submission of any such information that has become available for each of the three piping plover populations since we initiated the last formal status review on November 6, 1991 (56 FR 56882). Based on the results of these 5-year reviews, we will make the requisite findings under section 4(c)(2)(B) of the Act.

Our regulations at 50 CFR 424.21 require that we publish a notice in the Federal Register announcing those species currently under review. This notice announces initiation of our active review of the piping plover (Table 1).

### TABLE 1—Piping Plover Listing Information Summary

<table>

### What Information Do We Consider in Our Review?

In our 5-year review, we consider all new information available at the time of the review. These reviews will consider the best scientific and commercial data that have become available since the original listing determination or most recent status review of each species, such as—(A) Species biology, including but not limited to population trends, distribution, abundance, demographics, and genetics; (B) Habitat conditions, including but not limited to amount, distribution, and suitability; (C) Conservation measures that have been implemented to benefit the species; (D) Threat status and trends (see five factors under heading “How do we determine whether a species is endangered or threatened?”); and (E) Other new information, data, or corrections, including but not limited to taxonomic or nomenclatural changes, identification of erroneous information contained in the List of Endangered and Threatened Wildlife and Plants, and improved analytical methods.

### Public Solicitation of New Information

We request any new information concerning the status of the piping plover (Atlantic Coast, Great Lakes, and Northern Great Plains populations). See “What Information Do We Consider in Our Review?” for specific criteria. If you submit information, support it with documentation such as maps, bibliographic references, methods used to gather and analyze the data, and/or copies of any pertinent publications, reports, or letters by knowledgeable sources. We specifically request information regarding data from any systematic surveys, as well as any studies or analysis of data that may show population size or trends; information pertaining to the biology or ecology of the species; information regarding the effects of current land management on population distribution and abundance; information on the current condition of habitat; and recent information regarding conservation measures that have been implemented to benefit the species. Additionally, we specifically request information regarding the current distribution of populations and evaluation of threats faced by the species in relation to the five listing factors (as defined in section 4(a)(1) of the Act) and the species’ listed status as judged against the definition of threatened or endangered. Finally, we solicit recommendations pertaining to the development of, or potential updates to recovery plans and additional actions or studies that would benefit these populations in the future.

Our practice is to make information, including names and home addresses of respondents, available for public review. Before including your address, telephone number, e-mail address, or other personal identifying information in your response, you should be aware that your entire submission—including your personal identifying information—may be made publicly available at any time. While you can ask us in your response to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Submit all electronic information in Text or Rich Text format. Provide your name and return address in the body of your message, and include the following identifier in the e-mail subject line: “Information on 5-year review for Piping Plover.” You may also view information we receive in response to this notice, as well as other documentation in our files, at the locations below by appointment, during normal business hours. Please contact the appropriate person below. Mail or hand-deliver information to the address(es) below as the information pertains to the piping plover in the corresponding States and other areas: Michigan, Wisconsin, Minnesota, Illinois, Indiana, Ohio, Pennsylvania, and Ontario: U.S. Fish and Wildlife Service, East Lansing Field Office, 2651 Coolidge Road, Suite 101, East Lansing, MI 48823–5902; Attention: Mr. Jack Dingledine. Direct inquiries to Mr. Dingledine at 517–351–6320 (phone) or FW3MidwestRegion_5YearReview@fws.gov (e-mail).

Montana, North Dakota, South Dakota, Iowa, Nebraska, Colorado, Kansas, Alberta, Saskatchewan, and Manitoba: U.S. Fish and Wildlife Service, 3425 Miriam Avenue, Bismarck, ND 58501; Attention: Ms. Carol Aron. Direct inquiries to Ms. Aron at 701–250–4481 (phone) or carol_aron@fws.gov (e-mail).

North Carolina, South Carolina, Georgia, Bahamas, Cuba, Puerto Rico, and other Caribbean Islands: U.S. Fish and Wildlife Service, P.O. Box 33726, Raleigh, NC 27636–3726; Attention: Mr. David Rabon. Direct inquiries to Mr. Rabon at 919–856–4520, extension 16 (phone) or david_raban@fws.gov (e-mail).

Texas and Mexico: U.S. Fish and Wildlife Service, Ecological Services Field Office, c/o TAMUCC, 6300 Ocean Drive—USFWS Unit 5837, Corpus Christi, TX 78412–5837; Attention: Ms. Robyn Cobb. Direct inquiries to Ms.
The present or threatened destruction, modification, or curtailment of its habitat or range; (B) Overutilization for commercial, recreational, scientific, or educational purposes; (C) Disease or predation; (D) The inadequacy of existing regulatory mechanisms; or (E) Other natural or manmade factors affecting its continued existence.

Section 4(a)(1) of the Act requires that our determination be made on the basis of the best scientific and commercial data available.

What Could Happen as a Result of Our Review?

For the species under review, if we find new information that indicates a change in classification may be warranted, we may propose a new rule that could do one of the following: (a) Reclassify the population from threatened to endangered (uplist); (b) reclassify the population from endangered to threatened (downlist); or (c) remove the population(s) from the List (delist).

If we determine that a change in classification is not warranted, then the populations will remain on the List under their current status.

ENDANGERED SPECIES

DEPARTMENT OF THE INTERIOR
Fish and Wildlife Service

[Importance: This notice is hereby given that on the dates below, as authorized by the provisions of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 et seq.), and/or the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 et seq.), the Fish and Wildlife Service issued the requested permits subject to certain conditions set forth therein. For each permit for an endangered species, the Service found that (1) the application was filed in good faith, (2) the granted permit would not operate to the disadvantage of the endangered species, and (3) the granted permit would be consistent with the purposes and policy set forth in Section 2 of the Endangered Species Act of 1973, as amended.]

ENDANGERED SPECIES

BILLING CODE 4310–55–P

ENDANGERED SPECIES

dbb@fws.gov (e-mail).

Florida, Alabama, Mississippi, and Louisiana: U.S. Fish and Wildlife Service, 1601 Balboa Avenue, Panama City, FL 32405;Attention: Ms. Patty Kelly. Direct inquiries to Ms. Kelly at 850–760–0552, extension 228 (phone) or patricia_kelly@fws.gov (e-mail).

New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Maryland, Virginia, Newfoundland, Quebec, Nova Scotia, Prince Edward Island, New Brunswick, and St. Pierre and Miquelon (France), piping plovers in any area not listed above, information pertinent to multiple regions: U.S. Fish and Wildlife Service, 73 Weir Hill Road, Sudbury, MA 01776;Attention: Ms. Anne Hecht. Direct inquiries to Ms. Hecht at 978–443–4325 (phone) or anne_hecht@fws.gov (e-mail).

Table 1 provides current listing information. Also, the List, which covers all listed species, is available on our Internet site at http://endangered.fws.gov/wildlife.html#Species.

Definitions

To help you submit information about the species we are reviewing, we provide the following definitions:

Species includes any species or subspecies of fish, wildlife, or plant, and any distinct population segment of any species of vertebrate, which interbreeds when mature;

Endangered species means any species that is in danger of extinction throughout all or a significant portion of its range; and

Threatened species means any species that is likely to become an endangered species within the foreseeable future throughout all or a significant portion of its range.

How Do We Determine Whether a Species Is Endangered or Threatened?

Section 4(a)(1) of the Act establishes that we determine whether a species is endangered or threatened based on one or more of the five following factors: (A)
