Estimated Total Annual Respondent Burden Hours: 1,040 hours per year.

Estimated Total Annual Respondent Cost Burden: \$36,067. The USPTO is

calculating an estimated respondent hourly rate through an estimate of earnings obtained from the Bureau of Labor Statistics, Occupational Outlook Handbook, 2008–09 edition. The USPTO estimates that half of the submissions will be filed by public relations specialists and half by research

engineers. The USPTO estimates that it will cost public relations specialists \$23.68 per hour and research engineers \$45.68 per hour, for an average hourly rate of \$34.68. Considering these factors, the USPTO estimates \$36,067 per year for labor costs associated with respondents.

Item	Estimated time for response	Estimated annual responses	Estimated annual burden hours
National Medal of Technology and Innovation Nomination Form	40 hours	26	1,040
Total	26	1,040

Estimated Total Annual (Non-hour) Respondent Cost Burden: \$0.

There are no capital start-up, operation, maintenance or record keeping costs associated with this information collection, and there are no filing fees.

Although it is possible for the public to submit the nominations through regular or express mail, to date no submissions have been received in this manner. The majority of recent submissions have been through electronic mail. The USPTO, therefore, is not calculating an estimate of postage costs associated with this information collection.

The rule is designed to assist the Commission in monitoring legal proceedings involving the responsibilities imposed on contract markets and their officials and futures commission merchants and their principals by the Commodity Exchange Act, or otherwise.

The Commission's rules require futures commission merchants and introducing brokers: (1) To provide their customers with standard risk disclosure statements concerning the risk of trading commodity interests; and (2) to retain all promotional material and the source of authority for information

contained therein. The purpose of these rules is to ensure that customers are advised of the risks of trading commodity interests and to avoid fraud and misrepresentation. In addition, the Commission's rules impose obligations on contract markets that are designed to avoid manipulation and fraud. In order

to ensure compliance with these rules, the Commission requires the information whose collection and dissemination is required under 17 CFR 1.60.

The Commission estimates the burden of this collection of information as follows:
