Title: Refugee State-of-Origin Report (Form ORR-11).
OMB No.: 0970-0043.
Description: The information collection of the ORR-11 (Refugee State-

information collection. The purpose of this collection is to obtain data upon which to base the computation for measuring State performance in meeting the legislative goals of TANF as specified in section 403(a)(4) of the Social Security Act and 45 CFR part 270.

Specifically, the Department of Health and Human Services (HHS) will use the data to award the portion of the bonus that rewards States for their success in moving TANF recipients from welfare to work. States will not be required to submit this information unless they elect to compete on a work measure for the TANF High Performance Bonus awards.

Respondents: Respondents may include any of the 50 States, the District of Columbia, Guam, Puerto Rico, and the Virgin Islands.

of-Origin Report) is designed to satisfy the statutory requirements of the Immigration and Nationality Act. Section 412(a)(3) of the Act requires the Office of Refugee Resettlement to compile and maintain data on the secondary migration of refugees within the United States after arrival. In order to meet this legislative requirement, ORR requires each State to submit an annual count of the number of refugees who were initially resettled in another State. The State does this by counting the number of refugees with social security numbers indicating residence in another State at the time of arrival in the United States. (The first three digits of the social security number indicate the State of residence of the applicant.) Data submitted by the States are compiled and analyzed by the ORR statistician, who then prepares a summary report, which is included in ORRs Annual Report to Congress. The primary use of the data is to quantify and analyze the refugee secondary services formula allocation.

Respondents: State, local and tribal government.
