The company anticipates that some 27 percent of the plant's stainless steel shipments and 5–10 percent of its carbon steel shipments will be exported. On its domestic sales, ThyssenKrupp would be able to choose the duty rates during customs entry procedures that apply to the finished stainless steel and carbon steel products (duty-free) for the foreign inputs noted above. The request indicates that the savings from FTZ procedures would help improve the plant's international competitiveness.

In accordance with the Board's regulations, Elizabeth Whiteman of the FTZ Staff is designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below.
