

f. Any person who has petitioned or intends to petition for leave to intervene.

In accordance with 10 CFR 51.26, the scoping process for an EIS may include a public scoping meeting to help identify significant issues related to a proposed activity and to determine the scope of issues to be addressed in an EIS. The NRC has decided to hold public meetings for the KPS license renewal supplement to the GEIS. The scoping meetings will be held at the Carlton Town Hall, N 1296 Town Hall Road, Kewaunee, WI 54216 on October 22, 2008. There will be two sessions to accommodate interested parties. The first session will convene at 1:30 p.m. and will continue until 4:30 p.m., as necessary. The second session will convene at 7 p.m. with a repeat of the overview portions of the meeting and will continue until 10 p.m., as necessary. Both meetings will be transcribed and will include: (1) An overview by the NRC staff of the NEPA environmental review process, the proposed scope of the supplement to the GEIS, and the proposed review schedule; and (2) the opportunity for interested government agencies, organizations, and individuals to submit comments or suggestions on the environmental issues or the proposed scope of the supplement to the GEIS. Additionally, the NRC staff will host informal discussions one hour prior to the start of each session at the same location. No formal comments on the proposed scope of the supplement to the GEIS will be accepted during the informal discussions. To be considered, comments must be provided either at the transcribed public meetings or in writing, as discussed below. Persons may register to attend or present oral comments at the meetings on the scope of the NEPA review by contacting the NRC Environmental Project Manager, Ms. Sarah Lopas, by telephone at 1-800-368-5642, extension 1147, or by e-mail at [sarah.lopas@nrc.gov](mailto:sarah.lopas@nrc.gov) no later than October 17, 2008. Members of the public may also register to speak at the meeting within 15 minutes of the start of each session. Individual oral comments may be limited by the time available, depending on the number of persons who register. Members of the public who have not registered may also have an opportunity to speak, if time permits. Public comments will be considered in the scoping process for the supplement to the GEIS. Ms. Lopas will need to be contacted no later than October 15, 2008, if special equipment or accommodations are needed to attend or present information at the public

meeting, so that the NRC staff can determine whether the request can be accommodated.

Members of the public may send written comments on the environmental scope of the KPS license renewal review to: Chief, Rulemaking, Directives and Editing Branch, Division of Administrative Services, Office of Administration, Mailstop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and should cite the publication date and page number of this **Federal Register** notice. Comments may also be delivered to the NRC, Room T-6D59, Two White Flint North, 11545 Rockville Pike, Rockville, Maryland 20852, from 7:30 a.m. to 4:15 p.m. during Federal workdays. To be considered in the scoping process, written comments should be postmarked by December 8, 2008. Electronic comments may be sent by e-mail to the NRC at [Kewaunee.EIS@nrc.gov](mailto:Kewaunee.EIS@nrc.gov), and should be sent no later than December 8, 2008, to be considered in the scoping process. Comments will be available electronically and accessible through ADAMS at <http://adamswebsearch.nrc.gov/dologin.htm>.

Participation in the scoping process for the supplement to the GEIS does not entitle participants to become parties to the proceeding to which the supplement to the GEIS relates. Notice of opportunity for a hearing regarding the renewal application was the subject of the aforementioned **Federal Register** notice (73 FR 57154). Matters related to participation in any hearing are outside the scope of matters to be discussed at this public meeting.

At the conclusion of the scoping process, the NRC will prepare a concise summary of the determination and conclusions reached, including the significant issues identified, and will send a copy of the summary to each participant in the scoping process. The summary will also be available for inspection in ADAMS at <http://adamswebsearch.nrc.gov/dologin.htm>. The staff will then prepare and issue for comment the draft supplement to the GEIS, which will be the subject of separate notices and separate public meetings. Copies will be available for public inspection at the above-mentioned addresses, and one copy per request will be provided free of charge. After receipt and consideration of the comments, the NRC will prepare a final supplement to the GEIS, which will also be available for public inspection.

Information about the proposed action, the supplement to the GEIS, and the scoping process may be obtained

from Ms. Lopas at the aforementioned telephone number or e-mail address.

Dated at Rockville, Maryland, this 2nd day of October 2008.

For the Nuclear Regulatory Commission.

## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-250 and 50-251]

### Florida Power and Light Company; Notice of Issuance of Amendment to Renewed Facility Operating License and Final Determination of No Significant Hazards Consideration (TAC Nos. MD9229 and MD9330)

The U.S. Nuclear Regulatory Commission (NRC or Commission) has issued Amendment Nos. 238 and 233 to Facility Operating License Nos. DPR-31 and DPR-41, respectively, issued to Florida Power and Light Company (the licensee), which revised the Technical Specifications (TSs) for operation of the Turkey Point Nuclear Plant, Units 3 and 4, located in Miami-Dade County, Florida. The amendment was effective as of the date of its issuance.

These amendments remove the notes associated with License Amendment No. 221 regarding the inoperability of the Unit 4 Rod Position Indication (RPI) system for control rod F-8 in Shutdown Bank B, and the notes associated with Amendment No. 230 regarding the inoperability of the Unit 3 RPI system for control rod M-6 in Control Bank C. The RPI system for control rod F-8 was repaired during the Unit 4 Cycle 22 refueling outage in spring 2005; thus, the associated TS License Amendment No. 221 revisions are no longer required. Similarly, the RPI system for control rod M-6 was repaired in June 2007; thus, the associated TS License Amendment No. 230 revisions are no longer required.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

Notice of Consideration of Issuance of Amendment and Proposed No Significant Hazards Consideration Determination and Opportunity for

Hearing in connection with this action was published in the **Federal Register** on July 29, 2008 (73 FR 43956). A request for a hearing was filed on August 18, 2008, by Thomas Saporito, President of Saporito Energy Consultants.

Under its regulations, the Commission may issue and make an amendment immediately effective, notwithstanding the pendency before it of a request for a hearing from any person, in advance of the holding and completion of any required hearing, where it has determined that no significant hazards consideration is involved.

The Commission has applied the standards of 10 CFR 50.92 and has made a final determination that the amendment involves no significant hazards consideration. The basis for this determination is contained in the Safety Evaluation related to this action. Accordingly, as described above, the amendment has been issued and made immediately effective and any hearing will be held after issuance.

The Commission has determined that this amendment satisfies the criteria for categorical exclusion in accordance with 10 CFR 51.22. Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared for this amendment.

For further details with respect to this action, see the application for amendment dated September 5, 2007, as supplemented by letter dated September 8, 2008, which are available for public inspection at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management System's (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, 301-415-4737, or by e-mail to [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov).

Dated at Rockville, Maryland, this 30th day of September, 2008.

**NUCLEAR REGULATORY COMMISSION**

[Docket No. 50-266 and 50-301]

**FPL Energy Point Beach LLC; Notice of Withdrawal of Application for Amendment to Renewed Facility Operating Licenses DPR-24 and DPR-27**

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of FPL Energy Point Beach, LLC (the licensee) to withdraw its December 29, 2007, application for proposed amendment to Renewed Facility Operating License Nos. DPR-24 and DPR-27 for Point Beach Nuclear Plant, Unit Nos. 1 and 2, located in Town of Two Creeks, Manitowoc County, Wisconsin.

The proposed amendment would have revised the Technical Specifications for the Point Beach Nuclear Plant (PBNP) Units 1 and 2 Technical Specifications (TS) requirement for the completion time (CT) of TS 3.7.5.C. This revision would allow two separate one-time extensions of the CT for TS 3.7.5.C from 7 days to 16 days.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on January 28, 2008 (73 FR 5220). However, by letter dated August 21, 2008, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated December 29, 2007, and the licensee's letter dated August 21, 2008, which withdrew the application for license amendment. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the internet at the NRC Web site, <http://www.nrc.gov/reading-rm.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737 or by e-mail to [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov).

Dated at Rockville, Maryland, this 19th day of September 2008.

For the Nuclear Regulatory Commission.

**OFFICE OF MANAGEMENT AND BUDGET**

**Standard Data Elements for Electronic Summary Reports of Inventions**

**AGENCY:** Office of Management and Budget, Office of Federal Financial Management.

**ACTION:** Notice of standard data elements.

**SUMMARY:** The Office of Management and Budget (OMB) is establishing a standard set of data elements for a government-wide summary report of inventions and the Interagency Edison extramural invention reporting system (iEdison) as the host site for collecting this information.

**FOR FURTHER INFORMATION CONTACT:** Marguerite Pridgen, Office of Federal Financial Management, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503; telephone 202-395-7844; fax 202-395-3952; e-mail [mpridgen@omb.eop.gov](mailto:mpridgen@omb.eop.gov).

**SUPPLEMENTARY INFORMATION:**

**I. Background**

On October 30, 2002, the Office of Management and Budget (OMB) proposed the establishment of a government-wide standard set of data elements for the summary report of inventions [67 FR 66178-66183]. The proposal included implementation of a standard dataset via a single interactive Internet web form. The OMB notice proposed locating this interactive web form on the Interagency Edison extramural invention reporting system (iEdison) because iEdison facilitates compliance with the Bayh-Dole Act (Pub. L. 96-517 (codified at 35 U.S.C. 200 *et seq.*) Dec. 12, 1980) ("Bayh-Dole Act") and its implementing regulations and iEdison is recognized by federal funding recipients as being used by most Federal agencies for invention reporting and tracking. In response to the **Federal Register** notice, OMB received six sets of comments from eight entities: three universities; a group of universities that participate with Federal agencies in a demonstration program on research administration; one association of research universities; and three Federal agencies.
