FPL Energy Point Beach LLC; Notice of Withdrawal of Application for Amendment to Renewed Facility Operating Licenses DPR-24 and DPR-27

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of FPL Energy Point Beach, LLC (the licensee) to withdraw its December 29, 2007, application for proposed amendment to Renewed Facility Operating License Nos. DPR-24 and DPR-27 for Point Beach Nuclear Plant, Unit Nos. 1 and 2, located in Town of Two Creeks, Manitowoc County, Wisconsin.

The proposed amendment would have revised the Technical Specifications for the Point Beach Nuclear Plant (PBNP) Units 1 and 2 Technical Specifications (TS) requirement for the completion time (CT) of TS 3.7.5.C. OFFICE OF MANAGEMENT AND BUDGET

Standard Data Elements for Electronic Summary Reports of Inventions

AGENCY: Office of Management and Budget, Office of Federal Financial Management.

ACTION: Notice of standard data elements.

SUMMARY: The Office of Management and Budget (OMB) is establishing a standard set of data elements for a government-wide summary report of inventions and the Interagency Edison extramural invention reporting system (iEdison) as the host site for collecting this information.

FOR FURTHER INFORMATION CONTACT: Marguerite Pridgen, Office of Federal Financial Management, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503; telephone 202-395-7844; fax 202-395-3952; e-mail mpridgen@omb.eop.gov.

SUPPLEMENTARY INFORMATION:

I. Background

On October 30, 2002, the Office of Management and Budget (OMB) proposed the establishment of a government-wide standard set of data elements for the summary report of inventions [67 FR 66178-66183]. The proposal included implementation of a standard dataset via a single interactive Internet web form. The OMB notice proposed locating this interactive web form on the Interagency Edison extramural invention reporting system (iEdison) because iEdison facilitates compliance with the Bayh-Dole Act (Pub. L. 96-517 (codified at 35 U.S.C. 200 *et seq.*) Dec. 12, 1980) ("Bayh-Dole Act") and its implementing regulations and iEdison is recognized by federal funding recipients as being used by most Federal agencies for invention reporting and tracking. In response to the **Federal Register** notice, OMB received six sets of comments from eight entities: three universities; a group of universities that participate with Federal agencies in a demonstration program on research administration; one association of research universities; and three Federal agencies.
