#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

In 1972, in response to intense pressure on coastal resources, and because of the importance of coastal areas of the United States, the Congress passed the Coastal Zone Management Act of 1972 (CZMA). The CZMA

authorized a federal program to encourage coastal states and territories to develop comprehensive coastal management programs.

The CZMA has been reauthorized on several occasions, most recently with the enactment of the Coastal Zone Protection Act of 1996. The program is administered by the Secretary of Commerce, who in turn has delegated this responsibility to the National Oceanic and Atmospheric Administration's (NOAA) National Ocean Services (NOS).

The coastal zone management grants provide funds to states and territories to implement federally-approved coastal management plans; complete information for the Coastal Zone Management Program (CZMP) Performance Management System, revise assessment document and multi-year strategy; submit documentation as described in the CZMA Section 306A on the approved coastal zone management plans; submit requests to approve amendments or program changes; and report on the states' coastal nonpoint (not from a specific location) source pollution programs (CNSPP).
