

completed BPTs are due to CMS by the first Monday of June each year. CMS reviews and analyzes the information provided on the Bid Pricing Tool. Ultimately, CMS decides whether to approve the plan pricing (i.e., payment and premium) proposed by each organization. *Form Number:* CMS-10142 (OMB# 0938-0944); *Frequency:* Yearly; *Affected Public:* Business or other for-profits b. Not-for-profit institutions; *Number of Respondents:* 550; *Total Annual Responses:* 6050; *Total Annual Hours:* 42,350.

3. Type of Information Collection
Request: Reinstatement without change of a previously approved collection; *Title of Information Collection:* Certification Statement for Electronic File Interchange Organizations (EFIOs) *Use:* Health care providers can currently obtain a National Provider Identifier (NPI) via a paper application or over the Internet through the National Plan and Provider Enumeration System (NPPES). These applications must be submitted individually, on a per-provider basis. The Electronic File Interchange (EFI) process allows provider-designated electronic file interchange organizations (EFIOs) to capture multiple providers' NPI application information on a single electronic file for submission to NPPES. This process is also referred to as "bulk enumeration." To ensure that the EFIO has the authority to act on behalf of each provider and complies with other Federal requirements, an authorized official of the EFIO must sign a certification statement and mail it to the Centers for Medicare and Medicaid Services (CMS). *Form Number:* CMS-10175 (OMB# 0938-0984); *Frequency:* Once; *Affected Public:* Private Sector—Business or other for-profits; *Number of Respondents:* 300; *Total Annual Responses:* 300; *Total Annual Hours:* 300.

4. Type of Information Collection
Request: Revision of a currently approved collection; *Title of Information Collection:* Information Collection Requirements contained in 45 CFR Part 162; HIPAA Standards for Electronic Transactions. *Use:* We are revising the currently approved information collection request to include the information collection requirements contained in CMS-0009-P (73 FR 49742). In the aforementioned regulation, we update the adopted standards for electronic transactions and

propose the adoption of a new standard transaction for Medicaid subrogation for retail pharmacy claims. The use of these updated and additional standards would improve the Medicare and Medicaid programs and other Federal health programs as well as private health programs, and the effectiveness and efficiency of the health care industry in general, by simplifying the administration of the system and fostering and increase in EDI for exchanging healthcare information. Increased advances in technology and improvements in healthcare business processes have fostered development of updated EDI standards to facilitate efficient and effective flow of administrative operations. Adopting an updated version of the standards and a new standard for Medicaid subrogation would greatly improve EDI standardization for healthcare transactions. *Form Number:* CMS-R-218 (OMB# 0938-0866); *Frequency:* Once; *Affected Public:* Private Sector—Business or other for-profits and Not-for-profit institutions; *Number of Respondents:* 696,026; *Total Annual Responses:* 696,026; *Total Annual Hours:* 6,960,260.

Title: Annual Report / ACF 204 (State MOE)—1 collection.

OMB No.: 0970-0248.

Description: The Administration for Children and Families (ACF) is requesting a three-year extension of the ACF-204 (Annual MOE Report). The report is used to collect descriptive program characteristics information on the programs operated by States and Territories in association with their Temporary Assistance for Needy Families (TANF) programs. All State and Territory expenditures claimed toward States and Territories MOE requirements must be appropriate, i.e., meet all applicable MOE requirements. The Annual MOE Report provides the ability to learn about and to monitor the nature of State and Territory expenditures used to meet States and Territories MOE requirements, and it is an important source of information about the different ways that States and Territories are using their resources to help families attain and maintain self-sufficiency. In addition, the report is used to obtain State and Territory program characteristics for ACF's annual report to Congress, and the report serves as a useful resource to use in Congressional hearings about how TANF programs are evolving, in assessing State the Territory MOE expenditures, and in assessing the need for legislative changes.

Respondents: The 50 States of the United States, the District of Columbia, Guam, Puerto Rico, and the Virgin Islands.
