BILLING CODE 4310-70-P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-641]

In the Matter of Certain Variable Speed Wind Turbines and Components Thereof; Notice of Commission Decision Not To Review an Initial Determination Granting Complainant's Motion To Amend the Complaint and Notice of Investigation and Extending the Target Date

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined not to review an initial determination ("ID") (Order No. 10) issued by the presiding administrative law judge ("ALJ") granting complainant's motion to amend the complaint and notice of investigation and extending the target date.

FOR FURTHER INFORMATION CONTACT: Michelle Walters, Office of the General Counsel, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436, telephone (202) 708-5468. Copies of non-confidential documents filed in connection with this investigation are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436, telephone (202) 205-2000. General information concerning the Commission may also be obtained by accessing its Internet server at <http://www.usitc.gov>. The public record for this investigation may be viewed on the Commission's electronic docket (EDIS) at <http://edis.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205-1810.

SUPPLEMENTARY INFORMATION: The Commission instituted this investigation on March 31, 2008, based on a complaint filed by General Electric Company ("GE"). The complaint alleged

violations of section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain variable speed wind turbines and components thereof that allegedly infringe certain claims of United States Patent Nos. 5,083,039 and 6,921,985. The complaint, as amended, named Mitsubishi Heavy Industries, Ltd., Mitsubishi Heavy Industries of America, Inc., and Mitsubishi Power Systems Americas, Inc. (collectively, "MHI") as respondents.

On July 31, 2008, GE filed a motion to amend the complaint and notice of investigation to add allegations of infringement for claims 1-19 of U.S. Patent No. 7,321,221. MHI opposed the motion, but requested that, in the event complainant's motion was granted, the procedural schedule deadlines be pushed back a minimum of three months. The Commission investigative attorney supported complainant's motion on the condition that the target date be extended.

On September 16, 2008, the ALJ issued the subject ID, granting GE's motion to amend the complaint and notice of investigation and extending the target date by four months from June 30, 2009 to October 30, 2009. No petitions for review of this ID were filed.

The Commission has determined not to review the ALJ's ID.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in section 210.42 of the Commission's Rules of Practice and Procedure (19 CFR 210.42).

Issued: October 8, 2008.

By order of the Commission.

Marilyn R. Abbott,

Secretary to the Commission.

DEPARTMENT OF JUSTICE

Antitrust Division

Notice Pursuant to the National Cooperative Research and Production Act of 1993—ASTM International—Standards

Notice is hereby given that, on September 9, 2008, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), ASTM International ("ASTM") has filed written notifications simultaneously

with the Attorney General and the Federal Trade Commission disclosing additions or changes to its standards development activities. The notifications were filed for the purpose of extending the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, ASTM has provided an updated list of current, ongoing ASTM standards activities originating between May 2008 and September 2008 designated as Work Items. A complete listing of ASTM Work Items, along with a brief description of each, is available at <http://www.astm.org>.

On September 15, 2004, ASTM filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to Section 6(b) of the Act on November 10, 2004 (69 FR 65226).

The last notification was filed with the Department on May 16, 2008. A notice was published in the **Federal Register** pursuant to Section 6(b) of the Act on June 17, 2008 (73 FR 34327).

Patricia A. Brink,

Deputy Director of Operations, Antitrust Division.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA-2007-0042]

Canadian Standards Association; Reinstated Recognition for Product Test Standard

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Reinstating recognition for product test standard.

SUMMARY: This notice announces the Occupational Safety and Health Administration's continued recognition of the Canadian Standards Association for a test standard.

DATES: Recognition for the reinstated standard is effective July 3, 2001.

FOR FURTHER INFORMATION CONTACT: MaryAnn Garrahan, Director, Office of Technical Programs and Coordination Activities, NRTL Program, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., Room N-3655, Washington, DC 20210, or phone (202) 693-2110. Our Web page includes information about the NRTL Program

(see <http://www.osha.gov> and select "N" in the site index).

SUPPLEMENTARY INFORMATION:

Notice of Correction

The Canadian Standards Association (CSA) was recognized by OSHA as a Nationally Recognized Testing Laboratory on December 24, 1992 (57 FR 61452). The notice which announced this recognition included a list of test standards that became part of CSA's scope of recognition. In general, NRTLs use such test standards to test and certify products that OSHA requires to be approved before use in the workplace. One of the test standards included in CSA's initial scope was UL 1563, which is now titled Electric Spas, Equipment Assemblies, and Associated Equipment. At the time, its title was Electric Hot Tubs, Spas, and Associated Equipment. In compliance with its regulations, OSHA renewed CSA's recognition on July 3, 2001 (66 FR 35271). OSHA, however, inadvertently omitted UL 1563 from the **Federal Register** notice published for the CSA renewal. As a result, OSHA is reinstating UL 1563 to CSA's scope of recognition. CSA's capability to test and certify products to this standard has existed since the time of its recognition in December 1992.

This reinstatement is the only change that OSHA is making to CSA's recognition through this notice. All other terms and conditions of its recognition remain the same.

Signed at Washington, DC, this 10th day of October 2008.

Edwin G. Foulke, Jr.,

Assistant Secretary of Labor for Occupational Safety and Health.
