SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), and the regulations governing the taking and importing of marine mammals (50 CFR part 216).

The applicant requests authorization to import one male pilot whale from the Lisbon Zoo (Jardim Zoológico de Lisboa), Estrada de Benfica, 158 - 160, 1549 - 004, Lisboa, Portugal to Sea World of California. The applicant requests this import for the purpose of public display. The receiving facility, Sea World of California, 1720 South Shores Road, San Diego, CA 92109-7995 is: (1) open to the public on regularly scheduled basis with access that is not limited or restricted other than by charging for an admission fee; (2) offers an educational program based on professionally accepted standards of the AZA and the Alliance for Marine Mammal Parks and Aquariums; and (3) holds an Exhibitor's License, number 93-C-0069, issued by the U.S. Department of Agriculture under the Animal Welfare Act (7 U.S.C. 2131 - 59).

In addition to determining whether the applicant meets the three public display criteria, NMFS must determine whether the applicant has demonstrated that the proposed activity is humane and does not represent any unnecessary risks to the health and welfare of marine mammals; that the proposed activity by itself, or in combination with other activities, will not likely have a significant adverse impact on the species or stock; and that the applicant's expertise, facilities and resources are adequate to accomplish successfully the objectives and activities stated in the application.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**,

NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.

SUPPLEMENTARY INFORMATION: The subject amendment to Permit No. 633-1763, issued on April 21, 2005 (70 FR 22299) is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), and the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*). Permit No. 633-1763 authorizes the permit holder to harass North Atlantic right whales (*Eubalaena glacialis*) during close approaches for aerial and vessel surveys with associated photo-identification and behavioral observations in the Gulf of Maine, Cape Cod Bay, Great South Channel, and Georgia Bight, and the collection and export of sloughed right whale skin. The original application submitted by CCS included a request to collect biopsy samples from North Atlantic right whales. At the time of permit issuance, takes for biopsy samples were not authorized. NMFS is now reviewing the biopsy sample portion of the request as an amendment to Permit No. 633-1763. CCS requests authorization to biopsy sample up to 30 North Atlantic right whales annually during close vessel approaches for photo-identification and behavioral observation; authorization is requested to biopsy up to 10 of these right whales two times to contribute to individual whale's health assessments. This work would continue long-term population monitoring to determine status and trends of this species in the North Atlantic. The amendment would be valid until the permit expires on May 1, 2010.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.
