The 34th session of the UNSCOE TDG is the final meeting in the current biennium cycle. The UNSCOE will consider proposals for the 16th Revised Edition of the United Nations Recommendations on the Transport of Dangerous Goods Model Regulations which will come into force in the international regulations from January 1, 2011. Topics to be covered during the public meetings include:

Transport of limited quantities and consumer commodities, use of electronic documentation, requirements for toxic by inhalation liquids, requirements for cryogenic receptacles, requirements for lithium batteries, fumigated units and dry ice, harmonization with the IAEA Regulations for the safe transport of radioactive materials, guiding principles for the development of the Model Regulations, and various proposals related to listing, classification, packaging, and hazard communication.

In addition, PHMSA is soliciting comments on how to further enhance harmonization for international transport of hazardous materials. PHMSA is finalizing an international strategic plan to address harmonization and welcomes input on items which stakeholders believe should be included in this plan.

Finally, PHMSA is soliciting comments regarding a potential future rulemaking action regarding the use of international regulations, in particular the International Civil Aviation Organization’s Technical Instructions for the Safe Transport of Dangerous Goods by Air (ICAO TI) and the International Maritime Dangerous Goods Code (IMDG Code). PHMSA is considering proposing to mandate the use of these regulations for the international transportation (see 49 CFR 171.8) of hazardous materials by aircraft or vessel. PHMSA requests comments regarding this prospective proposal. PHMSA is interested in comments including, but not limited to, comments related to the safety and economic

implications of mandating the use of these regulations for international shipments, as well as implications to training of personnel.

The public is invited to attend without prior notification. Due to the heightened security measures participants are encouraged to arrive early to allow time for security checks necessary to obtain access to the building. Following the 34th session of the UNSCOE TDG to present the results of the session, PHMSA will place a copy of the Sub-Committee’s report and an updated copy of the pre-meeting summary document on PHMSA’s Hazardous Materials Safety Homepage at <http://hazmat.dot.gov/regs/intl/intstandards.htm>.

Surface Transportation Board

[STB Finance Docket No. 35132]

Pennsylvania Northeast Regional Railroad Authority—Acquisition Exemption—in Monroe and Northampton Counties, PA

Pennsylvania Northeast Regional Railroad Authority (PNRRA), a political subdivision and non-operating Class III rail carrier, has filed a verified notice of exemption under 49 CFR 1150.41 to acquire an ownership interest in 10.6 miles of rail line from Norfolk Southern Railway Company (NSR). The line extends between milepost 2.0 (approximately old milepost 74) at Slate and milepost 12.2 (approximately old milepost 84.6),¹ in Monroe and Northampton Counties, PA.² The transaction is subject to retention of overhead trackage rights by NSR.

PNRRA certifies that its projected annual revenues as a result of this transaction will not result in the creation of a Class II or Class I rail carrier and further certifies that its projected annual revenues will not exceed \$5 million.

¹ Although the route miles to be acquired would appear to be 10.2 miles based on current mileposts, PNRRA states that investigation has confirmed that the actual mileage to be acquired is 10.6 miles, consistent with the old milepost designations.

² PNRRA owns approximately 82 miles of rail line in Lackawanna, Monroe, and Wayne Counties, PA. The lines are operated by Delaware-Lackawanna Railroad Co. pursuant to a contract with PNRRA.

The transaction is expected to be consummated in phases on or after November 3, 2008.

If the notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction. Petitions for stay must be filed no later than October 24, 2008 (at least 7 days before the exemption becomes effective).

Pursuant to the Consolidated Appropriations Act, 2008, Public Law 110-161, § 193, 121 Stat. 1844 (2007), nothing in this decision authorizes the following activities at any solid waste rail transfer facility: collecting, storing or transferring solid waste outside of its original shipping container; or separating or processing solid waste (including baling, crushing, compacting and shredding). The term “solid waste” is defined in section 1004 of the Solid Waste Disposal Act, 42 U.S.C. 6903.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 35132, must be filed with the Surface Transportation Board, 395 E Street, SW., Washington, DC 20423-0001. In addition, one copy of each pleading must be served on Keith G. O'Brien, 2401 Pennsylvania Ave., NW., Ste. 300, Washington, DC 20037.

Board decisions and notices are available on our Web site at <http://www.stb.dot.gov>.

Decided: October 8, 2008.

By the Board, David M. Konschnik, Director, Office of Proceedings.

Anne K. Quinlan,

Acting Secretary.
