**SUPPLEMENTARY INFORMATION:**

**A. Background**

This proposed rule reinforces requirements for use and maintenance of accurate contractor information, to permit proper identification and tracking of contract data through DoD's business processes. The proposed changes address requirements for—

- Ensuring that contract documents contain contractor information that is accurate and consistent with the information in the CCR database;
- Confirming the accuracy of a contractor's CCR information before exercising a contract option; and
- Proper assignment of procurement instrument identification numbers.

This rule was subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993.

**B. Regulatory Flexibility Act**

DoD does not expect this proposed rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the proposed rule reinforces existing requirements for accuracy of contract information. Therefore, DoD has not performed an initial regulatory flexibility analysis. DoD invites comments from small businesses and other interested parties. DoD also will consider comments from small entities concerning the affected DFARS subparts in accordance with 5 U.S.C. 610. Such comments should be submitted separately and should cite DFARS Case 2008-D010.

**C. Paperwork Reduction Act**

The Paperwork Reduction Act does not apply, because the proposed rule does not impose any information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

- (i) Confirm the accuracy of the information in the CCR database; and
- (ii)(A) If the information in the CCR database is current, accurate, and complete, modify contract documents as necessary; or

(B) If the information in the CCR database is not current, accurate, and complete, exercise the option or issue

the applicable contract modification as soon as practicable after the contractor has updated its registration information.

(2) On contract award documents, use the contractor's legal or "doing business as" name and address information as recorded in the CCR database at the time of award. Modifications for novations, name changes, or address changes shall reflect the information recorded in the CCR database at the time the modification is issued. See PGI 204.1103 for additional requirements relating to use of information in the CCR database.

##### Fisheries of the Exclusive Economic Zone Off Alaska; Revisions to the Pollock Trip Limit Regulations in the Gulf of Alaska

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Proposed rule; request for comments.

**SUMMARY:** NMFS proposes to revise pollock trip limit regulations to prohibit a catcher vessel from landing more than 300,000 lb (136 mt) of unprocessed pollock during a calendar day. NMFS

also proposes to prohibit a catcher vessel from landing a cumulative amount of unprocessed pollock from any Gulf of Alaska (GOA) reporting area that exceeds 300,000 lb multiplied by the number of calendar days the pollock fishery is open to directed fishing in a season. The objective of this proposed rule is to prevent catcher vessels from circumventing the intent of current trip limit regulations when making deliveries of pollock. Amending the current trip limit regulation to limit legal opportunities for a vessel to exceed 300,000 lb of pollock caught in a day, would continue to disperse catches of pollock in a manner that is consistent with the intent of Steller sea lion protection measures in the GOA.

**DATES:** Written comments must be received by November 19, 2008.
