Actions in the Comprehensive Ecosystem-based Amendment include: Establishment of deepwater Coral Habitat Areas of Particular Concerns (CHAPCs), establishment of a Shrimp Fishery Access Area for deepwater shrimp fisheries within the proposed CHAPCs, designation of Allowable

Golden Crab Fishing Areas within the proposed CHAPCs where golden crab traps can continue to be used, a monitoring requirement for the golden crab fishery using available tools such as Vessel Monitoring System technology or electronic logbooks, and non-regulatory action addressing compliance with the spatial presentation requirements in the Essential Fish Habitat (EFH) Final Rule.

Agenda items for the Coral AP meeting include: discussion and recommendations regarding coral management issues to include in Comprehensive Ecosystem-based Amendment 2, the Deep-Sea Coral Research and Technology Program Draft Strategic Plan being developed by NOAA's National Undersea Research Program (NURP), NOAA's Coral Reef Conservation Program, and coral research priorities for 2009-10.
