ACTION: Notice of a public meeting.

SUMMARY: The Pacific Fishery Management Council's (Council) ad hoc groundfish Essential Fish Habitat Review Committee (EFHRC) will hold a work session, which is open to the public, to develop terms of reference (TOR) for proposals to change areas closed to bottom contact fishing gear and for modifications to groundfish Essential Fish Habitat (EFH) and Habitat Areas of Particular Concern (HAPC).

DATES: The work session will be held Tuesday, December 9, 2008, from 9 a.m. to 5 p.m., and Wednesday, December 10, 2008, from 8 a.m. to 3 p.m.

FOR FURTHER INFORMATION CONTACT: Mr. Chuck Tracy, Staff Officer, Pacific Fishery Management Council; telephone: (503) 820-2280.

SUPPLEMENTARY INFORMATION: The purpose of the work session is to develop TOR for proposed changes to areas closed to bottom contact gear and modifications to groundfish EFH and HAPC. The TOR will help guide prospective applicants in submitting proposals that are scientifically based and contain adequate information on which the Council can base a determination of merit.

Recommendations for TOR are tentatively scheduled to be presented to the Council for approval at the March, 2009 Council meeting in Seattle, WA.

Although non-emergency issues not contained in the meeting agenda may come before the EFHRC for discussion, those issues may not be the subject of formal EFHRC action during this meeting. EFHRC action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice

that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the EFHRC's intent to take final action to address the emergency.

Western Pacific Regional Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Eight Regional Fishery Management Councils will convene a meeting of representatives of their respective Scientific and Statistical Committees (SSCs) in Honolulu, HI.

DATES: The meeting will be held on Wednesday, November 12, 2008 through Friday, November 14, 2008 from 8:30 a.m. to 5 p.m. on November 12 and 13 and 8.30 a.m. to 12 noon on November 14. See **SUPPLEMENTARY INFORMATION** for agenda items.

FOR FURTHER INFORMATION CONTACT: Kitty M. Simonds, Executive Director, telephone: (808) 522-8220.

SUPPLEMENTARY INFORMATION: The Magnuson Stevens Reauthorization Act (MSRA) requires that each Council maintain and utilize its Scientific and Statistical Committee (SSC) to assist in the development, collection, evaluation, and peer review of information relevant to the development and amendment of fishery management plans (FMPs). In addition, the MSRA mandates that each SSC shall provide its Council ongoing scientific advice for fishery management

decisions, including recommendations for acceptable biological catch (ABC), preventing overfishing, maximum sustainable yield, and achieving rebuilding targets, and reports on stock status and health, bycatch, habitat status, social and economic impacts of management measures, and sustainability of fishing practices.

Some Councils have a long history of using their SSCs to provide recommendations on ABC limits and peer review of analytical documents for FMP/regulatory amendments; for other Councils this is a new requirement. Some SSCs also function as the scientific peer review process required by the Information Quality Act (PL 106-554). In addition, a proposed rule on implementing National Standard 1 is forthcoming, and will provide guidance for all SSCs with respect to requirements to establish fishing levels that prevent overfishing.

In 2005, the Managing Our Nations Fisheries II conference advisory panel, SSC, and main conference panel all recommended that national SSC meetings be held, where members from different regions could discuss best practices and seek to identify analytical and research needs. Given the new requirements of MSRA and the pending new guidelines for annual catch limits, the Regional Fishery Management Councils jointly believe that the time is right for a national SSC workshop.

Actions will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under Section 305 (c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

AGENCY: Department of Education.

SUMMARY: The IC Clearance Official, Regulatory Information Management Services, Office of Management, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before December 22, 2008.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of

1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The IC Clearance Official, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g., new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.
