NUCLEAR REGULATORY COMMISSION

[Docket No. 63-001; CLI-08-25]

In the Matter of U.S. Department of Energy (High Level Waste Repository); Notice of Hearing and Opportunity To Petition for Leave To Intervene on an Application for Authority To Construct a Geologic Repository at a Geologic Repository Operations Area at Yucca Mountain

COMMISSIONERS: Dale E. Klein, Chairman; Gregory B. Jaczko, Peter B. Lyons, Kristine L. Svinicki.

I. Notice of Hearing

By letter dated June 3, 2008, the Department of Energy (DOE) submitted an application seeking authorization to construct a geologic repository at a geologic repository operations area at Yucca Mountain in Nye County, Nevada. The NRC published a notice of receipt and availability of this application in the **Federal Register** (73 FR 34348, corrected in 73 FR 40883 (June 17, 2008)). Notice is hereby given that a hearing on the application will be held at a time and place to be set in the future by the Nuclear Regulatory Commission (the Commission) or an Atomic Safety and Licensing Board (Board).

The hearing will consider the application for construction authorization filed by DOE pursuant to Section 114 of the Nuclear Waste Policy Act of 1982 (NWP), 42 U.S.C. 10134, and pursuant to 10 CFR Parts 2 and 63. The NRC Staff accepted the DOE application for docketing on September 8, 2008 (73 FR 53284 (September 15, 2008)), and the docket number established for this application is 63-001.

The NRC Staff determined that it is practicable to adopt, with further supplementation, the Environmental Impact Statement (EIS) and supplements prepared by DOE. The Staff concluded that neither the 2002 Final Environmental Impact Statement (FEIS) nor the 2008 Final Supplemental Environmental Impact Statement (Repository Supplemental EIS) adequately address all the impacts on groundwater, or from surface discharges of groundwater, from the proposed action. The Staff therefore found that additional supplementation is needed to

ensure that the 2002 FEIS and 2008 Repository Supplemental EIS are adequate. The basis for the Staff's position is presented in the "U.S. Nuclear Regulatory Commission Staff's Adoption Determination Report for the U.S. Department of Energy's Environmental Impact Statements for the Proposed Geologic Repository at Yucca Mountain," which is available in the Agencywide Documents Access and Management System (ADAMS) online document system at <http://www.nrc.gov/reading-rm/adams/web-based.html>, at accession number ML082420342.

The NRC Staff will complete a detailed technical review of the DOE application, and will document its findings in a safety evaluation report. If the Commission finds that the DOE application meets the applicable standards of the Atomic Energy Act of 1954, as amended (AEA), the NWP, and the Commission's regulations, then the Commission will issue a construction authorization, in the form and containing such conditions and limitations, if any, as the Commission finds appropriate and necessary.

II. Opportunity To Petition for Leave To Intervene

A hearing on DOE's construction authorization application will be held in the public interest pursuant to 10 CFR 2.101(e)(8). The hearing will be governed by the rules of procedure in 10 CFR Part 2, Subpart C, "Rules of General Applicability: Hearing Requests, Petitions to Intervene, Availability of Documents, Selection of Specific Hearing Procedures, Presiding Officer Powers, and General Hearing Management for NRC Adjudicatory Hearings"; Subpart J, "Procedures Applicable to Proceedings for the Issuance of Licenses for the Receipt of High-Level Radioactive Waste at a Geologic Repository"; and Subpart G, "Rules for Formal Adjudications." The matters of fact and law to be considered are whether the application satisfies the applicable safety, security, and technical standards of the AEA and NWP and the NRC's standards in 10 CFR Part 63 for a construction authorization for a high-level waste geologic repository, and also whether the applicable requirements of the National Environmental Policy Act (NEPA) and NRC's NEPA regulations, 10 CFR Part 51, have been met.

Any person whose interest may be affected by this proceeding and who desires to participate as a party must file a written petition for leave to intervene in accordance with the requirements in 10 CFR 2.309, including contentions that satisfy the admissibility standards
