The expanded operations will involve a continuation of KMMC's utilization of foreign-sourced materials and components. Expanded FTZ procedures could continue to exempt KMMC from customs duty payments on the foreign-origin inputs used in production for export (about 22% of shipments). On its domestic shipments, the company would be able to elect the duty free rate that applies to finished engines for the foreign-sourced components listed above. Customs duties also could possibly be deferred or reduced on foreign status production equipment.
