

No facsimile or electronic mail applications will be accepted. Address for Submitting Proposals: Applications must be submitted through <http://www.grants.gov>, unless an applicant does not have Internet access. In that case, hard copies with original signatures may be sent to: Marie Bundy, 1305 East-West Highway, N/ORM5, SSMC4 10542, Silver Spring, MD 20910. Facsimile transmissions and electronic mail submission of full proposals will not be accepted.

Review and Selection Process: Once a full application has been received by NOAA, an initial administrative review will be conducted to determine completeness of the application. All proposals will be evaluated and scored individually in accordance with the assigned weights of the evaluation criteria by three merit reviewers and/or a panel of reviewers.

The selecting official will not score proposals as part of the merit review nor participate in discussion of the merits of the proposal.

Recommendations for funding will then be forwarded to the selecting official, the Chief of the Estuarine Reserves Division, for the final funding decision. In making the final selections, the Chief will award in rank order unless the proposal is justified to be selected out of rank order based on the selection factors listed in section V.C "Selection Criteria" of the original Federal Funding Opportunity.

Investigators may be asked to modify objectives, work plans or budgets based on funds available, and provide supplemental information required by the agency prior to the award being made. Declined applications will be held in the OCRM/ERD for the required 3 years in accordance with the current retention requirements, and then destroyed.
