

continue to conduct operations over the line. The line extends from milepost 145.0 near Yale, SD, to milepost 160.33 near Huron, SD, (the Yale-Huron line), in Beadle County, SD.

Concurrently, the South Dakota Railroad Authority (SDRA) and the South Dakota Department of Transportation (SDDOT), political subdivisions of the State of South Dakota and collectively a non-operating Class III rail carrier, filed a verified notice of exemption under 49 CFR 1150.41 for SDRA to acquire the Yale-Huron line from ECRRA, with ECRRA retaining leasehold rights, and, in turn, for SDDOT to immediately acquire the Yale-Huron line from SDRA.

The applicants expect to consummate the transactions on November 20, 2008.

Following consummation of the transactions, DM&E will remain the operator of the Yale-Huron line by virtue of having retained subleasehold rights in the sale agreement with ECRRA.

The applicants explain that SDDOT will become the ultimate owner of the line so that it can fund necessary rehabilitation of the line pursuant to South Dakota statutes. According to the applicants, the slightly complex transactional structure involved here is due to specific language in the applicable South Dakota statutes making it necessary that ECRRA first acquire the Yale-Huron line from DM&E and then, in turn, transfer the line to SDRA, before it can ultimately be acquired by SDDOT.

The applicants certify that their projected annual revenues as a result of these transactions will not result in the creation of a Class II or Class I rail carrier and further certify that the projected annual revenues of each of the applicants will not exceed \$5 million.

Pursuant to the Consolidated Appropriations Act, 2008, Public Law No. 110-161, § 193, 121 Stat. 1844 (2007), nothing in this decision authorizes the following activities at any solid waste rail transfer facility: collecting, storing or transferring solid waste outside of its original shipping container; or separating or processing solid waste (including baling, crushing, compacting and shredding). The term "solid waste" is defined in section 1004 of the Solid Waste Disposal Act, 42 U.S.C. 6903.

If the verified notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption. Petitions to stay must be filed no later than November 12, 2008

(at least 7 days before the exemption becomes effective).

An original and 10 copies of all pleadings, referring to STB Finance Docket Nos. 35184 and 35185, must be filed with the Surface Transportation Board, 395 E Street, SW., Washington, DC 20423-0001. In addition, a copy of each pleading must be served on: (1) For ECRRA—Douglas E. Kludt, Churchill, Manolis, Freeman, Kludt, Shelton and Burns, 333 Dakota Avenue, South, P.O. Box 176, Huron, SD 57350; and (2) for SDRA and SDDOT—Myles L. Tobin, Fletcher & Sippel LLC, 29 North Wacker Drive, Suite 920, Chicago, IL 60606.

Decided: October 29, 2008.

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Finance Docket No. 35106]

United States Department of Energy—Rail Construction and Operation—Caliente Rail Line in Lincoln, Nye, and Esmeralda Counties, NV

AGENCY: Surface Transportation Board.

ACTION: Notice of Public Hearing.

SUMMARY: The Surface Transportation Board will hold a public hearing concerning the application the Department of Energy (DOE) filed in the above docket. The purpose of the hearing will be to allow interested persons to comment on the application.

DATES/LOCATIONS: The public hearing will take place on December 4, 2008, beginning at 9 a.m., at the Nuclear Regulatory Commission's Las Vegas Hearing Facility—Pacific Enterprise Plaza, Building No. 1, 3250 Pepper Lane, Las Vegas, NV 89120. Any person wishing to speak at the hearing must file with the Board a written notice of intent to participate, identifying (1) the party represented, (2) the proposed speaker, and (3) the number of minutes requested. Notices of intent to participate should be filed as soon as possible, but no later than November 14, 2008. Following receipt of notices of intent, the Board will release a schedule of speakers for the hearing. In the event that the Board receives more requests to participate than can reasonably be

accommodated in a one-day hearing, the Board will give priority to elected officials and current parties of record in the construction application proceeding.

ADDRESSES: Notices of intent to participate in the hearing may be submitted either via the Board's e-filing format or in the traditional paper format. Any person using e-filing should attach a document and otherwise comply with the Board's "<http://www.stb.dot.gov>" Web site, at the "E-FILING" link. Any person submitting a filing in the traditional paper format should send the filing to: Surface Transportation Board, Attn: STB Finance Docket No. 35106, 395 E Street, SW., Washington, DC 20423-0001.

Joseph Dettmar, (202) 245-0395.

[Assistance for the hearing impaired is available through the Federal Information Relay Service (FIRS) at: (800) 877-8339.]

SUPPLEMENTARY INFORMATION: On March 17, 2008, DOE filed an application seeking authority to construct and operate an approximately 300-mile rail line. The line, to be known as the Caliente Line, would connect an existing Union Pacific Railroad Company line near Caliente, NV, to a proposed geologic repository at Yucca Mountain, Nye County, NV.¹ The purpose of this proposed rail line is to allow DOE to transport materials needed to construct the proposed repository as well as spent nuclear fuel and high-level radioactive waste to the completed repository for disposal. DOE has also proposed the line so that common carrier rail service can reach communities situated along the line.

On April 11, 2008, the Board published a **Federal Register** notice (74 FR 20748) announcing DOE's application. The Board, on its own motion, established a procedural schedule with filing due dates longer than those set forth in the Board's regulations. See 49 CFR 1150.10(g) and (h). Pursuant to the schedule, parties submitted comments on the transportation aspects of DOE's proposed line, and DOE submitted a reply to the comments. As the transportation record has developed in this proceeding, so has the environmental record. Both records are currently under review at the Board.

At the hearing, the Board will hear testimony concerning DOE's application to construct and operate the rail line. Speakers at the hearing may, but are not required to, bring written copies of their

testimony to the hearing and offer those statements for the record in the proceeding.

This action will not significantly affect either the quality of the human environment or the conservation of energy resources.
