

regulation to ensure consistency between the Medicaid outpatient hospital service definition and the applicable UPL requirements, provide more transparency in determining available hospital coverage in any State, and generally clarify the scope of services for which Federal financial participation (FFP) is available under the outpatient hospital services benefit category. As stated previously, we are not including any changes to the UPL provisions in this final rule, which should alleviate concern over administrative burden at this time. If we address these provisions in the future, we will respond to comments on the associated administrative burden at that time.

Comment: One commenter noted that the RIA should include the potential impact on units of government and disproportionate share hospital payments.

Response: Again, we believe that the majority of States are in compliance with the clarification of the definition of Medicaid outpatient hospital services. The revised RIA includes a discussion of DSH payments.
