Acrolein, d-Phenothrin, and Sulfometuron Methyl, Reregistration Eligibility Decision; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of EPA's Reregistration Eligibility Decisions (REDs) for the pesticides acrolein, d-phenothrin, and sulfometuron methyl, and opens a public comment period on this document. The Agency's risk assessments and other related documents also are available in the acrolein, d-phenothrin, and sulfometuron methyl Dockets. Acrolein is a biocide used as a herbicide in irrigation canals and as an antimicrobial agent for drilling muds in the petroleum industry. d-Phenothrin is a synthetic pyrethroid with indoor uses in foggers, carpet powders, crack and crevice treatments, and pet care products and outdoor uses as a mosquito adulticide. Sulfometuron methyl is a non-selective sulfonylurea herbicide primarily used for weed control in forestry and vegetative management. Neither acrolein, d-phenothrin, or sulfometuron methyl have any food uses. EPA has reviewed acrolein, d-phenothrin, and sulfometuron methyl through the public participation process that the Agency uses to involve the public in developing pesticide reregistration and tolerance reassessment decisions. Through these programs, EPA is ensuring that all pesticides meet current health and safety standards.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action

to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](http://www.regulations.gov) or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to: When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, Federal Register date and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- iv. Describe any assumptions and provide any technical information and/or data that you used.
- v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- vi. Provide specific examples to illustrate your concerns and suggest alternatives.

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

II. Background

A. What Action is the Agency Taking?

Under section 4 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is reevaluating existing pesticides to ensure that they meet current scientific and regulatory standards. EPA has completed REDs for the pesticides, acrolein, d-phenothrin, and sulfometuron methyl under section 4(g)(2)(A) of FIFRA. Acrolein is a biocide used as a herbicide in irrigation canals and as an antimicrobial agent for drilling muds in the petroleum industry. d-Phenothrin is a pyrethroid with indoor uses of foggers, carpet powders, crack and crevice treatments, and pet care products and outdoor uses as a mosquito adulticide. Sulfometuron methyl is a non-selective sulfonylurea herbicide primarily used for weed control in forestry and vegetative management. Neither acrolein, sulfometuron methyl, or d-phenothrin have any food uses. EPA has determined that the database to support reregistration is substantially complete and that products containing acrolein, d-phenothrin, and sulfometuron methyl are eligible for reregistration, provided the risks are mitigated either in the manner described in the RED or by another means that achieves equivalent risk reduction. Upon submission of any required product specific data under section 4(g)(2)(B) of FIFRA and any necessary changes to the registration and labeling (either to address concerns identified in the RED or as a result of product specific data), EPA will make a final reregistration decision under section 4(g)(2)(C) of FIFRA for products containing acrolein, d-phenothrin, and sulfometuron methyl.

TABLE 1.—REREGISTRATION ELIGIBILITY DECISION DOCKETS OPENING

Reregistration Case Name and Number	Docket ID Number	Chemical Review manager, Telephone Number, E-mail Address
Acrolein, 2005	EPA—HQ—OPP—2007—0588	Laura Parsons (703) 305-5776, parsons.laura@epa.gov
d-Phenothrin, 0426	EPA—HQ—OPP—2008—0140	Jennifer Howenstine, (703) 305-0741, howenstine.jennifer@epa.gov
Sulfometuron Methyl, 3136	EPA—HQ—OPP—2008—0129	Rusty Wasem, (703) 305-6979, wasem.russell@epa.gov

EPA is applying the principles of public participation to all pesticides undergoing reregistration and tolerance reassessment. The Agency's Pesticide Tolerance Reassessment and Reregistration; Public Participation Process, published in the **Federal Register** on May 14, 2004, (69 FR 26819) (FRL-7357-9) explains that in conducting these programs, EPA is tailoring its public participation process to be commensurate with the level of risk, extent of use, complexity of issues, and degree of public concern associated with each pesticide. Due to their uses, risks, and other factors, d-phenothrin and sulfometuron methyl were reviewed through the modified 4-Phase public participation process. Acrolein was reviewed through the 6-phase process. Through this process, EPA worked extensively with stakeholders and the public to reach the regulatory decisions for acrolein, d-phenothrin, and sulfometuron methyl.

B. What is the Agency's Authority for Taking this Action?

Section 4(g)(2) of FIFRA, as amended, directs that, after submission of all data concerning a pesticide active ingredient, "the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration," before calling in product specific data on individual end-use products and either reregistering products or taking other "appropriate regulatory action."

Drinking Water: Preliminary Regulatory Determination on Perchlorate

AGENCY: Environmental Protection Agency (EPA).

ACTION: Reopening of public comment period.

SUMMARY: EPA announced on October 10, 2008, its preliminary regulatory determination that a national primary drinking water regulation for

perchlorate would not present "a meaningful opportunity for health risk reduction for persons served by public water systems." In response to requests from several stakeholders, this action reopens the public comment period for an additional 15 days.

DATES: EPA must receive your comments on or before November 28, 2008.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-HQ-OW-2008-0692, by one of the following methods:

FOR FURTHER INFORMATION CONTACT: Eric Burneson, Office of Ground Water and Drinking Water, Standards and Risk Management Division, at (202) 564-5250 or e-mail *burneson.eric@epa.gov*. For general information contact the EPA Safe Drinking Water Hotline at (800) 426-4791 or e-mail: *hotline-sdwa@epa.gov*.

SUPPLEMENTARY INFORMATION: The Safe Drinking Water Act requires EPA to make determinations every five years of whether to regulate at least five contaminants on the Contaminant Candidate List (CCL). EPA included perchlorate on the first and second CCLs that were published in the **Federal Register** on March 2, 1998 (63 FR 10273) and February 24, 2005 (70 FR 9071). Most recently, EPA presented final regulatory determinations regarding 11 contaminants on the second CCL in a notice published in the **Federal Register** on July 30, 2008. On October 10, 2008 (73 FR 60262), EPA presented supporting rationale and requested public comment on its preliminary determination not to regulate perchlorate (please note that EPA has issued a new RIN number for this action which is 2040-AF02). EPA will make a final regulatory determination for perchlorate after considering comments and information provided in the comment period following this notice. The original comment deadline was November 10, 2008. Several stakeholders have requested a reopening to the comment period in order to evaluate EPA's findings, review the scientific literature and prepare comments. This action reopens the comment period for 15 days.

Dated: November 6, 2008.

Assistant Administrator, Office of Water.
