Overview of the Louisiana Election System

From 1962 to 2004, the State of Louisiana administered all elections in this state through a bifurcated system of elections management between the Louisiana Department of State (Department of State) and the Louisiana Department of Elections and Registration (Department of Elections and Registration). The Secretary of State served as the Chief Election Officer for the State of Louisiana and oversaw the preparation and certification of ballots for all elections, the promulgation of all election returns, and the administration of the election laws, except those relating to voter registration and the custody of voting machines. The Commissioner of Elections was constitutionally and statutorily charged with administering the laws relating to the custody of voting machines and voter registration. With regard to the registration of voters, the Commissioner of Elections was instructed to direct and assist the Registrars of Voters in voter registration, promulgation of rules and regulations relative to voter registration, maintenance of a statewide database of voter registration data, and coordination of Louisiana's compliance with the National Voter Registration Act of 1992 (NVRA). These two statewide officials were assisted by the local election officials, Clerks of Court and Registrars of Voters, in the conduct of all elections occurring in the State of Louisiana.

On January 12, 2004, Louisiana ended its bifurcated system of elections management at the state level by merging the Department of Elections and Registration into the Department of State. As a result, all elections and registration functions for Louisiana are now administered by the Secretary of State as the Chief Election Officer for the state.¹

Louisiana is committed to providing accurate, efficient, and technologically advanced election systems to its constituents. Since the mid-1950s, Louisiana has conducted all Election Day voting on voting machines. The first voting machines to be introduced in Louisiana were the Shoup 2.5 lever-operated voting machines. Since that time, Louisiana has upgraded its voting equipment to include lever-operated voting machines and electronic voting systems each of which provides a printed copy of election results. In 2002, the State of Louisiana installed touchscreen electronic voting systems for use in absentee/early voting statewide and for Election Day voting in two parishes. These machines were equipped to accommodate individuals with disabilities, including those who are visually impaired, physically disabled, or have a hard time interpreting the written word.

¹ References in this plan may be made to the Secretary of State and/or Commissioner of Elections. After January 12, 2004, the responsibility for all functions of both constitutional officers lies with the Secretary of State.

The extent of Louisiana's cutting-edge election system is not limited to its voting equipment. In 1987, the Department of Elections and Registration placed the Elections and Registration Information Network (ERIN) online. ERIN is a statewide, centralized election management system. ERIN is designed to maintain voter registration records for every voter in the State of Louisiana in a central location; provide access to those voter records to authorized users in the Department of Elections and Registration and parish Registrars of Voters' offices; generate forms and reports required by the Registrars of Voters, including printing precinct registers for elections; and providing an interactive computerized accounting system for the payment of all election expenses in the state and an accounts receivable system that generates invoices to responsible parties based upon pro-rata formulas established by state law.

Between the 2000 Presidential Election and the passage of the Help America Vote Act of 2002 (HAVA), Louisiana had implemented a significant number of reforms and efficiencies that are required by HAVA. Louisiana had begun the move to more technologically advanced and accessible voting systems, begun refining its statewide centralized voter registration system, and switched from a punch card absentee voting system to a mark sense paper ballot system (referred to as "paper ballot").

The original State Plan for Louisiana was developed jointly by the Department of State and the Department of Elections and Registration in conjunction with the Louisiana Help America Vote Advisory Committee and the Governor. It detailed the plans, budget, and goals that Louisiana sought to attain in its election and voter registration process using funds authorized by HAVA within the deadlines established in the Act.

Based on activities conducted under HAVA, the Secretary of State determined that a revised State Plan for Louisiana was necessary to outline the state's accomplishments to date, and address the remaining activities to be conducted under the requirements of HAVA. The State Plan was amended on November 10, 2006.

Louisiana will receive additional Title II federal funds in the amount of \$1,720,843 and the State Plan is being amended again to reflect the additional funding and activities that will be conducted with the new federal allocation.

Meeting the Requirements of HAVA

SECTION 1: How the State will use the requirements payment to meet the requirements of Title III, and, if applicable under Section 251(a)(2), to carry out other activities to improve the administration of elections. (Section 254(a)(1), 42 U.S.C. §15404(a)(1))

Section 1.1 Voting System Standards (Section 301(a)):

HAVA requires that each voting system used in an election for Federal office on and after January 1, 2006 shall meet the following requirements:

- Permit the voter to verify the votes selected by the voter on the ballot before the ballot is cast and counted.
- Provide the voter with the opportunity to change the ballot or correct any error before the ballot is cast and counted.
- If the voter selects votes for more than one candidate for single office: notify the voter that the voter has selected more than one candidate for a single office on the ballot; notify the voter of the effect of casting multiple votes for the office before the ballot is cast and counted; and provide the voter with the opportunity to correct the ballot before the ballot is cast and counted.

HAVA further requires that all paper ballot systems meet the following requirements:

- Establish a voter education program specific to that voting system that notifies each voter of the effect of casting multiple votes for an office and provide the voter with instructions on how to correct the ballot before it is cast and counted, including instructions on how to correct the error through the issuance of a replacement ballot if the voter was otherwise unable to change the ballot or correct any error.
- Voting system shall ensure that any notification required under Section 301 preserves the privacy of the voter and the confidentiality of the ballot.

Louisiana's HAVA Compliance:

Louisiana previously had four types of voting systems in place for Election Day voting, early voting in person, and absentee voting by mail.

Prior to the implementation of a new voting system in Louisiana for Election Day voting, Louisiana conducted elections on lever-operated voting machines and electronic voting systems. Fifty of Louisiana's sixty-four parishes were equipped with the AVM-POM lever-operated voting machines (AVM-POM). Fourteen parishes were outfitted with electronic voting systems. The electronic voting systems were provided by two different vendors: twelve parishes utilized AVC Advantage Full Face DRE voting systems (AVC Advantage), manufactured by Sequoia Voting Systems, Inc., and two parishes utilized iVotronic touchscreen voting systems (iVotronics), manufactured by Elections Systems & Software.

For early voting in person, ballots were cast on the iVotronic voting system. When the request for proposal process for a new HAVA compliant voting system was completed, it was recommended by the review committee and approved by the Secretary of State to replace the iVotronic voting system with the AVC Edge voting system, and the iVotronic voting system has been returned to the manufacturer. The State has received all of the AVC Edge voting systems to replace the iVotronic voting system. The AVC Edge voting system is HAVA compliant and accessible for individuals with disabilities, and is used for early voting in person in all parishes.

All absentee by mail ballots are cast on mark sense paper ballots and are currently read by NCS Optiscan 5 scanners. The State is determining whether to replace the NCS Optiscan 5 scanners with Optech Insight Absentee Ballot Tabulators to scan and tabulate votes on mark sense paper ballots.

The voting systems that were previously in place in Louisiana allowed the voter to review his selections and alter any selection prior to activating the cast vote mechanism. All three voting systems prevented an overvote by refusing to allow the voter to make more selections than are permitted in a particular candidate, constitutional amendment, or proposition election. The iVotronic voting systems gave the user a message stating that he has attempted to select more selections than are allowed in that election and to change one of his previous selections. The AVM-POM voting machines and AVC Advantage voting systems would not allow the voter to depress an additional lever or electronic selection key, and the voter had to deselect his previous choice to alter one of the selections.

When paper ballots are mailed out to the voter, the paper ballot is accompanied by instructions informing the voter on how to cast a vote on the paper ballot, including the proper technique in marking the selection and correcting a selection.

The Louisiana Legislature adopted provisions that instructed the Secretary of State to amend the instructions for casting a paper ballot to include information relative to using a pencil to mark the paper ballot allowing for corrections, and instructions on what effect selecting more than the allowed number of selections in a single election would have on the counting of the voter's ballot. The current instructions for completing a paper ballot are attached as Appendix "1".

On January 5, 2005, the Secretary of State adopted new voting system standards for Louisiana that require each election device to be contained within a booth that provides privacy to the voter. All voting apparatus used in Louisiana are shielded either by a curtain or booth such that the selections of the voter cannot be seen. In addition, the voting system standards require that the system "provide secrecy in the act of voting such that the selection of a voter cannot be determined after that vote has been cast." The AVC Advantage and AVC Edge voting systems assign each vote cast to a random position within the voting system's computer memory, so as to avoid the ability to determine an individual's vote.

Section 1.1.a. Audit capacity:

- Voting system shall produce a record with an audit capacity for such system.
- Manual audit capacity: Voting system shall produce a permanent paper record with a manual audit capacity for such system; shall provide the voter with an opportunity to change the ballot or correct any error before the permanent paper record is produced; and the paper record produced shall be available as an official record for any recount conducted with respect to any election in which the system is used.

Louisiana's HAVA Compliance:

Each voting system previously in place in the State of Louisiana produced a permanent paper record of the results tallied by that voting system. All AVM-POM voting machines produced a paper record by sliding a platen over the raised numbers on the counters, similar to an old-style credit card imprinting device. All electronic voting systems produced a printed results tape generated by the voting system's computer memory. Lastly, all scanners used to calculate results of absentee by mail paper ballots were attached to a computer that provided a printed result of the tally.

Upon the completion of the replacement of the AVM-POM lever-operated voting machines with AVC Advantage voting systems, all voting systems used in Louisiana will be capable of printing not only a paper record of the final results, but also a paper record of each vote cast in the election.

Section 1.1.b. Accessibility for individuals with disabilities:

- Voting system shall be accessible for individuals with disabilities, including nonvisual accessibility for the blind and visually impaired, in a manner that provides the same opportunity for access and participation as for other voters; use at least one direct recording electronic voting system or other voting system equipped for individuals with disabilities at each polling place; and if used Title II money to purchase voting machines, meet the voting system standards for disability access by January 1, 2007.

Louisiana's HAVA Compliance:

Previously, two parishes used the iVotronic voting systems for Election Day voting and all sixty-four parishes used the iVotronic voting systems in the Registrar of Voters' offices for early voting in person. The state replaced the iVotronic voting systems for early voting with the AVC Edge voting systems. In addition, the two parishes that previously used the iVotronic voting systems for Election Day voting are using the AVC Advantage voting systems. The AVM-POM voting machines were replaced with the AVC Advantage voting systems that accommodate individuals confined to a wheelchair by lowering the ballot screen to a level that an individual would be able to reach. Both voting systems, the AVC Advantage and AVC Edge, are capable of being equipped with an audio voting keypad to accommodate individuals with disabilities.

HAVA provides that the requirement for a voting system to be accessible for individuals with disabilities is met if each polling place has at least one direct recording electronic voting system or other voting system equipped for individuals with disabilities. Louisiana has a voting system at each precinct that is accessible for individuals with disabilities.

Section 1.1.c. Alternative language accessibility:

- System shall provide alternative language accessibility pursuant to Section 203 of the Voting Rights Act of 1965.

Louisiana's HAVA Compliance:

According to the United States Department of Justice, Louisiana currently is not mandated to provide a foreign language ballot based upon statistics provided by the United States Bureau of Census, except for the Coshatta Tribe of Louisiana in Allen Parish. This tribe has waived its right to have a ballot printed in its native language.

The AVC Advantage and AVC Edge voting systems are capable of accommodating multiple languages.

Section 1.1.d. Error rates:

- Error rate of the voting system in counting ballots shall comply with the error rate standards established under Section 3.2.1 of the voting system standards issued by the Federal Election Commission (FEC) in effect on October 29, 2002.

Louisiana's HAVA Compliance:

Both the AVC Advantage and AVC Edge voting systems meet the error rate standard provided in Section 3.2.1 of the 2002 FEC voting system standards.

Section 1.1.e. Uniform definition of what constitutes a vote:

- State shall adopt uniform and nondiscriminatory standards that define what constitutes a vote and what will be counted as a vote for each category of voting system used in the State.

Louisiana's HAVA Compliance:

Act 1220 of the 2003 Regular Session of the Louisiana Legislature complies with the HAVA requirement for a uniform definition of what constitutes a vote and what will be counted as a vote, as follows:

- Provides that in order to cast a vote on a voting system, a voter shall make at least one selection in a candidate or proposition election and that voting is completed by activating the cast vote mechanism.
- Provides that in order to cast a vote on a paper ballot, a voter must make a selection for a candidate, or for or against a proposition by completely filling in the oval to the right of a selection and returning the ballot to the appropriate election official within the applicable deadline set forth by law. Also provides that if a voter makes selections for more than the number of candidates to be elected for an office or makes selections for and against the proposition, the selections for that office or proposition will be void.

HAVA requires that provisional voting be permitted in Federal elections on and after January 1, 2004 as follows:

- If an individual declares that he is a registered voter in the jurisdiction in which he desires to vote and that he is eligible to vote in an election for Federal office, but his name is not on the official list of eligible voters at a polling place or an election official asserts that the individual is not eligible to vote, the individual may cast a provisional ballot.
- The election official must notify the voter that he is eligible to cast a provisional ballot.
- The voter may cast a provisional ballot or absentee provisional ballot at the polling place or Registrar of Voters' office after signing an affirmation that states that he is a registered voter in the jurisdiction and that he is eligible to vote in the Federal election.

Access to the information concerning the provisional ballot will be restricted to the individual voter who casts the provisional ballot.
 - A provisional ballot shall also be cast by any individual who votes for a Federal office after the polls close pursuant to a court order or any other order extending the poll hours. Those provisional ballots cast shall be held separate from other provisional ballots cast by voters who cast provisional ballots during regular poll hours.
- Louisiana's HAVA Compliance:
- Louisiana complied with the provisional voting requirements of HAVA and legislation was passed in the 2003 Regular Session of the Louisiana Legislature to provide for provisional voting. Act 423 of 2003 Regular Session of the Louisiana Legislature implemented provisional voting in Louisiana only in elections for Federal office as follows:
- 1) Authorizes an individual to cast a provisional paper ballot for candidates for Federal office only if his name does not appear on the precinct register and he has not been authorized by the Registrar of Voters to vote by affidavit or his eligibility to vote has been challenged by the election poll workers or registrar/deputy registrar.
- 2) Procedure for provisional voting for Federal office at a polling place or the Registrar of Voters' office:
 - Applicant fills in the provisional ballot envelope flap and signs the certificate on the flap attesting that he is a registered voter in the parish and is eligible to vote in the election for Federal office.
 - Applicant marks the provisional paper ballot, places the provisional ballot in the provisional ballot envelope, seals the envelope, and returns the provisional ballot envelope to the commissioner or registrar/deputy registrar.
 - Applicant who casts a provisional ballot shall be provided written instructions by the commissioner or registrar/deputy registrar that explains how the applicant may ascertain whether his provisional vote was counted, and, if his provisional vote was not counted, the reason his vote was not counted.
 - 3) Counting of provisional ballots:
 - The parish Registrar of Voters compiles a list of the names of individuals who voted on a provisional ballot.
 - The Registrar of Voters, Secretary of State, and other state and local agencies shall compile and provide available registration documentation for the Parish Board of Election Supervisors (Parish Board) to determine if an individual casting a provisional ballot is a registered voter and eligible to vote in the Federal election.
 - The Parish Board shall be responsible for counting and tabulation of provisional ballots for Federal office.
 - Provisional ballots shall be counted by the Parish Board on the third day following the election.
 - Candidates, their representatives, and qualified electors may be present during the counting and tabulation of provisional ballots.
 - The Parish Board shall determine if a provisional ballot shall be counted.
 - All provisional ballots that are rejected by the Parish Board shall be sealed in the special provisional ballot envelope. No rejected provisional ballot shall be counted.
 - A member of the Parish Board shall remove the flaps from the valid provisional ballots. The valid provisional ballot flaps and supporting registration documentation shall then be placed in the designated envelope and transmitted to the Registrar of Voters.
 - The members of the Parish Board shall count the valid provisional ballots by hand and the total number of provisional votes cast for a Federal candidate shall be entered on the final provisional ballot vote report and the results shall be certified.

- A copy of the signed list of provisional voters indicating which ballots were counted and which ballots were rejected shall be transmitted to the Secretary of State.
- 4) Provisional voting for Federal office during extension of poll hours:
- An applicant who votes during the extension of poll hours pursuant to a court order or any other order extending the poll hours shall vote by provisional ballot for Federal offices.
 - The provisional ballots cast during the extension of poll hours shall be kept separate and placed in a separate envelope.
 - The provisional ballots cast during the extension of poll hours shall be counted according to the same procedure set forth for provisional ballots cast during early voting in person or during regular poll hours.
 - An emergency as defined by Louisiana law, La. R.S. 18:401.1, does not constitute a circumstance in which polling hours are delayed necessitating the use of provisional ballots.

5) Results of Federal election:

- The results of the Federal election prepared by the Parish Board shall also include the total provisional votes for each candidate for Federal office.

The Secretary of State, in conjunction with the Clerks of Court and Registrars of Voters, have complied fully with the requirements of HAVA for provisional voting as follows:

- 1) The Secretary of State prepared the forms that are required for provisional voting in Louisiana.
- 2) The Secretary of State established a free access telephone system that allows an individual who casts a provisional ballot to ascertain whether his vote was counted, and, if his vote was not counted, the reason that his vote was not counted. The provisional ballot instructions include a toll-free telephone number where access to the information about an individual's provisional ballot will be restricted to the individual who casts the ballot.

- 3) The Secretary of State provided an updated informational pamphlet supplement setting forth instructions for provisional voting, counting and tabulating provisional ballots, and posting of additional information for provisional voting required by HAVA. This supplement has been incorporated into the informational pamphlet that is provided to the commissioners.

- 4) The Clerks of Court and Registrars of Voters are responsible for implementing provisional voting for Federal offices at the polling places on Election Day and during early voting in person, respectively.

- 5) Provisional voting has been conducted in the following elections in Louisiana: March 9, 2004 (Presidential Preference Primary); November 2, 2004 (Presidential Election and Congressional Primary); December 4, 2004 (Congressional General); November 7, 2006 (Congressional Primary); December 9, 2006 (Congressional General); February 9, 2008 (Presidential Preference Primary); March 8, 2008 (Special Congressional First Party Primary); April 5, 2008 (Special Congressional Second Party Primary); and May 3, 2008 (Special Congressional General).

Section 1.3 Voting Information Requirements (Section 302(b)):

Section 302(b) of HAVA requires, with respect to Federal elections held on and after January 1, 2004, the following voting information to be publicly posted at each polling place on the day of each election for Federal office:

- A sample version of the ballot that will be used for that election;
- Information regarding the date of the election and the hours during which polling places will be open;
- Instructions on how to vote, including how to cast a vote and how to cast a provisional ballot;
- Instructions for mail-in registrants and first-time voters under Section 303(b);
- General information on voting rights under applicable federal and state laws, including information on the right of an individual to cast a provisional ballot and instructions on how to contact the appropriate officials if these rights are alleged to have been violated; and
- General information on federal and state laws regarding prohibitions on acts of fraud and misrepresentation.

Louisiana's HAVA Compliance:

Louisiana law requires the following information for Election Day voting, early voting in person, and absentee voting by mail:

- 1) La. R.S. 18:421B. requires the Secretary of State to develop and print cards of instruction to voters and commissioners which shall not be inconsistent with the constitution and laws of the United States or of this state and which shall be approved by the Attorney General.

2) La. R.S. 18:552A.(2) requires the Secretary of State to furnish the parish custodian of voting machines (Clerk of Court) for each parish two sample ballots for each voting precinct at which voting shall be conducted in an election.

3) La. R.S. 18:562 provides the requirements for the identification of voters. The Secretary of State prepared an informational poster that sets forth the requirements of R.S. 18:562, and informs the voter that he may sign an affidavit and vote if he does not have a Louisiana driver's license, a Louisiana special identification card, or other generally recognized picture identification.

4) La. R.S. 18:1306B.(2) requires the Secretary of State to prepare instructions, approved by the Attorney General, generally describing the particular absentee by mail counting equipment utilized in the election to count absentee by mail ballots. The instructions inform the voter how to cast his vote, which shall include instructions for marking the absentee by mail ballot and examples of the correct and incorrect methods of marking the ballot, if applicable.

5) La. R.S. 18:1306B.(3) requires the Secretary of State to prepare instructions, approved by the Attorney General, generally describing the particular early voting counting equipment used in the election to count early voting ballots or voting machines used to cast early voting ballots. The instructions inform the voter how to cast his vote, which shall include instructions for marking the early voting ballot and examples of the correct and incorrect methods of marking the ballot, if applicable.

Legislation was passed during the 2003 Regular Session of the Louisiana Legislature to comply with the HAVA voting information requirements.

Act 1220 of the 2003 Regular Session of the Louisiana Legislature:

- a) Requires the Secretary of State, in the case of a Federal election, to supply informational posters as required by the Help America Vote Act of 2002.
- b) Requires the commissioners to post informational posters, if required, in addition to instructions, the statement of proposed constitutional amendments on the ballot, and a sample ballot in a conspicuous place at the principal entrance to the polling place.

Act 423 of the 2003 Regular Session of the Louisiana Legislature:

- a) Requires the commissioner or registrar/deputy registrar to provide an applicant who casts a provisional ballot with written instructions for how the applicant may

ascertain whether the provisional vote was counted, and if the provisional vote was not counted the reason the vote was not counted.

The Secretary of State updated the following publications to meet the requirements of HAVA: 1) instructions on how to vote, including how to cast a vote and how to cast a provisional ballot, and 2) the informational pamphlet required by R.S. 18:1306 for absentee voting by mail to provide the voter who votes on a paper ballot with instructions on how to correct the ballot before it is cast and counted.

The Secretary of State also prepared new informational posters to provide the following: information regarding the date of the election and the hours during which polling places will be open; instructions for mail-in registrants and first time voters under Section 303(b); general information on voting rights under applicable federal and state laws, including information on the rights of an individual to cast a provisional ballot and instructions on how to contact the appropriate officials if these rights are alleged to have been violated; and general information on federal and state laws regarding prohibitions on acts of fraud and misrepresentation.

Section 1.4 Computerized Statewide Voter Registration List (Section 303(a)):

Title III, Section 303(a) sets forth the computerized statewide voter registration list requirements:

- Requires a single, uniform, official, centralized, interactive computerized list of all legally registered voters in the state and each voter assigned a unique identifier.
- Any election official may obtain immediate access to the list or database.
- Requires computerized list maintenance.
- Requires removal of individuals in accordance with the NVRA.
- Requires coordination of felony status and death records with state agencies.
- Requires security preventing unauthorized access.
- Requires verification of certain voter registration information provided by applicants. (Should an individual provide the last four digits of his social security number, verification must be obtained from the Social Security Administration via link through the Office of Motor Vehicles that the number provided is an accurate and valid number. State Election Officials and Motor Vehicle Authority shall enter into an agreement to match information in the statewide registration database and the OMV database to verify accuracy of information provided on voter registration application.)

- Requires applicant to provide driver's license number, if issued, or last four digits of social security number, if issued. If applicant has neither, a unique number will be generated to identify the individual.
- Requires sharing of information in databases.

Compliance with Section 303(a) of HAVA must be completed on or before January 1, 2004, unless the state is granted a waiver of the deadline until January 1, 2006.

Louisiana's HAVA Compliance:

Since 1987, Louisiana has had in place a single, centralized computerized list of voters registered to vote in the State of Louisiana. By and large, the Elections and Registration Information Network (ERIN) already accomplished most of what HAVA envisioned. The system maintains all records of registered voters throughout the state and assigns each voter a unique identification number. However, the Department of State had to make a number of alterations to conform to the HAVA requirements.

ERIN already provided access to the Registrar of Voters in each parish. However, HAVA required all local election officials to have access to the system. Thus, the Clerk of Court, as the Chief Election Officer in each parish, was given inquiry access to ERIN. In order to accomplish this, the Clerk of Court in each parish was linked to the ERIN system via a series of routers, switches, and lines. This project was completed in 2004.

ERIN meets the requirements for removal of individuals in accordance with the NVRA. Duplicate names are eliminated from the list. In addition, regular list maintenance is performed, placing individuals who do not respond to mailings on an inactive list and removing them from the list of voters if they are inactive for the course of two Federal general elections. ERIN data is also compared to felony lists provided by the Louisiana Department of Public Safety and Corrections (DPS). Federal and state clerks of court receive death notices from the Louisiana Department of Health and Hospitals (DHHS). Individuals who have been convicted of a felony are suspended while under an order of imprisonment. Similarly, death notices are matched against ERIN data to allow for the removal of deceased voters. No modifications are necessary to meet HAVA's removal of voters requirement in keeping with the provisions of the NVRA.

ERIN provides customized software security disallowing unauthorized access. No modifications are necessary to meet the security requirements of HAVA.

In order to meet the registration information verification requirements of HAVA, certain modifications were required to the ERIN system as detailed below:

- Added field for driver's license number on application entry screen and forms.
- Added driver's license number and Louisiana Department of Public Safety and Corrections, Office of Motor Vehicles (OMV) data to add/update screen.
- Developed applications to process verification and exchange information with OMV.
- Developed programs to update/add/load information provided by OMV.
- Developed reports for Registrars of Voters.

In addition to the in-house changes to ERIN, certain changes were made by the OMV to both its software and procedures to ensure compliance with the HAVA information verification requirements:

- The registrant's driver's license number is being preprinted on in-person voter registration applications submitted from the OMV.
- The exchange of information processes with the Department of State were developed.
- An interface with the Social Security Administration on the social security number verification method was developed.

The Department of State and DPS are currently exchanging information electronically via a secure encrypted protocol (VPN). An exchange data format has been developed to secure exchange data between the departments. In order to accomplish this information sharing, the following alterations were made to ERIN:

- Developed encryption software scripts.
- Developed program to capture data.

All of the changes necessary to meet the mandatory requirements of HAVA have been completed but work continues to enhance both the functionality and security of the interface developed between the agencies.

Section 1.5 Requirements for Voters Who Register By Mail (Section 303(b)):

Section 303(b) of HAVA sets forth the requirements for persons who register to vote by mail. The changes affect the information that is contained on the mail-in registration form and the information or proof of identity provided by the mail-in registrant.

Any mail-in registration form must contain the following information:

- Whether the registrant is a citizen of the United States.
- Whether the registrant will be 18 years of age or older by the next election date.
- Instructions on discontinuing the application process if the answer to one of these two questions is "no".
- Instructions that certain verification information must be provided with the mail-in registration form in order to avoid the necessity for the provision of additional verification information upon voting for the first time.

If the registrant has a driver's license number, that number must appear on the voter registration form. If the registrant does not have a driver's license number but has a social security number, at least the last four digits of the registrant's social security number must be provided on the voter registration form. If these numbers are issued and are not provided, the registration application cannot be processed. Certain alternative information may be provided by a mail-in registrant in order to avoid additional identification requirements upon voting for the first time. This information includes:

- A copy of a current and valid photo identification; or
- A copy of a current utility bill, bank statement, government check, paycheck, or other government document that shows the name and address of the voter.

Persons who fall into one of the following categories are exempted from the additional identification requirements:

- A registrant authorized to receive an absentee ballot under the Uniform and Overseas Citizens Absentee Voting Act (UOCAVA);
- A registrant authorized to vote otherwise than in person by Section 3(b)(2)(B)(ii) of the Voting Accessibility for the Elderly and Handicapped Act (VAEHA); or
- A registrant entitled to vote other than in person under any other Federal law.

If this identifying information is not provided or the registrant does not fall into one of the categories of authorized persons under UOCAVA, VAEHA, or any other Federal law, the new registrant must provide the following information upon voting for the first time in-person or by mail:

- Current and valid photo identification; or

- A copy of a current utility bill, bank statement, government check, paycheck, or other government document that shows the name and address of the voter.

If this information is not provided, the voter will only be allowed to cast a provisional ballot.

Louisiana's HAVA Compliance:

In Act 1220 of the 2003 Regular Legislative Session, the legislature made changes that require all registrants to provide either a valid and current photo identification, driver's license number, social security number, or copy of a current utility bill, bank statement, government check, paycheck, or other government document that shows the name and address of the registrant as a part of the registration process. This sought to assure that Louisiana would have the information necessary to apply Section 303(b)(3) and be exempted from Sections 303(b)(1) and 303(b)(2).

Act 403 of the 2006 Regular Session of the Louisiana Legislature addressed the requirements for the driver's license number or the last four digits of the social security number. Act 403 provides that no voter registration application shall be complete unless the applicant provides one of the following forms of identification: 1) a Louisiana driver's license number or Louisiana special identification card number, is issued, or the last four digits of the social security number, if issued; or 2) if the applicant does not have Louisiana driver's license number, Louisiana special identification card number or a social security number, the applicant must submit a copy of a current and valid photo identification or a copy of a current utility bill, bank statement, government check, paycheck, or other government document that shows the name and address of the applicant. See Act 403 of the 2006 Regular Session of the Louisiana Legislature attached as Appendix "2".

Louisiana revised its mail voter registration application (Form #0110) to comply with HAVA. See Form #0110 attached as Appendix "3". The mail voter registration application has been precleared by the United States Department of Justice, Voting Rights Division.

Section 1.6 Other activities to improve the administration of elections:

The State of Louisiana will issue a certification pursuant to 42 U.S.C. §15401 that the state will use the Title II requirements payments to carry out other activities to improve the administration of elections for Federal office. The State's proposed uses of the requirements payments are not inconsistent with the requirements of

Title III of HAVA and the use of the funds is consistent with the requirements of Section 251(b) of HAVA. These activities will include, but not be limited to, the following:

- Act 135 of the 2008 Regular Session of the Louisiana Legislature continued the program authorizing early voting at additional locations and as the program is expanded the Department of State may need to procure additional voting systems and equipment.
- Providing the capability for e-mailing ballots to military and overseas voters after the integration of the LASOS system into ERIN.
- Establishing and using an on-line educational training program for election officials and poll workers through the Department of State's website.
- Expanding the project to provide images of voter registration documents for disaster recovery and to provide continuity of business in the offices of the Registrars of Voters.
- Providing functionality in the ERIN system to track provisional ballots and implementing an enhanced website so that a voter can determine if his provisional ballot was counted, and if the ballot was not counted, the reason for the rejection of the ballot.
- Analyzing the business processes involved in elections and automating the form submission and approval process of manual forms used by the Department of State during the election cycles.
- Web conferencing between the Department of State and election officials to discuss projects/problems/processes impacting elections for Federal office.

Managing Disbursement of HAVA Funds

SECTION 2. How the State will distribute and monitor the distribution of the requirements payment to units of local government or other entities in the State for carrying out the activities described in paragraph (1), including a description of – (A) the criteria to be used to determine the eligibility of such units or entities for receiving the payment; and (B) the methods to be used by the State to monitor the performance of the units or entities to whom the payment is distributed, consistent with the performance goals and measures adopted under paragraph (8). (Section 254(a)(2), 42 U.S.C. §15404(a)(3))

The (ERIN) system and the (LASOS) system are funded solely through Louisiana's annual state appropriations bill. All funds are expended through Louisiana's Integrated Statewide Information System (ISIS) and follow the criteria of eligibility contained in the Department of State's Financial Accounting and Administrative Policy for allowable expenses and the Louisiana Procurement Code.

In Louisiana, the procurement of voting systems is done on a state level rather than a parish level by the Department of State. As a result, there are no distributions of HAVA requirements payments for the procurement of voting systems to parishes, units of local government, or other entities.

All other HAVA requirements payments are paid through the Department of State; however, in the event that requirements payments are distributed to parishes, the parishes will be required to provide all necessary documentation to substantiate expenses to be reimbursed to the parish.

All funds expended under HAVA are subject to financial and compliance audits through federal auditors, the Louisiana Legislative Auditor's Office and the Department of State's Internal Audit Division.

Educational Programs

Section 3. How the State will provide for programs for voter education, election official education and training, and poll worker training which will assist the State in meeting the requirements of Title III. (Section 254(a)(3), 42 U.S.C. §15404(a)(3))

Section 3.1 Election Official Education and Training:

The Clerk of Court for each parish is the Chief Election Officer of the parish and is responsible for the following election functions: qualifying local and municipal candidates; conducting general courses of instruction for commissioners-in-charge and commissioners; serving as a member of the Parish Board of Election Supervisors; and selecting deputy custodians.

The Registrar of Voters for each parish is responsible for the following voter registration and election functions: conducting voter registration; maintaining accurate voter registration records; conducting the annual canvass of registered voters; making changes to voter registration rolls relative to reapportionment and

changes in district lines; conducting early voting in person and absentee voting by mail; and serving as a member of the Parish Board of Election Supervisors.

The Parish Board of Election Supervisors consists of the Clerk of Court, the Registrar of Voters, the chairman of the parish executive committee of the Democratic and Republican parties or their designees, and a member appointed by the Governor. This body is responsible for the following: selecting the commissioners-in-charge at the beginning of each calendar year; drawing or appointing the commissioners prior to an election; sealing the voting systems before they are delivered to the polling places; breaking the seals on the voting systems after the election; certifying the official results of any election in the parish; and counting provisional ballots for Federal elections.

The Secretary of State keeps the Clerks of Court and Registrars of Voters updated on changes in the law, including changes required by HAVA. In addition, the informational pamphlet required by La. R.S. 18:421 is continually being updated to provide instructions and additional information that may be required by HAVA.

The Department of State will continue to prepare training DVDs for the Clerks of Court and Registrars of Voters to use for elections for Federal office with specific information relating to the races that are on the ballot.

Section 3.2 Poll Worker Training:

The Clerk of Court for each parish is required to conduct courses of instruction for election poll workers (commissioners-in-charge, commissioners, and alternate commissioners). La. R.S. 18:431A, requires each Clerk of Court to semiannually conduct a general course of instruction for the commissioners and provide them with the following: a copy of the informational pamphlet provided by the Secretary of State; instructions for the use of the voting systems; instructions for conducting primary and general elections; and instructions on the commissioner's duty to offer a voter the opportunity to sign an affidavit and vote if the voter does not have picture identification. Commissioners' training also includes information about the proper etiquette for individuals with disabilities, and procedural techniques to best serve individuals with disabilities during the voting process. Each Clerk of Court was provided with a Clerk of Court Training DVD prepared by the Department of State for use at commissioner schools. This DVD contains training information and instructions on the following: use of the AVC Advantage voting system; use of the new audio voting keypad; and the proper etiquette when an individual with a disability goes to the polls on Election Day. On Election Day, the audio voting keypad shall be offered by the commissioners to individuals who are visually impaired, blind, illiterate, physically disabled, or have difficulty understanding the written word.

La. R.S. 18:431B, authorizes the Clerk of Court to conduct a course of instruction, if needed, for commissioners-in-charge, commissioners, and alternate commissioners who are drawn or appointed to serve in each election. The course primarily covers the procedures to be used in the election for which the officials were selected.

The Secretary of State, in addition to amending the informational pamphlet to address the requirements of HAVA, has prepared precinct supply packets containing the following informational brochures on the voting process to election poll workers: information regarding the date of the election and the hours during which polling places will be open; instructions for mail-in registrants and first time voters under Section 303(b) of HAVA; general information on voting rights under applicable federal and state law, including information on the right of an individual to cast a provisional ballot and instructions on how to contact the appropriate officials if these rights are alleged to have been violated; and general information on federal and state laws regarding prohibitions on acts of fraud and misrepresentation.

Since 2006, The *Informational Pamphlet for Election Day Voting* that is used to train the election poll workers (commissioners) has been revised to incorporate the provisions of provisional voting for elections for Federal office. Revisions to the *Informational Pamphlet for Election Day Voting* will continue to be made to incorporate federal and state legislative changes relating to elections for Federal office.

The Department of State will establish an online poll worker education program which will assist voters in qualifying to serve as election poll workers. In addition, existing election poll workers will be able to access the Department of State's website to review election procedures.

Section 3.3 Voter Education:

Voter education is of vital importance to the election process. Voter education includes the following: educating voters as to what is contained on the ballot; use of the AVC Advantage and AVC Edge voting systems; polling place locations; election dates for Election Day voting, early voting in person, and absentee voting by mail; voting at the precinct on Election Day; casting an absentee by mail ballot; early voting process; provisional voting; and registering to vote. The goal of voter education is to provide educational programs and information to all voters to facilitate a firm understanding of the election and registration processes and applicable laws that govern the conduct of elections in Louisiana. To that end, the Secretary of State is making it a priority to coordinate with governmental agencies

and non-governmental organizations to ensure that all strata of the Louisiana population are reached through voter education programs. In addition, the State is making this information available to individuals with disabilities and is working with the disability community on how to more efficiently and effectively provide this information.

Act 286 of the 2003 Regular Session of the Louisiana Legislature requires the Secretary of State in administering the laws relating to the custody of voting systems and voter registration to do the following:

- Prescribe uniform rules, regulations, forms, and instructions as to standards for effective nonpartisan voter education. Standards shall address but shall not be limited to voter education concerning voter registration, balloting procedures, distribution of sample ballots, and effective voter education methods.
- Review current voter education programs within Louisiana.
- Prepare an annual report on the effectiveness of voter education programs.
- Develop activities, events, informational posters and pamphlets, and public service announcements for the implementation of an annual voter registration week, and generally be responsible for implementation of such voter registration week.

The rules and regulations relating to the annual voter registration week were adopted by the Secretary of State and published in the December 20, 2005 issue of the "Louisiana Register."

The Department of State implemented a more comprehensive voter education program to comply with the requirements of Act 286 of the 2003 Regular Session of the Louisiana Legislature and the following activities have been included in the program since 2006:

- Expansion of website information on registration and voting, including providing more comprehensive information relating to elections for Federal office. The Department of State is also preparing an instructional presentation for the Department of State's website that will show how to use the voting systems, including information for voters with disabilities.
- Expansion of the toll-free telephone system for election information.
- Coordination with parish election officials to establish community-based programs for voter outreach and education programs.

- Participation in the National Student/Parent Mock election with the Department of State's elections outreach division coordinating the activities for the State of Louisiana.

- Dissemination of public service announcements for voter education and registration information.

- Conducting seminars throughout Louisiana for voter education and registration. In August of 2008, the Department of State will conduct voting rights seminars for the elderly and individuals with disabilities that will include information on closed party primary congressional elections and the seminars will be advertised in radio advertisements on a statewide basis.

Act 560 of the 2006 Regular Session of the Louisiana Legislature provided for a closed party primary system for congressional elections in Louisiana. In the fall of 2008, Louisiana will hold its first statewide closed party primary congressional elections since 1976. The Department of State will conduct a statewide media campaign geared toward educating the electorate about federal elections and how federal elections interact with state and local elections. The media campaign will also include information on accessibility for voters with disabilities.

In 2008, the following brochures and pamphlets will be published:

Guide to Using the Audio Voting Keypad; State of Louisiana Voting Rights for the Elderly and Individuals with Disabilities; and Voting in Louisiana: A How to Guide. The publications will be updated, as needed, due to legislative and procedural changes and the updated versions of the publications will be placed on the Department of State's website.

Audio Voting Keypad Quick Chart - A new instructional sheet that was designed to streamline the instructions for use of the audio voting keypad. In addition, the Department of State will have the chart printed in Braille to use when conducting voter education seminars. The chart is on the Department of State's website and is available for visually impaired voters who are screen readers.

Voting System Standards

SECTION 4. How the State will adopt voting system guidelines and processes which are consistent with the requirements of Section 301. (Section 254(a)(4), 42 U.S.C. §15404(a)(4))

The State of Louisiana has both statutory provisions and administrative rules relative to the types and forms of voting systems that can be certified for use in the state. On January 5, 2005, the Secretary of State adopted Louisiana's most recent version of the voting system standards that meet with his requirements for durability, accuracy, efficiency, and capacity. All voting systems must be certified by the Secretary of State based upon recommendations from a committee of experts appointed by him prior to use in the state (La. R.S. 18:1361).

HAVA Fund

SECTION 5. How the State will establish a fund described in subsection (b) for the purposes of administering the State's activities under this part, including information on fund management. (Section 254(a)(5), 42 U.S.C. §15404(a)(5))

Act 142 of the 2003 Regular Session of the Louisiana Legislature established the Help Louisiana Vote Fund as a special fund in the State Treasury for the deposit of all funds received pursuant to HAVA. Act 142 provides that federal monies shall be deposited into the fund and allocated by the State Treasurer to one of the following five accounts: Election Administration Account; Voting Systems Account; HAVA Requirements Account; Voting Access Account; and College Program Account. The Help Louisiana Vote Fund is a separate fund from the state general fund and all interest earned on the investment of the monies in the fund shall be credited to the Help Louisiana Vote Fund.

The Secretary of State has provided written instructions to the State Treasurer as to the appropriate account into which the HAVA funds shall be deposited, including interest. Appropriations have been made by the Louisiana Legislature from the fund, and the Secretary of State will continue to oversee the expenditure of the monies from the fund in compliance with HAVA and the State of Louisiana accounting guidelines.

State Budget

SECTION 6. The State's proposed budget for activities under this part, based on the State's best estimates of the costs for such activities and the amount of funds to be made available, including specific information on – A) the costs of the activities required to be carried out to meet the requirements of Title III; B) the portion of the requirements payment which will be used to carry out activities to meet such requirements; and C) the portion of the requirements payment which will be used to carry out other activities. (Section 254 (a)(6), 42 U.S.C. §15404 (a)(6))

Title I Funds:

In federal fiscal year 2003, Louisiana received \$4,911,421 in Title I, Section 101 funds for the purpose of improving the administration of elections for Federal office and \$7,351,684 in Title I, Section 102 funds as reimbursement for the replacement of the AVM-POM lever voting machines. No state match funds were required for any Title I funds.

Title II Funds (Requirements Payments):

Louisiana received Title II federal funds in federal fiscal year 2004 (\$12,549,220) and in federal fiscal year 2005 (\$22,518,452). As of federal fiscal year 2005, the total amount of Title II payments received by Louisiana was \$35,067,672. On January 24, 2008, Louisiana received notification of a new federal allocation of \$1,720,843 in Title II federal funds. With this additional federal allocation, the total amount of Title II requirements payments will be \$36,788,515.

Under the provisions of Title II, the State of Louisiana must provide a state match of five percent of the total of the requirements payments received which will be \$1,936,238. The United States Election Assistance Commission (EAC) has advised the State of Louisiana that a state match will not be required for any interest accumulations received on Title II requirements payments.

The proposed budget for HAVA funds was based on the priorities detailed below. Federal funding was first used to address the mandates placed on the State of Louisiana by HAVA, specifically for the following: procurement of electronic voting systems; accessibility for individuals with disabilities; computerized statewide voter registration list; computerized list maintenance; and verification of registration information.

³ "State funds" denotes that money for this program or project will be provided out of funding allocated to the Department of State as a part of its annual state funded budgets.

The original budget estimates in the August 1, 2003 State Plan were based on various projections, the unknown cost of procuring electronic voting systems, and the uncertainty in the amount of funds necessary to implement the requirements of HAVA. After proceeding with the HAVA grant and procuring the HAVA compliant voting systems for Louisiana, it was determined that the original estimated budget for Title II federal expenses for Louisiana should be revised. In November of 2006, the Department of State through the Help America Vote Advisory Committee amended the State Plan based upon projected needs for HAVA funding.

Annually, federal funds, interest funds collected and state funds are allocated to HAVA in the Department of State's budget request and annual state appropriations bill. These funds will continue to be requested and appropriated until the HAVA program is complete and/or all funds appropriated to HAVA have been expended.

Louisiana's Maintenance of Effort

The total amount of Title II federal funds received by Louisiana will be \$36,788,515. The Department of State will apply for the additional funding in the amount of \$1,720,843 upon issuance of a certification to the EAC. All current and future interest collections will be distributed between the categories listed below, as needed, and to perform other activities to improve the administration of elections for Federal office. SECTION 7. How the State, in using the requirements payment, will maintain the expenditures of the State for activities funded by the payment at a level that is not less than the level of such expenditures maintained by the State for the fiscal year ending prior to November 2000. (Section 254(a)(7), 42 U.S.C. §15404(a)(7))

Louisiana has a state-driven election system and Louisiana has and will maintain the expenditures of the state for activities funded by the payment at a level equal to or greater than the level of such expenditures for Louisiana for expenditures consistent with the requirements of Title III of HAVA. Under the provisions of EAC Advisory 07-003-A, the fiscal year to be used as the base should be the state fiscal year encompassing June 18, 2003, which is the first date that Louisiana received its first disbursement of HAVA funds. Therefore, state Fiscal Year 2002-2003 is the base year and the maintenance of effort level is \$15,998,618 and this is the actual amount of expenses incurred in state Fiscal Year 2002-2003.

Performance Goals and Measures

SECTION 8. State of Louisiana's Progress on the Implementation of HAVA:

Compliance with Section 301, Replacement of Lever Voting Machines, and Disability Access:

Louisiana requested and received a waiver pursuant to Section 102(a)(3)(B) of HAVA to move the deadline for the replacement of the lever voting machines until the first Federal election held after January 1, 2006.

Implementation of Voting Systems:

Early voting: The Department of State completed the implementation of the AVC Edge voting system in all parishes in the state for early voting that was conducted prior to the September 30, 2006 statewide election.

Election day voting: The Department of State completed implementation of the AVC Advantage voting system in all parishes in the state for the September 30, 2006 statewide election. In addition, the Department of State purchased additional AVC Advantage voting systems for one voting system precincts in June of 2008 and the voting systems were purchased with state general fund dollars.

Early voting program:

Act 135 of the 2008 Regular Session of the Louisiana Legislature authorizes the continuation of the program for early voting at additional locations selected by the Secretary of State based on feasibility, accessibility, and the number of registered voters. The Department of State, in conjunction with the Registrars of Voters in two parishes, conducted early voting at additional locations in 2007 and the Department is in the process of expanding the program and has requested approval from the Louisiana Legislature to conduct the early voting program in additional parishes for the fall elections in 2008.

Provisional Voting:

Act 423 of the 2003 Regular Session of the Louisiana Legislature authorized provisional voting in federal elections only in Louisiana.

In 2003 and 2004, the Department of State prepared forms for use in provisional voting. The Secretary of State established a free access system to allow an individual who casts a provisional ballot to ascertain whether his vote was counted and, if his vote was not counted the reason his vote was not counted. The Secretary of State prepared an updated informational pamphlet supplement providing election officials and poll workers with instructions for provisional

voting, counting and tabulation of provisional ballots, and posting of information on provisional voting. The Secretary of State worked in conjunction with the Clerks of Court and Registrars of Voters to implement provisional voting for Election Day voting and early voting.

Provisional voting was conducted in elections for Federal offices on March 9, 2004 (Presidential Preference Primary); November 2, 2004 (Presidential Election and Congressional Primary); December 4, 2004 (Congressional General); November 7, 2006 (Congressional Primary); December 9, 2006 (Congressional General); February 9, 2008 (Presidential Preference Primary); March 8, 2008 (Special Congressional First Party Primary); April 5, 2008 (Special Congressional Second Party Primary); and May 3, 2008 (Special Congressional General).

Voting Information Requirements:

The Secretary of State provided each Clerk of Court with sample ballots to post at each precinct prior to the adoption of HAVA.

Act 1220 of the 2003 Regular Session of the Louisiana Legislature requires the Secretary of State to supply informational posters as required by HAVA. The act also requires the commissioners to post informational posters at the precinct. The Secretary of State prepared new informational posters that provided the following information: instructions for mail-in registrants and first time voters under Section 303(b); general information on voting rights under applicable federal and state

laws, including information on the right of an individual to cast a provisional ballot and instructions on how to contact the appropriate officials if these rights are alleged to have been violated; and general information on federal and state laws regarding prohibitions on acts of fraud and misrepresentation.

In 2004, the Department of State furnished posters providing the date of the election and poll hours to be posted at every precinct in the State of Louisiana. In addition, the Department of State prepared instructions that inform voters how to vote, how to cast a vote, and how to cast a provisional ballot.

In 2005, the Department of State amended the instructions for absentee voting by mail that were prepared in 2003 to comply with HAVA.

In 2006, posters indicating the accessible entrance at the polling place were added to every precinct supply package.

Computerized Statewide Voter Registration List:

In 2004, the Secretary of State consolidated the network connecting the local Registrars of Voters and Clerks of Court. This consolidation provided inquiry access to ERIN to each Clerk of Court in each parish.

Registration information verification:

In 2004, the Department of State began negotiations with the OMV to implement the verification requirements for driver's license number or the last four digits of the social security number. On October 28, 2005, the Department of State entered into an agreement with DPS for the verification of registration information for Louisiana driver's license number or Louisiana special identification card number.

On December 12, 2005, the DPS entered into an agreement with the Social Security Administration (SSA) for the verification of the last four digits of the social security number of applicants for registration.

In the fall of 2005, the Department of State established procedures for the verification of registration information including forms and instructions for use by the Registrars of Voters in verifying registration information. In addition, the Department of State conducted training seminars for the Registrars of Voters on the procedures for implementing the verification process.

On January 1, 2006, the Department of State began the process on the ERIN system for the verification of new voter registration applications by matching with the DPS-OMV records or the last four digits of the social security number. The

process is continuing for registration applications as required by Section 303(a)(5)(A) of HAVA.

During the 2006 Regular Session of the Louisiana Legislature, Act 403 was enacted setting forth the statutory procedures for conducting the verification of registration information. See Appendix "2".

ERIN system modernization:

During the process for defining the modifications to the ERIN system to meet the HAVA requirements, it was determined that the changes were more extensive than originally planned and while the new verification process would work, it was cumbersome. Since the ERIN system had been in operation since the late 1980's, it was determined that the system was in need of a technology refresh. During the year, the functional requirements for the new system were documented and a contract was awarded through a bid process for the modernization of the system. Development work was initiated in the fall of 2005.

Computer upgrades:

In preparation for the new system, all of the PC's in the local Registrar of Voters' offices were upgraded to the most current models. Concurrently, planning began in earnest for the changes to the network that were needed to provide more secure connectivity throughout the state while providing an additional level of redundancy necessary to eliminate single points of failure that caused outages for a number of parishes at one time.

ERIN upgrades:

In 2006, development of the new system continued and Phase I of the project went live on August 1, 2006. This new system contains all of the functionality from the old, but adds more user friendly functionality for meeting some specific HAVA requirements, such as duplicate registrant detection and verification procedures.

The Department of State completed the following major enhancements and programs: improving the canvass process; adding voter queue for applications received after the close of books; continuing the process of reviewing information contained in the Social Security Administration Death Master File; redesigning the election results website; migration and redesign of the Louisiana Poll Locator; processing user group requests; and obtaining and delivering new printers to registrars of voters.

Records retention:

The project to insure the retention of voter registration records through imaging (scanning), indexing, storage and retrieval of paper documents for the Orleans and Cameron Parish Registrars of Voters was completed in September of 2007 and the project will be expanded to the remaining parishes in the State of Louisiana.

Requirements of Registration Applications:

In 2003, Act 1220 required all registrants to provide either a valid and current photo identification, driver's license number, social security number, or copy of a current utility bill, bank statement, government check, paycheck, or other government document that shows the name and address of the registrant as a part of the registration process.

In October of 2005, the Louisiana mail voter registration application was amended to address the requirements of Section 303(b)(4)(A) of HAVA. The registration application was precleared by the United States Department of Justice, Voting Rights Division on December 19, 2005.

In 2006, Act 403 was enacted requiring a registrant to provide his Louisiana driver's license number or Louisiana special identification card number, if issued, or the last four digits of his social security number, if issued. Act 403 also provides that if the applicant does not have a Louisiana driver's license number, Louisiana special identification card number, or a social security number, that the applicant must provide a copy of a current and valid photo identification or a copy of a current utility bill, bank statement, government check, paycheck or other government document that shows the name and address of the applicant. The registration application cannot be processed if the applicant does not provide one of the forms of required identification.

Act 403 also requires that the registration information be verified before the applicant is added to the registration rolls. The requirement in state law that the applicant's registration information must be verified exempts the registrant from the additional verification requirements of Section 303(b)(1) and (b)(2) of HAVA.

Election Official Education and Training:

Prior to the federal elections in 2004, the Department of State conducted training sessions for election officials on provisional voting. A supplement to the Informational Pamphlet was published and provided to the election officials to train election poll workers. In addition, each Clerk of Court was provided a VHS

tape to use during election poll worker training on the etiquette of working with individuals with disabilities.

Prior to the federal elections in 2006, the Department of State conducted training sessions for election officials on provisional voting.

In 2007, each Clerk of Court was provided with a Clerk of Court Training DVD prepared by the Department of State for use at commissioner schools. This DVD contains training information and instructions on the following: use of the AVC Advantage voting system; use of the new audio voting keypad; and the proper etiquette when an individual with a disability goes to the polls on Election Day. On Election Day, the audio voting keypad shall be offered by the election poll workers to individuals who are visually impaired, blind, illiterate, physically disabled, or have difficulty understanding the written word.

The *Informational Pamphlet for Election Day Voting* was revised to include updated voting information and incorporate the provisions of provisional voting.

The Department of State conducted training sessions for election officials on the congressional closed party primary elections and provisional voting prior to the special congressional elections in the spring of 2008. The Department of State also prepared DVDs for the Clerks of Court and Registrars of Voters to use for training with specific information relating to the special congressional elections that were held in the spring of 2008 and the elections for Federal office that are scheduled for the fall of 2008.

Training on the new voting system:

In 2006, the Department of State held parish by parish and statewide training on the new voting system for local election officials and fully supported the first two elections in every parish on the new voting system. The Department of State continues to provide training and support on the voting systems.

Voter Education:**Voter registration week:**

In Act 286 of the 2003 Regular Session of the Louisiana Legislature, the Department of State was required to adopt rules and regulations relating to the annual voter registration week. On December 20, 2005, the rules that were adopted by the Secretary of State were published in the "Louisiana Register". In August of 2005, the State of Louisiana conducted its first annual voter registration week (August 22-26, 2005) to inform the citizens of Louisiana as to

voter registration and the voting process. The Department of State's Outreach Division and parish Registrars of Voters continued their voter registration and voting information process activities throughout 2005. In January of 2006, the Department of State compiled information from its Outreach Division and from the parish Registrars of Voters. A comprehensive report was provided to the Governor, President of the Louisiana Senate, Speaker of the Louisiana House of Representatives, Chairman of the Senate and Governmental Affairs Committee of the Louisiana Legislature, and the Chairman of the House and Governmental Affairs Committee of the Louisiana Legislature. In addition, a copy of the report was given to each parish Registrar of Voters.

The annual voter registration week authorized by Act 286 of the 2003

Regular Session of the Louisiana Legislature was held August 7-11, 2006; August 27-31, 2007; and July 14-18, 2008.

Informational pamphlets and brochures:

The following information was printed and distributed to the citizens of Louisiana and to aging and disability consortiums:

By numbering the candidates according to your order of preference, if your first choice candidate is eliminated in the primary and your second choice candidate advances to the general election, your second choice candidate will receive your vote and so on until your order of preference is exhausted.
 - b. You may, but are not required to, number all of the candidates for an office on the ballot. When a person has submitted an application to vote absentee by mail pursuant to this Section, the registrar shall, prior to sending the absentee by mail ballot, contact the appropriate election official in the jurisdiction where the applicant has requested for his absentee by mail ballot to be sent, attempt to verify that the person has not registered to vote in that jurisdiction, or if such jurisdiction has a statewide voter registration database, in that state. If the registrar finds that the person has registered in that jurisdiction or state, the person shall not be permitted to vote absentee by mail and the registrar shall proceed in accordance with the applicable provisions of Part V of Chapter 4 of this Code.

B. For the purpose of facilitating early voting, the registrar may designate, in addition to the location for early voting provided in Subsection A hereof, one branch office wherein early voting may be conducted. Any such branch office shall be located in a public building and the hours during which early voting may be conducted therein shall be fixed by the registrar as provided in Subsection A of this Section. However, if a branch office of a registrar is destroyed, inaccessible, or unsafe during or following a gubernatorially declared state of emergency, the registrar may utilize a temporary building as a branch office to discharge his duties until an office that meets the requirements of this Section becomes available. Such temporary office shall be located within the parish, or if there is no appropriate location within the parish due to the emergency, then in an immediately adjacent parish, or if there is no appropriate location in any immediately adjacent parish due to the emergency, then in the nearest parish in which there is an appropriate location.

§1313. Tabulation and counting of absentee by mail and early voting ballots

F. The procedure for counting absentee by mail or early voting ballots shall be as follows:

(1) A member of the board shall remove the envelopes containing the absentee by mail and early voting ballots and early voting absentee applications from the special absentee by mail and early voting ballot envelope.

§1314. Absentee by mail and early voting commissioners

F. For an election held within one year following the date of the issuance of any gubernatorial proclamation declaring a state of emergency, if a parish board of election supervisors determines that there is a parishwide shortage of absentee by mail and early voting commissioners because a significant number of absentee by mail and early voting commissioners have been temporarily displaced due to such emergency, the board may submit a written request to the secretary of state for additional absentee by mail and early voting commissioners from other parishes in the same manner as provided in R.S. 18:425(A)(4). Approval, selection, training, and reimbursement of expenses of such absentee by mail and early voting commissioners shall be in the same manner as provided in R.S. 18:425(A)(4). Nothing in Subsection A of this Section shall prohibit an absentee by mail and early voting commissioner from serving in another parish pursuant to this Subsection.

§1334. Electioneering in connection with early voting in nursing homes; enforcement; penalty

Section 2. R.S. 18:553(B)(1)(b) and (2), 571, 572(A)(1), 573(A)(2), 1351(12), 1353(C)(4), and 1355(12), (13), (14), (15), (16), and (17) are hereby amended and reenacted and R.S. 18:1351(13) is hereby enacted to read as follows:

§553. Inspection and preparation of voting machines at polling places; precinct registers and supplemental list

B. Inspection of the voting machines. After the commissioners take their oath and before the time for opening the polls, the commissioners, in the presence of the watchers, shall prepare the polling place for voting as follows:

(1)

(b) If the numbers do not agree, the commissioners shall notify the parish custodian, and the commissioners shall not proceed further in the preparation of the voting machine for voting until a representative of the parish custodian has reexamined the voting machine and certified that it is properly arranged. If the numbers agree, the commissioners shall open the envelope, take out the keys, and open the door. On mechanical voting machines incapable of producing printed results, the commissioner shall open the doors connecting the counters.

(2)(a) On mechanical voting machines incapable of producing printed results, the

commissioners shall carefully examine each counter and determine that it registers zero. If a counter other than the protective counter does not register zero, the commissioners shall immediately notify the parish custodian, who shall, if practical, cause the counters to be readjusted to zero. If it is impractical to readjust the counters before the polls open, the commissioners shall immediately make a written statement of the letter and number designating each counter and the number registered on the counter. The commissioners shall post this statement at the polling place throughout the election. When the commissioners count and tabulate the votes, they shall subtract the number registered on the counter before the polls opened from the number registered on that counter after the termination of voting. The commissioners shall preserve the written statement as part of the election returns.

(b) On printer-type mechanical and electronic voting machines, the commissioners shall cause each machine to produce a zero proof sheet. Determine from the zero proof sheet that each counter on that machine is set at zero. Sign and certify to the correctness of each zero proof sheet. Immediately post each zero proof sheet within the polling place. If any zero proof sheet is illegible or damaged, immediately notify the parish custodian who will take action necessary to make the machine operative. If any zero proof sheet indicates that any candidate or question counter does not register zero, immediately notify the parish custodian, who will, if practical, readjust the counters. If it is impractical to readjust the counters before the polls open, immediately make a written statement of the letter and number designation on each counter and the number registered on the counter. Post this statement at the polling place throughout the election and preserve the statement as part of the election returns.

§571. Counting and tabulating the votes

A. At the termination of voting in a primary or general election, the commissioners shall announce that voting is terminated. The commissioners in the presence of the watchers shall immediately:

(1) Secure the voting machines against further voting and expose the count on the voting machines, leaving the counter in full view of the watchers.

(2) For mechanical voting machines, seal each voting machine with the seal provided, so that the voting and counting mechanism cannot operate.

(3)(2)(a) Cause each voting machine to produce a set of four identical final result tally sheets, except that when a consolidation cartridge is used only three identical final result tally sheets from each machine shall be produced.

(b) If a consolidation cartridge is used, cause the consolidation cartridge to produce a set of four identical consolidation election result sheets.

(c) Examine, sign, and certify each set of final result tally sheets and, if produced, consolidation election result sheets.

(d) If tabulation blank and completed statement forms are used, transcribe the vote from each voting machine from the final result tally sheet to the tabulation blank and completed statement forms.

(e)(d) If a voting machine produces a set of final result tally sheets or consolidation election result sheets which is illegible or damaged, notify the parish custodian of voting machines who shall provide technical assistance in obtaining the election results from such machine.

73

(4)(3)(a) Complete in triplicate Certificate No. 2 of the composite certificate designated "Machine Certificates", which shall state (i) that the voting machines were secured against further voting, (ii) the exact time the voting machines were secured against further voting, (iii) the number on each voting machine, (iv) the number shown on the public counter of each voting machine, which shall be the total number of votes cast on that machine in the election, and (v) the number shown on the protective counter of each voting machine, and (vi) for mechanical voting machines, the number of the seal used on each voting machine.

(b) Sign the completed machine certificates.

(5)(4) Sign and certify to the correctness of the duplicate poll lists.

(6) In ~~parishes in which tabulation blank and compiled statement forms are used, complete in duplicate two separate compiled statements of the election results at the proper place on the combined tabulation blank and compiled statement forms; and sign and certify as correct both originals and both duplicates of the combined tabulation blank and compiled statement forms;~~

(7)(5) Announce the results of the election in the order the offices, candidates, and propositions are listed on the ballot, announce that the results of the election will be posted at the polling place for public review, and post the results of the election at a conspicuous place at the polling place for public viewing.

(a) For mechanical voting machines, ~~post one of the duplicate tabulation blank and compiled statement forms or one copy of the final result tally sheet for each voting machine.~~

(b) For electronic machines, (i) if no consolidation election result sheet is produced, post one copy of the final result tally sheet for each voting machine, or

(ii) if a consolidation election result sheet is produced, post one copy of the consolidation election result sheet.

(8)(6) Complete in duplicate the list of commissioners. The list of commissioners shall contain the name, address, and social security number of each commissioner and the commissioner-in-charge who served at the polling place and shall be signed by each commissioner and the commissioner-in-charge. The commissioner-in-charge shall indicate beside the signature of each commissioner whether he attended the special school held prior to the election as required by the provisions of R.S. 18:431(B).

(9) (7) Place the duplicate list of commissioners, all duplicate records of challenges, all duplicate affidavits of voters, any physicians' certificates, and any address confirmation cards in the envelope marked "Registrar of Voters", seal it and attach it to the precinct register; seal the precinct register.

(11) (9)(a) If applicable, lock the doors of the voting machines.

(b) If the voting machines do not have doors, secure the voting machines and election paraphernalia in accordance with the procedures in the informational pamphlet as provided in R.S. 18:553.1.

(12) (10) Where applicable, place the keys to the voting machines in an envelope, which then shall be sealed and signed by all of the commissioners.

B. The zero proof sheets; the original tabulation blank and compiled statement forms, if produced; final result tally sheets from each voting machine; and the consolidation election result sheets, if produced, shall be the official election results and shall form a part of the official election returns.

§572. Transmission of election returns; voting machine keys; machine certificates

A. (1) Upon completion of the counting and tabulating of votes, the commissioner-in-charge shall immediately:

I. INTRODUCTION

The State of Nevada was informed by the U.S. Election Assistance Commission (EAC) that The Omnibus Appropriations Act for Fiscal Year 2008 (Public Law 110-161) includes \$115 million to help states improve the administration of Federal elections. These funds are known as Requirements Payments (hereinafter "Funds"). The funds will be distributed to each State conditioned upon satisfying certain criteria pursuant to Help America Vote Act of 2002 (HAVA) Section 253(b). These funds are limited to specific uses outlined in Section 253(b) and may not be allocated to activities other than those expressly set forth in the EAC announcement regarding the additional funding.

In order to become eligible for the additional funding, States are required to amend their State Plans. Accordingly, only sections of the State of Nevada Fiscal Year 2007-2008 State Plan dated October 8, 2007 that are related to the necessary criteria for eligibility will be amended and incorporated.

II. THE BACKDROP FOR NEVADA'S STATE PLAN

The Secretary of State is the Chief Officer of Elections for the State of Nevada, and, as such, is responsible for the execution and enforcement of state and federal laws relating to elections.

Nevada remains one of the fastest growing states in the country. Based on figures obtained from Census 2000, Nevada's population increased by 796,424 persons between 1990 and 2000. In 2006, the State's demographer estimated Nevada's population at 2,623,050. Nevada's largest county, Clark County, continues to add approximately 5,000 new citizens per month. Currently, the State has approximately 1.2 million registered voters spread throughout its 17 counties. Moreover, more than 1,500 state, county and municipal political campaigns come under the jurisdiction of local or state election officials during each election cycle.

The Secretary of State's Office will continue to work closely with local election officials, advocacy groups, the State Legislature, and local and state law enforcement agencies to protect the integrity of Nevada's election process. This cooperative effort will include establishing various committees, including but not limited to, the State Training Committee, Election Command Center Committee, State Regulatory & Compliance Committee and the State IT Committee. The State will continue to mitigate costs associated with HAVA implementation and compliance and continue to be fiscally responsible in best utilizing the State's remaining funds.

III. NEVADA'S STATE PLAN

A. Use of Requirements Payments

Section 254(a)(1) requires a description of how the State will use the requirements payment to meet the requirements of Title III, and, if applicable under section 251((b)(2)), to carry out other activities to improve the administration of elections. Title III requires the establishment of certain voting system standards, provisional voting, public posting of voting information, a computerized statewide voter registration list, and voter registration application modifications.

1. Voting Systems Standards

Section 301(a) establishes several voting system standards which must be met by January 1, 2006. Under this section, no waiver of the requirements is permitted.

HAVA requires each voting system in the state to: (a) permit voters to verify whom they have voted for and make changes to their vote in a private, secret and independent manner; (b) prevent the voter from over-voting on electronic voting systems and on optical scan ballots provide instruction on how to correct and how to avoid over-voting while marking their ballot; (c) ensure that any notification to the voter maintains the privacy, secrecy and independence of the voter's ballot; (d) produce a permanent paper record with manual audit capacity; (e) be accessible for people with disabilities through the use of at least one (1) DRE voting system placed at each polling place; (f) provide alternative language accessibility pursuant to Section 203 of the Voting Rights Act of 1965; (g) comply with error rates established by the Federal Elections Commission (FEC) as of the time HAVA was adopted; and (h) have a definition of what constitutes a vote and what will be counted. These requirements have been incorporated into Nevada statutes or regulations.

A significant amount of federal funding that has been appropriated to date was used to upgrade the voting systems throughout the State and to purchase new systems in order to comply with the above requirements. The State implemented uniform DRE voting systems for polling places throughout the state, with all DRE machines being fitted with the voter verifiable paper trail printers.

To ensure proper training for election administrators and the voting citizens of Nevada, the State has used, and depending on the availability of funds, may use additional requirements payments to educate individuals about the proper use of the voting systems. Requirements payments will be used for maintaining, modifying and improving all voting systems in the State to ensure compliance with HAVA Section 301(a) standards. Additional uses include continued education on the operation and maintenance of voting systems.

2008 Amendment

The State will use the requirements payments to meet the requirements of Title III and to carry out other activities to improve the administration of Federal elections by continuing to explore and develop enhancements to the statewide voting systems, as well as the standards and procedures to ensure Nevada voters have a positive experience with the electoral process. The State will purchase and maintain ADA-compliant voting machines, and will conduct voter education outreach programs in conjunction with various local providers and disability support agencies. Additionally, the State will continue to conduct training sessions for election officials, poll workers and Nevada voters to ensure information related to the voting systems, the standards and procedures is conveyed and understood. To this end, the State will disseminate information using mail and other web-based applications, and will provide local election officials with proper resources to accomplish the same. The State anticipates allocating the sum of \$50,000.00 for this endeavor.

2. Provisional Voting and Voting Information Requirements

Section 302 requires the establishment of provisional voting and the posting of voting information at polling places by January 1, 2004. Under this section, no waiver permitted.

HAVA requires provisional voting procedures in all states to ensure that no voter who appears at the polls and desires to vote is turned away for any reason. The State adopted legislation proposed by the Secretary of State that enacts procedures to allow for provisional voting in federal races throughout the State. The procedures⁴ that were adopted meet the requirements of Section 302.

The State will continue using requirements payments to maintain the free access system required by HAVA to provide voters who cast provisional ballots the ability to discover whether their ballot was counted. The State also continues to use requirements payments to develop procedures for provisional voting and to plan and conduct training and outreach concerning a voter's ability to receive and cast a provisional ballot. Finally, if adequate federal funding is available, the State may use requirements payments to assist local governments with funding offsets necessary to prepare and process provisional ballots.

Section 302 of HAVA also mandates that a sample ballot and other voting information be posted at polling places on Election Day. The State anticipates using requirements payments to defray the cost of developing, printing and posting this information in the upcoming election cycle.

The State Training Committee will continue to promulgate signage for counties to utilize as well as provide continued assistance in evaluating a county's election signage prior to printing and posting. The Secretary of State will continue to provide guidance and clarification in signage requirements.

2008 Amendment

⁴ See Nevada Revised Statutes (NRS) Sections 293.3081 through 293.3086, inclusive.

The State will make enhancements to the provisional voting system by expanding information pertaining to provisional voting by exploring the addition of Internet based officials and poll workers on the provisional voting procedures, the free access system available to voters to determine the status of their cast ballot and other election administration issues. The State anticipates allocating the sum of \$40,113.00 for this endeavor.

3. Computerized Statewide Voter Registration List and Requirements for Voters Who Register by Mail

Section 303 requires the establishment of a computerized statewide voter registration list, first time voters who register by mail to provide identification when they cast their ballots, and changes to be made to the voter registration application by January 1, 2004. A waiver is permitted to extend compliance with Section 303(a) to January 1, 2006.

a. Statewide Voter Registration System (SVRS)

Section 303 of HAVA requires that all states establish a statewide computerized registration list of all eligible voters. This "single, uniform, official, centralized, interactive, computerized statewide voter registration list" must be administered at the State level and is considered the official list of legally registered voters in the State.

The Secretary of State's Office has a HAVA compliant statewide voter registration system in place. The Secretary of State's system was implemented prior to the 2006 election cycle and has the ability to interface with Nevada's Department of Motor Vehicles and other appropriate agencies, as required by HAVA. Additionally, this statewide voter registration database allowed all 17 counties to clear thousands of records, including duplicate records.

The State will continue to expend a portion of its requirements payments and Title I payments to fund additional upgrades and maintenance of the statewide voter registration system. Additionally, the Secretary of State will continue to explore options of database interfacing with other agencies which may not currently have electronic databases. Regulations specific to statewide voter registration maintenance procedures were promulgated prior to the 2006 election cycle.

2008 Amendment

The State has successfully implemented NevVoter, the statewide voter registration system, and will continue to monitor its accuracy and effectiveness. This will be accomplished by exploring and developing more efficient and timely methods of verifying statewide voter registration data through State and Federal agency databases. The State anticipates allocating the sum of \$100,000.00 to invest in the maintenance of, as well as enhancements to NevVoter.

b. Requirements for Voters Who Register by Mail

With respect to requirements for voters who register by mail, the State revised its voter registration form in May of 2007. These recent revisions include clarifying language for identification requirements as well as providing an opportunity for county election officials to recruit poll workers.

2008 Amendment

The State will expand its efforts to ensure the registration process for mail-in, absentee, and overseas voters is efficient and timely. The State intends to continue its efforts to increase voter participation in these categories by devising and developing statewide procedures for the receipt and processing of mail-in ballots, absentee ballots and ballots returned via facsimile. Additionally, the State will provide a uniform method of disseminating information on absentee voter information to voters inside and outside the State of Nevada. The State anticipates allocating the sum of \$50,000.00 for this endeavor.

4. Other Activities to Improve the Administration of Elections (Section 251(b)(2))

a. Improving Voting Accessibility for People with Disabilities

Every polling site in the State was surveyed for Americans with Disabilities Act⁵ (ADA) accessibility and various types of equipment were purchased to improve access to needed areas. During FY 2007-2008, the Secretary of State will continue to improve accessibility, apply for additional federal funding to ensure ADA compliance and proper training of poll workers, and continue both voter outreach efforts to the people with disabilities community and statewide training on ADA compliance issues.

b. Develop State IT Committee

The Secretary of State will continue to utilize a statewide IT committee comprised of county and Secretary of State IT representatives and elections staff. This committee is headed by the Secretary of State's Office and works to: 1) address overall security improvements to voting equipment and the statewide voter registration database; 2) develop updates to the statewide voter registration database and accompanying changes to county election management systems; 3) coordinate election night reporting; 4) assist state training committee on preparing technical training materials; and 5) testing for voting machine software and state certification.

The State intends to continue using requirements payments to fund other activities to improve the administration of elections, including, but not limited to: (a) establishing a polling place accessibility program to ensure that all polling places in Nevada are and continue to be in compliance with the ADA; (b) providing necessary assistance to persons with limited proficiency in the English language; (c) engaging in a variety of voter education and outreach activities, including public service announcements, voting machine demonstrations, mass mailings and other related media avenues; (d) providing election official and poll worker training initiatives; (e) establishing poll worker recruitment

⁵ Public Law 336 of the 101st Congress, enacted July 26, 1990.

programs; and (f) continuing to develop the Secretary of State's website to offer up-to-date, detailed election information to the public.

The State will also continue using requirements payments to fund staff positions to allow for ongoing operations and maintenance of programs and projects to sustain HAVA compliance. The State will continue to evaluate staffing needs to determine if additional positions are needed to fulfill HAVA requirements.

2008 Amendment

The State intends to develop a centralized election information management system to coordinate communications between local election officials, the Secretary of State and Nevada citizens before, during and after a federal election. This proposed system will include pre- and post-logic and accuracy testing (LAT) information, information on election audits, and the development of detailed standard operating procedures pertaining to the security for the operations, transport, and delivery of elections equipment and supplies. The system will also provide centralized method for local elections officials to exchange information on Election Day to ensure the efficient and timely notification of voting equipment failure, shortages, or other election-related issues. Additionally, the proposed system will provide an improved method of communication between local election officials to expedite corrections in the statewide voter registration list. The State anticipates allocating the sum of \$300,000.00 for this endeavor.

B. Distribution of Requirements Payments and Eligibility for Distribution

Section 254(a)(2) of the act requires a description of how the State will distribute and monitor the distribution of the requirements payment to units of local government or other entities in the State for carrying out the activities described in Section 254(a)(1), including a description of—

- (A) The criteria to be used to determine the eligibility of such units or entities for receiving the payment; and*
- (B) The methods to be used by the State to monitor the performance of the units or entities to whom the payment is distributed, consistent with the performance goals and measures adopted under Section 254(a)(8).*

The Office of the Secretary of State will centrally manage activities funded by requirements payments. The Secretary of State will be accountable for all expenditures, funding levels and program controls and outcomes. The Secretary of State, in conjunction with local election officials, will determine the appropriate level of support for local activities.

To the extent that a decision is made to distribute requirements payments to units of local government and other entities for carrying out the activities described in Section 254(a)(1), the criteria to be used for determining eligibility include, but are not limited to: (a) the priority of the project to which the distribution is intended to be applied, as it relates to complying with HAVA; (b) the extent to which the recipient is in compliance with Title III of HAVA and all other state and federal election laws; (c) the recipient must maintain its current level of funding for its elections budget outside of any HAVA funds received; (d) the

recipient must cooperate with the State in maintaining the statewide voter registration list and must timely implement list purging activities and reporting as required by the Secretary of State; (e) the need for the payment to ensure continued compliance with state and federal elections laws; (f) the availability to the recipient of other funding sources, including other HAVA related grants; (g) the recipient must acknowledge that it will be required to reimburse the State for all federal funds received if it does not meet the deadlines for compliance in HAVA; and (h) the recipient must develop a comprehensive accounting plan in accordance with federal criteria for separately identifying and tracking any federal funds received. The criteria for receipt of requirements payments will be agreed to in writing in advance by the Secretary of State and the unit or entity receiving the payment.

If requirements payments are so distributed, the Secretary of State will monitor the performance of each activity funded by requirements payments on a case-by-case basis. The methods to be used by the State to monitor the performance of the payment recipients may include, without limitation: (a) requiring the recipient to prepare and submit comprehensive timely reports to the Secretary of State detailing the expenditures and their relation to complying with Title III of HAVA; (b) implementing financial controls that establish financial reporting methods; and (c) developing performance indicators on a case-by-case basis for all activities funded.

2008 Amendment

Nevada manages all HAVA funding on a statewide level, and will continue to allocate HAVA funds for sub-grants to qualifying entities in the State for carrying out activities regarding the administration of Federal elections and voting systems. Due to the relatively small number of counties in Nevada, only seventeen, the administration of Federal elections and voting systems of local governments are coordinated centrally through the Nevada Secretary of State's office.

C. Voter Education, Election Official and Poll Worker Training

Section 254(a)(3) of the Act requires a description of how the State will provide for programs for voter education, election official education and training, and poll worker training which will assist the State in meeting the requirements of title III.

1. Voter Education

With voter participation and turnout declining nationally over the last twenty years, the Secretary of State's office is making a concerted effort to expand Nevada's voter outreach and education efforts.

Education is the key to improving Nevada's voter participation rate. Further exploration as to reaching various socio-economic groups as well as providing information for those who have had their rights restored or qualify to have their voting rights restored will also be included.

2008 Amendment

The State has augmented its efforts to improve its voter outreach programs and increasing the participation of its college student population by developing a partnership between the Secretary of State's office and the Nevada System of Higher Education. The State continues to explore voter outreach activities. The State will additionally expand information available on the website.

The State intends to develop data collection methods for improving voting system standards and voting information requirements. This includes, but is not limited to, researching and identifying demographic groups that have been disproportionately low in voter turnout rates to capture and report that information. The State has set a goal to meet, or exceed voter turnout rates in these demographic categories.

The State anticipates allocating the sum of \$300,000.00 for these activities.

The Secretary of State's office has produced and published several informative brochures designed to educate Nevada's citizens about the voter registration process, the significance of every single vote, and the requirements of HAVA. The agency's website (www.nvsos.gov) contains a wealth of information useful to individuals and groups seeking to advance voter participation and citizen knowledge of the elections process.

The 2003 Legislature moved the Advisory Committee on Participatory Democracy (ACPD) under the auspices of the Secretary of State's office, and established the goals of 75 percent voter registration and 70 percent voter turnout by those registered voters in Nevada by 2008.

In June 2006, the Advisory Committee for Participatory Democracy (ACPD) solicited grant applications to conduct voter education and outreach to the citizens of Nevada. The grant was funded through Section 101 HAVA with minimum funding requests of \$15,000 and a maximum of \$65,000. The grant was limited to nonprofit, nonpartisan organizations organized for the purpose of voter education and outreach to increase participation in the election process. The Secretary of State, as recommended by the ACPD, awarded grants to four entities totaling \$65,824. Each entity was required to enter into a Notice of Subgrant Award with the Secretary of State, Elections Division to ensure HAVA compliance and for reporting purposes.

The Secretary of State and the ACPD will focus on establishing partnerships with the business sector to enhance voter participation and Election Day support, while also building relationships with educational institutions and community organizations to increase youth voter participation.

2. Election Official and Poll Worker Training

The State, in conjunction with all 17 counties, has instituted a training program to provide a more centralized source of training, versus the more localized training programs that have existed in the past. In lieu of the disproportionate range of resources available at the local level across the State, building a centralized source of training has been critical in ensuring all 17 counties have access to all the training necessary to maintain their role in achieving

HAVA compliance. Centralized training in 2006 covered: 1) maintenance of the statewide voter registration list; 2) DRE maintenance, testing, programming and security; 3) provisional voting and provisional phone line reporting; 4) election date signage requirements; 5) requirements under UOCAVA for overseas citizens and the military, including use of FWAB ballots; 6) ADA accessibility training for poll workers and election staff; 7) general improvements for poll worker recruitment, training and management; 8) overall communication; 9) additional federal reporting requirements; 10) conducting mandatory post election VVPAT audit and 11) additional certifications for various federal and state requirements. The State will continue to revise and update the training materials and procedures created in 2006 through the guidance of a State Training Committee. This committee is comprised of two Secretary of State employees and four County Clerks/Registrar of Voters. Training topics will include but are not limited to: 1) restoration of felon voting rights; 2) voter identification requirements; 3) poll watchers; 4) provisional voting; 5) election security; 6) electioneering; and 7) polling place assistance.

In preparation for the 2008 Elections, comprehensive training sessions and materials addressing election issues will be conducted and distributed to all election officials. These sessions will also include independent training sessions tailored to address the various needs of Nevada's election officials.

D. Voting System Guidelines and Processes

Section 254(a)(4) requires a description of how the State will adopt voting system guidelines and processes which are consistent with the requirements of Section 301.

Nevada law mirrors the voting system guidelines and processes set forth in HAVA section 301, as outlined in Section III(A)(1) of this Plan. In addition, the Secretary of State is responsible for certifying voting systems for use in the State. The Secretary of State, in accordance with state law, cannot certify any voting system in the State unless it meets or exceeds the standards for voting systems established by the FEC. The Secretary of State will develop new guidelines and processes as necessary to ensure all voting systems in the State continue to remain in compliance with Section 301.

E. Establishment of Election Fund

Section 254(a)(5) requires a description of how the State will establish a fund described in Section 254(b) for purposes of administering the State's activities under this part, including information on fund management.

(b) Requirements for Election Fund—

(1) Election Fund Described.—For purposes of subsection (a)(5), a fund described in this subsection with respect to a State is a fund which is established in the treasury of the State government, which is used in accordance with paragraph (2), and which consists of the following amounts:

(A) Amounts appropriated or otherwise made available by the State for carrying out the activities for which the requirements payment is made to the State under this part.

(B) The requirements payment made to the State under this part.

(C) Such other amounts as may be appropriated under law.

Of the initial HAVA funding received, \$15,131,081 has been expended to date to meet the various requirements set forth under HAVA.

The State created a special election fund in the state treasury that provides the Secretary of State with the authority to deposit into this fund all HAVA grants and state matching fund appropriations. This fund is fully compliant with Section 254(b) of HAVA. The Secretary of State works closely with the State's Budget Division and the State Controller's office to implement and enforce all fiscal controls and policies required by both state and federal law.

F. Nevada's Proposed HAVA Budget

Section 254(a)(6) requires a description of the State's proposed budget for activities under this part, based on the State's best estimates of the costs of such activities and the amount of funds to be made available, including specific information on:

- The costs of the activities required to be carried out to meet the requirements of Title III

G. Maintenance of Effort

Section 254(a)(7) requires a description of how the State, in using the requirements payment, will maintain the expenditures of the State for activities funded by the payment at a level that is not less than the level of such expenditures maintained by the state for the fiscal year ending prior to November 2000.

Consistent with the maintenance of effort requirement contained in HAVA, in using any requirements payments, the State will maintain expenditures for activities funded by the payment at a level equal to or greater than the level of such expenditures maintained by the State for its fiscal year that ended prior to November 2000. The total expenditures attributable to the Elections Division increased in the State's fiscal years 2001, 2002, 2003, 2004, 2005, 2006 and 2007 and are anticipated to increase in FY 08.

The State Legislature has the authority to approve these funding levels and has been apprised of the maintenance of effort requirements contained in HAVA. At this time, the Secretary of State's total HAVA budget is \$8,463,422.00. \$5,228,674.00 of this total amount is held in a

Title II reserve fund, 1,503,081.00 is held in a Title I reserve fund, \$291,386 consists of state match funds, \$362,286 is held in HHS funding and \$1,077,994.00 consists of accrued interest. Projected state funded expenses for FY 2007-2008 will still exceed \$250,000.

2008 Amendment

Nevada will continue to meet its Maintenance of Effort (MOE) requirement in that HAVA funds, and not State funds, will be used for Title III needs. Currently, the Secretary of State's total HAVA budget, excluding the 2008 requirements payment, is \$6,922,855.93. \$4,030,436.00 of this total amount is held in Title II reserve fund; \$1,756,200.00 of this total amount is held in Title I reserve fund; \$174,376.00 consists of the balance remaining in the state match funds; \$376,536.48 is held in HHS funding; and \$1,388,756.60 consists of accrued interest. Projected state funded expenses ending in FY 2008-2009 will still exceed \$250,000.00

H. Performance Goals and Measures

Section 254(a)(8) requires a description of how the State will adopt performance goals and measures that will be used by the State to determine its success and the success of units of local government in the State in carrying out the plan, including timetables for meeting each of the elements of the plan, descriptions of the criteria the State will use to measure performance and the process used to develop such criteria, and a description of which official is to be held responsible for ensuring that each performance goal is met.

The Secretary of State, in collaboration with local election officials, has met all critical performance goals and will continue to institute processes to measure additional progress in relation to these time-specific goals, as well as ongoing performance goals. This process will provide local election officials with structure and continued measurable targets for accomplishment. In addition, each local election official will be required to report the progress in meeting the performance goals and measures to the Secretary of State within 60 days following every general election held in the State.

1. Performance Goals

In developing the FY 07-08 update to the State Plan, the strategies for achieving these HAVA compliant goals in the previous State Plans continue to be applicable: (1) obtain federal funding; (2) implement legislation fostering voter participation and compliance with HAVA; (3) conduct an assessment of the condition of the statewide voter registration process given these standards; (4) suggest changes to voting technology and processes to ensure accurate and reliable elections and voter confidence; and (5) develop and implement follow-through accountability activities and feedback mechanisms for complaints.

The State's primary goal is to achieve election reform and compliance with HAVA through the successful implementation of the programs outlined in the State Plan. In addition, having met HAVA compliance, the State will continue to create additional goals to continue Nevada's leadership role in election reform. Following is a description of the timetable for meeting each element of the Plan and the title of the official responsible for ensuring each such element is met:

<u>Element</u>	<u>State/County Official</u>	<u>Timetable</u>
Voting Systems	State Elections Deputy County Election Official	Accomplished September 2004
Voter Registration	State Elections Deputy County Election Official	Accomplished in 2006
Provisional Voting	State Elections Deputy County Election Official	Ongoing
Additional Personnel	State Elections Deputy	Ongoing (as needed)
Polling Place Accessibility	State Elections Deputy County Election Official	Ongoing
Voter Education/Outreach	State Elections Deputy County Election Official	Ongoing
Poll Worker Training	State Elections Deputy County Election Official	Ongoing
Complaint Procedures	Deputy Attorney General	Adopted/Ongoing

2. Performance Measures

The State will use the following criteria to measure performance:

- voter turnout statistics
- functionality of voting systems
- accuracy of the data contained in the statewide voter registration list
- voter satisfaction with equipment (accomplished through surveys or other strategies)
- complaints against poll workers
- complaints received versus complaints resolved
- ADA compliance

These criteria were developed through the State Planning Process. The State is further committed to exploring the use of additional performance measures.

2008 Amendment

Nevada's use of additional requirements payments will enhance current elements of our State Plan, and as such, the performance goals, measurements and timetables already established will continue to be used to measure the performance of the additional funding.

I. State-Based Administrative Complaint Procedure

Section 254(a)(9) requires a description of the uniform, nondiscriminatory State-based administrative complaint procedures in effect under section 402. This state-based administrative complaint procedure must be in effect prior to certification of the State Plan, but no later than January 1, 2004; no waiver of the procedure is permitted.

The Advisory Committee has developed and adopted a procedure for complaints that meets HAVA requirements⁶. The Secretary of State adopted regulations to place these procedures into the State Administrative Code prior to submission of the FY 03-04 State Plan. The Secretary of State will continue to review and update regulatory language on an ongoing basis. The Secretary of State has assembled the State Regulatory Committee which will continually review statutes needing clarification and develop regulatory language as needed.

In summary, the procedure provides a uniform, nondiscriminatory procedure for the resolution of any complaint alleging a violation of any provision of Title III of HAVA, including a violation that has occurred, is occurring, or is anticipated to occur. Any person who believes a violation of any provision of Title II has occurred may file a complaint with the Secretary of State. The complaint must be written, signed, sworn to and notarized. At the request of the complainant, the Secretary of State will conduct a hearing on the record that will be conducted in accordance with HAVA requirements. The Secretary of State will provide the appropriate remedy and will provide a final determination within the timeframes specified in HAVA. The procedure provides for alternative dispute resolution if the Secretary of State does not make a timely final determination. Finally, the procedure requires the Secretary of State to make reasonable accommodations to assist persons in need of special assistance for utilizing the complaint procedure.

The Secretary of State's Office has also established a statewide Election Command Center Committee which will further modify and improve various aspects of the complaint procedures to ensure the process remains a uniform and nondiscriminatory state-based administrative process. In addition to coordinating with local law enforcement agencies, the Secretary of State's Office will work closely with local district attorneys and the State's Attorney General to ensure complaints are handled proficiently and swiftly. The Secretary of State will deploy investigators from another division of the office to assist local and state agencies investigative staff and the Elections Division during voting periods to investigate complaints as they are recorded by the Secretary of State's Election Fraud and Complaint Hotline. This committee will be a concerted effort and will work closely with the State Training Committee as well on complaint procedures.

J. Effect of Title I Payments

If the State received payment under Title I, Section 254(a)(10) requires a description of how such payment will affect the activities proposed by the State to be carried out under the plan, including the amount of funds available for such activities.

On April 30, 2003, the State received \$5 million in Title I payments. The State has expended a portion of these funds for the voting system upgrades described in this State Plan. In addition, the State has expended these funds for ancillary devices, equipment and services associated with the voting systems contract and for travel and training activities necessary for implementing the new voting systems and the statewide voter registration system. Section 6 of this Plan specifically sets forth the State's intended additional uses for these funds.

2008 Amendment

Nevada has approximately \$1,756,200.00 of this total amount held in Title I reserve fund. These funds will not affect the new activities proposed to be carried out under the 2008 requirements plan.

K. Ongoing Management of the State Plan

Section 254(a)(11) requires a description of how the State will conduct ongoing management of the plan, except that the State may not make any material change in the administration of the plan unless the change—

- (A) is developed and published in the Federal Register in accordance with section 255 in the same manner as the State plan;*
- (B) is subject to public notice and comment in accordance with section 256 in the same manner as the State plan; and*
- (C) takes effect only after the expiration of the 30-day period which begins on the date the change is published in the Federal Register in accordance with subparagraph (4).*

The State intends to use the State Plan as the foundation for its goals in achieving election reform and compliance with HAVA. To achieve these goals, the Secretary of State has appointed an internal committee in his office to be overseen by the Deputy Secretary for Elections. This committee is responsible for conducting ongoing management of the State Plan. To carry out this function, the committee is required to hold meetings as deemed necessary to address HAVA related issues and keep current on the State's progress toward implementation of HAVA. The Deputy Secretary for Elections, or a designee, is to report to the State Advisory Committee the activities involved with the ongoing management of the Plan. The Secretary of State will continue to hold an annual meeting of the State Advisory Committee to review and update the State Plan, as necessary. The Secretary of State may also convene the State Advisory Committee at other times during the year as deemed advisable.

2008 Amendment

⁶ See Appendix A for copy of Administrative Complaint Procedure.

Nevada's ongoing management of the plan will not change. Oversight of the State Plan will remain a function of the State Advisory Committee, the Deputy of Elections, and the Secretary of State.

L. Changes to the State Plan from the Previous Fiscal Year

In the case of a State with a State plan in effect under this subtitle during the previous fiscal year, Section 254(a)(12) requires a description of how the plan reflects changes from the State plan for the previous fiscal year and of how the State succeeded in carrying out the State plan for such previous fiscal year.

This FY 2007-08 State Plan incorporates the same basic theme as the previous plans, and generally reports on the procedures implemented by the State in carrying out the previous plan, such as upgrades to voting systems throughout the State and specific voter education and outreach efforts undertaken by the State.

This current FY 07-08 State Plan updates the status of State performance goals and the various HAVA compliant projects, such as statewide voter registration. Also provided is a general update of achievements in the areas of training, accessibility, statewide voter registration, voter machine upkeep and maintenance, and outreach. This current plan further takes into consideration the Title II, Section 261 funds which had not been drawn prior to 2006.

2008 Amendment

The amended State Plan reflects changes from the previous State Plan by increasing spending estimations for: improvements to statewide voting systems; training for local election officials and poll workers on the provisional voting procedures; maintenance and enhancements to NevVoter; expand efforts regarding mail-in, absentee, and overseas voting; centralized Election Information Management System; and outreach activities and data collection. . Additionally, the State Advisory Committee voted to change language in Section III.A.1 pertaining to voting system standards relating to over-voting. The State has succeeded in carrying out the previous State Plan by continuing to meet performance goals, HAVA compliance in expenditure of HAVA funds, and a 11.4% increase in registered voters from June 2007 to June 2008

M. Committee Description and Development of State Plan

Section 254(a)(13) requires a description of the committee which participated in the development of the State plan in accordance with section 255 and the procedures followed by the committee under such section and section 256.

The State's Advisory Committee consists of fifteen (15) members including the Secretary of State, local election officials from the two largest counties in the State and a variety of other election stakeholders⁷.
