Federal Energy Regulatory Commission

[Docket No. CP09-17-000, PF08-14-000]

Florida Gas Transmission Company, LLC; Notice of Application

November 17, 2008.

Take notice that on October 31, 2008, Florida Gas Transmission Company, LLC (FGT), 5444 Westheimer Road, Houston, Texas 77056-5306, filed in the above referenced docket an application pursuant to section 7(c) of the Natural Gas Act (NGA) and parts 157 and 284 of the Commission's regulations, for an order granting a certificate of public convenience and necessity authorizing the construction and operation of natural gas pipeline and compression facilities and to acquire pipeline facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208-3676 or TYY, (202) 502-8659.

Specifically, FGT proposes in its Phase VIII Expansion Project to: (i) Construct and operate 483.2 miles of pipeline loop, mainline, and laterals; (ii) install 213,600 horsepower of compression at existing and new compressor stations; (iii) acquire from Florida Power & Light Company (FPL) a 22.7 mile pipeline; and (iv) construct and operate various metering and regulating facilities. All of the facilities comprising the Phase VIII Expansion Project will be located in the states of Alabama and Florida. FGT estimates that the proposed facilities will cost approximately \$2.455 billion. The facilities will be able to provide an annual average of 820,000 MMBtu/day of firm transportation. FGT proposes a new firm rate schedule, Rate Schedule FTS-3 for service on the expansion.

Any questions concerning this application may be directed to Stephen

T. Veatch, Sr. Director, Certificates and Tariffs, Florida Gas Transmission Company, LLC, 5444 Westheimer Road, Houston, Texas 77056-5306 or at 713-989-2024 or stephen.veatch@sug.com.

On March 18, 2008, the Commission staff granted FGT's request to utilize the FERC Pre-Filing Process and assigned Docket No. PF08-14-000 to staff activities involved the Phase VIII Expansion Project. Now as of the filing of FGT's application on October 31, 2008, the Pre-Filing Process for this project has ended. From this time forward, this proceeding will be conducted in Docket No. CP09-17-000, as noted in the caption of this Notice.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice, the Commission staff will either: complete the environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentators will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentators will not be required to serve copies of filed documents on all other parties. However, the non-party commentators will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.
