

information whose public disclosure is restricted by statute. For further information about the electronic docket, go to www.regulations.gov.

Title: Focus Groups as Used by EPA for Economics Projects (Renewal).

ICR numbers: EPA ICR No. 2205.02, OMB Control No. 2090-0028.

ICR Status: This ICR is scheduled to expire on November 30, 2008. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The Environmental Protection Agency (EPA) is seeking renewal of a generic information collection request (ICR) for the conduct of focus groups and one-on-one interviews related to survey development for economics projects. Focus groups are groups of individuals brought together for moderated discussions on a specific topic or issue. These groups are typically formed to gain insight and understanding of attitudes and perceptions held by the public surrounding a particular issue. One-on-one interviews, as the term implies, are individual interviews in which a respondent is generally asked to review materials and provide feedback on their content and design as well as the thought processes that the materials invoke. Focus groups and one-on-one interviews (hereafter referred to collectively as "focus groups") used as a qualitative research tool have three major purposes:

- To better understand respondents' attitudes, perceptions and emotions in response to specific topics and concepts;
- To obtain respondent information useful for better defining variables and measures in later quantitative studies; and
- To further explore findings obtained from quantitative studies.

Through these focus groups, the Agency will be able to gain a more in-depth understanding of the public's attitudes, beliefs, motivations and

feelings regarding specific issues and will provide invaluable information regarding the quality of draft survey instruments. Focus group discussions are necessary and important steps in the design of a quality survey. The target population for the focus group discussions will vary by project, but will generally include members of the general public. Participation in the focus groups will be completely voluntary. Each focus group will fully conform to federal regulations—specifically the Privacy Act of 1974 (5 U.S.C. 552a), the Hawkins-Stafford Amendments of 1988 (Pub. L. 100-297), and the Computer Security Act of 1987.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 2.33 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Individuals.

Estimated Number of Respondents: 337.

Frequency of Response: Once.

Estimated Total Annual Hour Burden: 786.

Estimated Total Annual Cost: \$22,385, includes \$0 annualized capital or O&M costs.

Changes in the Estimates: There is a decrease of 214 hours in the annual estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is based on new estimates provided by the program offices at EPA on their projected use of focus groups.

Dated: November 19, 2008.

John Moses,

Acting Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

Gulf of Mexico Program Policy Review Board; Notice of Charter Renewal

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Charter Renewal.

Notice is hereby given that the Environmental Protection Agency (EPA) has determined that, in accordance with the provisions of the Federal Advisory Committee Act (FACA), 5 U.S.C. App. 2, the Gulf of Mexico Program Policy Review Board (GMPPRB) is a necessary committee which is in the public interest.

Accordingly, GMPPRB will be renewed for an additional two-year period. The purpose of GMPPRB is to provide advice and recommendations to the Administrator of EPA on issues associated with plans to improve and protect the water quality and living resources of the Gulf of Mexico.

Inquiries may be directed to Gloria Car, Designated Federal Officer, U.S. EPA, Gulf of Mexico Program Office (Mail Code: EPAIGMPO), Stennis Space Center, MS, 39529, Telephone (228) 688-2421, or car.gloria@epa.gov.

Dated: November 18, 2008.

Benjamin Grumbles,

Assistant Administrator, Office of Water.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-8744-5]

Federal Agency Hazardous Waste Compliance

AGENCY: Environmental Protection Agency.

ACTION: Notice of twenty-third update of the Federal Agency Hazardous Waste Compliance Docket.

SUMMARY: Since 1988, the U.S. Environmental Protection Agency (EPA) has maintained a Federal Agency Hazardous Waste Compliance Docket ("the Docket") under Section 120(c) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). Section 120(c) requires EPA to establish a Docket that contains certain information reported to EPA by Federal facilities that manage hazardous waste or from which a reportable quantity of hazardous substances has been released. The Docket is used to identify Federal facilities that should be evaluated to determine if they pose a

threat to public health or welfare and the environment and to provide a mechanism to make this information available to the public. The Docket contains information that is submitted by Federal facilities under the following authorities: CERCLA Section 103, and RCRA Sections 3005, 3010 and 3016. EPA is required to publish a list of newly reported facilities in the **Federal Register**.

CERCLA Section 120(d) requires that EPA take steps to assure that a Preliminary Assessment (PA) be completed for those sites identified in the Docket and that the evaluation and listing of sites with a PA be completed within a reasonable time frame. The PA is designed to provide information for EPA to consider when evaluating the site for potential response action or listing on the National Priorities List (NPL).

Today's notice identifies the Federal facilities not previously listed on the Docket and reported to EPA since the last update of the Docket (72 FR 46218) on August 17, 2007. In addition to the list of additions to the Docket, this notice includes a section with revisions of the previous Docket list. The revisions in this update include 33 additions and 53 deletions since the previous update, as well as numerous other corrections to the Docket list. At the time of publication of this notice, the new total number of Federal facilities listed on the Docket is 2,271.

DATES: This list is current as of November 4, 2008.

FOR FURTHER INFORMATION CONTACT: Electronic versions of the Docket and more information on its implementation can be obtained at <http://www.epa.gov/fedfac/documents/docket.htm> by clicking on the link for *Update #23 to the Federal Agency Hazardous Waste Compliance Docket*.

SUPPLEMENTARY INFORMATION:

- 6.0 Facility Status Reporting, Including NFRAP Status Updates
- 7.0 Information Contained on Docket Listing

1.0 Introduction

Section 120(c) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), 42 United States Code (U.S.C.) 9620(c), as amended by the Superfund Amendments and

Reauthorization Act of 1986 (SARA), requires the U.S. Environmental Protection Agency (EPA) to establish the Federal Agency Hazardous Waste Compliance Docket ("Docket"). The Docket contains information on Federal facilities that is submitted by Federal agencies to EPA under Sections 3005, 3010, and 3016 of the Resource Conservation and Recovery Act (RCRA), 42 U.S.C. 6925, 6930, and 6937, and under Section 103 of CERCLA, 42 U.S.C. 9603. Specifically, RCRA Section 3005 establishes a permitting system for certain hazardous waste treatment, storage, and disposal (TSD) facilities; RCRA Section 3010 requires waste generators, transporters and TSD facilities to notify EPA of their hazardous waste activities; and RCRA Section 3016 requires Federal agencies to submit biennially to EPA an inventory of their Federal hazardous waste facilities. CERCLA Section 103(a) requires the owner or operator of a vessel or onshore or offshore facility to notify the National Response Center (NRC) of any spill or other release of a hazardous substance that equals or exceeds a reportable quantity (RQ), as defined by CERCLA Section 101. Additionally, CERCLA Section 103(c) requires facilities that have "stored, treated, or disposed of" hazardous wastes and where there is "known, suspected, or likely releases" of hazardous substances to report their activities to EPA.

The Docket serves three major purposes: (1) To identify all Federal facilities that must be evaluated to determine whether they pose a risk to human health and the environment sufficient to warrant inclusion on the National Priorities List (NPL); (2) to compile and maintain the information submitted to EPA on such facilities under the provisions listed in Section 120(c) of CERCLA; and (3) to provide a mechanism to make the information available to the public.

The initial list of Federal facilities to be included on the Docket was published in the **Federal Register** on February 12, 1988 (53 FR 4280). Since then, updates to the Docket have been published on November 16, 1988 (54 FR 46364); December 15, 1989 (54 FR 51472); August 22, 1990 (55 FR 34492); September 27, 1991 (56 FR 49328); December 12, 1991 (56 FR 64898); July 17, 1992 (57 FR 31758); February 5, 1993 (58 FR 7298); November 10, 1993 (58 FR 59790); April 11, 1995 (60 FR 18474); June 27, 1997 (62 FR 34779); November 23, 1998 (63 FR 64806); June 12, 2000 (65 FR 36994); December 29, 2000 (65 FR 83222); October 2, 2001 (66 FR 50185); July 1, 2002 (67 FR 44200);

January 2, 2003 (68 FR 107); July 11, 2003 (68 FR 41353); December 15, 2003 (68 FR 240); July 19, 2004 (69 FR 42989); December 20, 2004 (69 FR 75951); October 25, 2005 (70 FR 61616); and August 17, 2007 (72 FR 46218). This notice constitutes the twenty-third update of the Docket.

Today's notice provides some background information on the Docket. Additional information on the Docket requirements and implementation are found in the Docket Reference Manual, Federal Agency Hazardous Waste Compliance Docket found at <http://www.epa.gov/fedfac/documents/docket.htm> or obtained by calling the Regional Docket Coordinators listed below. Today's notice also provides changes to the list of sites included on the Docket in four areas: (1) Additions, (2) Deletions, (3) Corrections, and (4) No Further Remedial Action Planned (NFRAP) Status Changes. Specifically, additions are newly identified Federal facilities that have been reported to EPA since the last update and now are included on the Docket; the deletions section lists Federal facilities that EPA is deleting from the Docket;¹ the corrections section lists changes in the information about the Federal facilities already listed on the Docket; and the section updating the NFRAP status lists the Federal facilities whose NFRAP status has changed since the last Docket update.

The information submitted to EPA on each Federal facility is maintained in the Docket repository located in the EPA Regional office of the Region in which the facility is located; for a description of the information required under those provisions, see 53 FR 4280 (February 12, 1988). Each repository contains the documents submitted to EPA under the reporting provisions and correspondence relevant to the reporting provisions for each facility.

Carol Weinstein (SFD-6-1), U.S. EPA Region 9, 75 Hawthorne Street, San Francisco, CA 94105, (415) 972-3083 or Debbie Schechter (SFD-6-1), U.S. EPA Region 9, 75 Hawthorne Street, San Francisco, CA 94105, (415) 972-3093.

Monica Lindeman (ECL, ABU # 1), U.S. EPA Region 10, 1200 Sixth Avenue, Seattle, WA 98101, (206) 553-5113 or Ken Marcy (ECL, ABU # 1), U.S. EPA Region 10, 1200 Sixth Avenue, Seattle, WA 98101, (206) 463-1349.

3.0 Revisions of the Previous Docket

This section includes a discussion of the additions, deletions, corrections, and NFRAP status changes to the list of Docket facilities since the previous Docket update.

3.1 Additions

Today, 33 Federal facilities are being added to the Docket, primarily because of new information obtained by EPA (for example, recent reporting of a facility pursuant to RCRA Sections 3005, 3010, or 3016 or CERCLA Section 103). CERCLA Section 120, as amended by the Defense Authorization Act of 1997, specifies that EPA take steps to assure that a Preliminary Assessment (PA) be completed within a reasonable time frame for those Federal facilities that are included on the Docket. Among other things, the PA is designed to provide information for EPA to consider when evaluating the site for potential response action or listing on the NPL.

3.2 Deletions

Today, 53 Federal facilities are being deleted from the Docket. There are no statutory or regulatory provisions that address deletion of a facility from the Docket. However, if a facility is incorrectly included on the Docket, it may be deleted from the Docket; this may be appropriate for a facility for which there was an incorrect report

submitted for hazardous waste activity under RCRA (*e.g.*, 40 CFR 262.44); a facility that was not Federally-owned or operated at the time of the listing; facilities included more than once (*i.e.*, redundant listings); or when multiple facilities are combined under one listing. Facilities being deleted no longer will be subject to the requirements of CERCLA Section 120(d).

3.3 Corrections

Changes necessary to correct the previous Docket were identified by both EPA and Federal agencies. The corrections include changes in addresses or spelling, corrections of the recorded name and ownership of a Federal facility, and additional reporting mechanisms used to include a facility on the Docket. In addition, some changes in the names of Federal facilities were made to establish consistency in the Docket or between CERCLIS and the Docket. For each Federal facility for which a correction has been entered, the original entry (designated by an "o"), as it appeared in previous Docket updates, is shown directly below the corrected entry (designated by a "c") for easy comparison. Today, information is being corrected for 27 facilities.

3.4 NFRAP Status Changes

Today's update to the Docket includes a chart showing 7 sites with changes in their NFRAP status. When a Federal facility listed on the Docket provides a PA (and if warranted a Site Inspection (SI)) for a site to EPA, EPA evaluates the site in accordance with the Hazard Ranking System (HRS) to determine whether the site scores sufficiently high to warrant NPL listing. If EPA determines that the facility or site does not pose a threat sufficient to warrant Superfund action, EPA typically will designate the site status as NFRAP under Superfund.

A decision not to take further response/remedial action under the Superfund program usually is based on a finding that there is no significant threat to human health or the environment, and EPA would not propose to list the site on the NPL at that time. If new or additional information becomes available suggesting that the site may warrant further evaluation, EPA will re-evaluate the site accordingly. This decision does not preclude any further action at the Federal facility or site by another EPA program, the State or other Federal agency. Generally, NFRAP status pertains to sites included in the CERCLIS Inventory.

An "N" in this chart designates the site as NFRAP.

4.0 Process for Compiling the Updated Docket

In compiling the newly reported Federal facilities for the update being published today, EPA extracted the names, addresses, and identification numbers of facilities from four EPA databases—ERNS, the Biennial Inventory of Federal Agency Hazardous Waste Activities, the Resource Conservation and Recovery Information System (RCRAInfo), and the Superfund Comprehensive Environmental Response, Compensation, and Liability Information System (CERCLIS)—that contain information about Federal facilities submitted under the four provisions listed in CERCLA Section 120(c).

EPA assures the quality of the information on the Docket by conducting extensive evaluation of the current Docket list with the information obtained from the databases identified above to determine which Federal facilities were, in fact, newly reported and qualified for inclusion on the update. EPA is also striving to correct errors for Federal facilities that were previously reported. For example, state-owned or privately owned facilities that are not operated by the Federal government may have been included. Such problems are sometimes caused by procedures historically used to report and track Federal facilities data. EPA is working to resolve them. Representatives of Federal agencies are asked to write to EPA's Docket coordinator at the following address if revisions of this update information are necessary: Tim Mott, Federal Agency Hazardous Waste Compliance Docket Coordinator, Federal Facilities Restoration and Reuse Office (Mail Code 5106P), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460.

5.0 Facilities Not Included

Certain categories of facilities may not be included on the Docket, such as: (1) Federal facilities formerly owned by a Federal agency that at the time of consideration was not Federally-owned or operated; (2) Federal facilities that are small quantity generators (SQGs) that have never generated more than 1,000 kg of hazardous waste in any month; (3) Federal facilities that are solely hazardous waste transportation facilities, as reported under RCRA Section 3010; and (4) Federal facilities that have mixed mine or mill site ownership. An EPA policy issued in June, 2003 provided guidance for a site-

by-site evaluation as to whether “mixed ownership” mine or mill sites, created as a result of the General Mining Law of 1872 and never reported under Section 103(a), should be included on the Docket. For purposes of that guidance, mixed ownership mine or mill sites are those located partially on private land and partially on public land. This guidance is found at <http://www.epa.gov/fedfac/pdf/mixownrshpmine.pdf>. The guidance for not including these facilities may change; facilities now not included may be added at some point if EPA determines that they should be included.

6.0 Facility NPL Status Reporting, Including NFRAP Status

EPA typically tracks the NPL status of Federal facilities listed on the Docket. An updated list of the NPL status of all Docket facilities, as well as their NFRAP status, is available at <http://www.epa.gov/fedfac/documents/docket.htm>.

7.0 Information Contained on Docket Listing

The updated information is provided in four tables. The first table is a list of new Federal facilities that are being added on the Docket. The second is a list of Federal facilities that are being deleted from the Docket. The third contains corrections of information included on the Docket. The fourth table lists updates to NFRAP status.

The facilities listed in each table are organized by state and then grouped alphabetically within each state by the Federal agency responsible for the facility. Under each state heading is listed, the name and address of the facility, the Federal agency responsible for the facility, the statutory provision(s) under which the facility was reported to EPA, and a code. Each Federal facility listed in the update has been assigned a code that indicates a specific reason for the addition, deletion, or correction. The code key precedes the lists.

The statutory provisions under which a facility is reported are listed in a column titled “Reporting Mechanism.” Applicable mechanisms are listed for each facility: for example Sections 3010, 3016, 103(c), or Other. “Other” has been added as a reporting mechanism to

indicate those Federal facilities that otherwise have been identified to have releases or threat of releases of hazardous substances. The National Contingency Plan 40 CFR 300.405 addresses discovery or notification and outlines what constitutes discovery of a hazardous substance release, and states that a release may be discovered in several ways, including (1) A report submitted in accordance with Section 103(a) of CERCLA, *i.e.*, reportable quantities codified at 40 CFR part 302; (2) A report submitted to EPA in accordance with Section 103(c) of CERCLA; (3) Investigation by government authorities conducted in accordance with Section 104(e) of CERCLA or other statutory authority; (4) Notification of a release by a Federal or state permit holder when required by its permit; (5) Inventory or survey efforts or random or incidental observation reported by government agencies or the public; (6) Submission of a citizen petition to EPA or the appropriate Federal facility requesting a preliminary assessment, in accordance with Section 105(d) of CERCLA; (7) A report submitted in accordance with Section 311(b)(5) of the CWA; and (8) Other sources. As a policy matter, EPA generally believes it is appropriate for Federal facilities identified through the CERCLA discovery and notification process to be included on the Docket.

The complete list of Federal facilities that now make up the Docket and the NPL and NFRAP status are available to interested parties and can be obtained at <http://www.epa.gov/fedfac/documents/docket.htm> by clicking on the link for *Federal Agency Hazardous Waste Compliance Docket Update #23* or by calling Tim Mott, the EPA HQ Docket Coordinator at (703) 603–8807. As of today, the total number of Federal facilities that appear on the Docket is 2,273.

Dated: November 7, 2008.

John E. Reeder,
Director, Federal Facilities Restoration and Reuse Office, Office of Solid Waste and Emergency Response.

Docket Codes

Categories for Deletion of Facilities

- (1) Small-Quantity Generator.

- (2) Never Federally Owned and/or Operated.
- (3) Formerly Federally Owned and/or Operated but not at time of listing.
- (4) No Hazardous Waste Generated.
- (5) (This code is no longer used.)
- (6) Redundant Listing/Site on Facility.
- (7) Combining Sites Into One Facility/ Entries Combined.
- (8) Does Not Fit Facility Definition.
- (9) (This code is no longer used.)
- (10) (This code is no longer used.)
- (11) (This code is no longer used.)
- (12) (This code is no longer used.)
- (13) (This code is no longer used.)
- (14) (This code is no longer used.)

Categories for Addition of Facilities

- (15) Small-Quantity Generator with either a RCRA 3016 or CERCLA 103 Reporting Mechanism.
- (16) One Entry Being Split Into Two (or more)/ Federal Agency Responsibility Being Split.
- (17) New Information Obtained Showing That Facility Should Be Included.
- (18) Facility Was a Site on a Facility That Was Disbanded; Now a Separate Facility.
- (19) Sites Were Combined Into One Facility.

(19A) New currently Federally owned and/or operated Facility site.

Categories for Corrections of Information About Facilities

- (20) Reporting Provisions Change.
 - (20A) Typo Correction/Name Change/ Address Change.
- (21) Changing Responsible Federal Agency. (If applicable, new responsible Federal agency must submit proof of previously performed PA, which is subject to approval by EPA.)
- (22) Changing Responsible Federal Agency and Facility Name. (If applicable, new responsible Federal agency must submit proof of previously performed PA, which is subject to approval by EPA.)
- (23) New Reporting Mechanism Added at Update.
- (24) Reporting Mechanism Determined To Be Not Applicable After Review of Regional Files.

FARM CREDIT ADMINISTRATION

Farm Credit Administration Board; Regular Meeting

AGENCY: Farm Credit Administration.

SUMMARY: Notice is hereby given, pursuant to the Government in the Sunshine Act (5 U.S.C. 552b(e)(3)), of the regular meeting of the Farm Credit Administration Board (Board).

DATE AND TIME: The regular meeting of the Board will be held at the offices of the Farm Credit Administration in McLean, Virginia, on December 11, 2008, from 9 a.m. until such time as the Board concludes its business.

FOR FURTHER INFORMATION CONTACT: Roland E. Smith, Secretary to the Farm Credit Administration Board, (703) 883-4009, TTY (703) 883-4056.

ADDRESSES: Farm Credit Administration, 1501 Farm Credit Drive, McLean, Virginia 22102-5090.

SUPPLEMENTARY INFORMATION: Parts of this meeting of the Board will be open to the public (limited space available), and parts will be closed to the public. In order to increase the accessibility to Board meetings, persons requiring assistance should make arrangements in advance. The matters to be considered at the meeting are:

Open Session

A. Approval of Minutes

- November 13, 2008.

B. New Business

- April Meeting Date Change.

- Inflation Adjustments to the Civil Money Penalties—Final Rule.

C. Reports

- FCS Building Association Quarterly Report.

Closed Session*

- OSMO Supervisory and Oversight Activities.

Dated: November 20, 2008.

Roland E. Smith,

Secretary, Farm Credit Administration Board.

BILLING CODE 6705-01-P

GENERAL SERVICES ADMINISTRATION

Multiple Award Schedule Advisory Panel; Notification of Public Advisory Panel Meetings

AGENCY: U.S. General Services Administration (GSA).

ACTION: Notice.

SUMMARY: The U.S. General Services Administration (GSA) Multiple Award Schedule Advisory Panel (MAS Panel), a Federal Advisory Committee, will hold a public meeting on the following date: Monday, December 8, 2008. GSA utilizes the MAS program to establish long-term Governmentwide contracts with responsible firms to provide Federal, State, and local government customers with access to a wide variety of commercial supplies (products) and services.

* Session Closed-Exempt pursuant to 5 U.S.C. 552b(c)(8) and (9).

The MAS Panel was established to develop advice and recommendations on MAS program pricing policies, provisions, and procedures in the context of current commercial pricing practices. The Panel will be developing recommendations for MAS program pricing provisions for the acquisition of (1) professional services; (2) products; (3) total solutions which consist of professional services and products; and (4) non professional services. In developing the recommendations, the Panel will, at a minimum, address these 5 questions for each of the 4 types of acquisitions envisioned above: (1) Where does competition take place?; (2) If competition takes place primarily at the task/delivery order level, does a fair and reasonable price determination at the MAS contract level really matter?; (3) If the Panel consensus is that competition is at the task order level, are the methods that GSA uses to determine fair and reasonable prices and maintain the price/discount relationship with the basis of award customer(s) adequate?; (4) If the current policy is not adequate, what are the recommendations to improve the policy/guidance; and (5) If fair and reasonable price determination at the MAS contract level is not beneficial and the fair and reasonable price determination is to be determined only at the task/delivery order level, then what is the GSA role?

To that end, the Panel would like to hear from the many stakeholders of the MAS program. The MAS program stakeholders include, but not limited to, ordering agency contracting officers, GSA contracting officers, schedule contract holders, Congress, program
