39 CFR Part 111

Pricing and Mailing Standards Changes for Shipping Services

AGENCY: Postal Service.TM

ACTION: Final rule.

SUMMARY: The Postal Service is revising *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM[®]) to reflect changes to the prices and standards for the following Shipping Services:

- Express Mail[®]
- Priority Mail[®]
- Parcel Select[®]
- Parcel Return Service[®]

DATES: *Effective Date:* January 18, 2009.

FOR FURTHER INFORMATION CONTACT: Bert Olsen at 202-268-7276 or Monica Grein at 202-268-8411.

SUPPLEMENTARY INFORMATION: On November 12, 2008, the Governors of the Postal Service established new prices and product features for Shipping Services. This **Federal Register** notice describes these price and product changes and the mailing standards to implement them.

Express Mail

On average, Express Mail retail prices will increase by approximately 5.7 percent. The commercial base prices will increase by approximately 3.7 percent and will be 5 percent lower than the retail price. Commercial volume rebates will be eliminated on January 18, 2009. Any rebate earned from January 1-17 will be credited to the qualifying mail owner's account at the end of the quarter. A new price category, commercial plus pricing, will be introduced and will be 14.5 percent lower than the retail price.

Express Mail commercial base prices availability will be expanded to customers who pay postage using Information Based Indicia (IBI) postage meters. Effective January 2010, to qualify for the commercial base prices, the IBI postage meter must be able to electronically provide transactional data by customer.

Commercial plus pricing will be available to new and existing customers whose account volume exceeds a

minimum threshold or who have a customer commitment agreement with the Postal Service, and who either use an Express Mail Corporate Account (EMCA), including Federal Agency Accounts, or are registered end-users of USPS approved PC-Postage[®] providers using qualifying shipping labels managed by the PC-Postage system used.

Priority Mail

On average, Priority Mail retail prices are increasing by approximately 4.7 percent. We will be introducing a new Priority Mail small flat-rate box, identified by the preprinted words "Small Flat-Rate Box," enhancing customer choice, convenience, and ease of use. The small Priority Mail flat-rate box will be \$4.95 at retail, the same price as the flat-rate envelope.

Priority Mail commercial base prices will be expanded to customers who pay postage using Information Based Indicia (IBI) postage meters, in conjunction with an approved shipping label that includes a confirmation services barcode with a postal routing code. Effective January 2010, to qualify for the commercial base prices, the IBI meter must be able to electronically provide transactional data by customer.

A new price category, commercial plus pricing, is being introduced and will be lower than commercial base prices. Commercial plus pricing will be available to new and existing permit imprint customers whose account volume exceeds a minimum threshold or who have a customer commitment agreement with the Postal Service. Also, registered end-users of USPS approved PC-Postage products using qualifying shipping labels from the PC-Postage product used and whose account volume exceeds a minimum threshold will qualify for commercial plus pricing.

Retail prices will no longer be available to Priority Mail customers using permit imprint. Permit imprint customers will be required to use the commercial base prices and to conform to the commercial base price eligibility requirements. To allow for system enhancements, customers will have until May 2009 to comply with the commercial base price barcode requirements.

Parcel Select

The average price increase is: 4.7 percent for destination delivery unit; 6.8 percent for destination sectional center facility; and 9.1 percent for destination bulk mail center. There are no additional changes to the Parcel Select products.

Parcel Return Service

The return delivery unit price will not be increasing. The return bulk mail center price will increase by approximately 7.1 percent. There are no additional changes to the Parcel Return Service product.

The Postal Service adopts the following changes to *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM), incorporated by reference in the *Code of Federal Regulations*. See 39 CFR 111.1.

1.9 Computing Postage

[Revise 1.9 by changing the percentage, adding reference to commercial plus price, and deleting the last sentence so that it reads as follows:]

For each addressed mailpiece, determine the retail price based on weight and zone. Then, multiply the retail price by 5 percent for commercial base pricing, and by 14.5 percent for commercial plus pricing to obtain the appropriate discount amount. Subtract the discount amount (without rounding
