All visitors to the Berkeley University campus are required to pre-register to be admitted. Anyone wishing to attend this meeting must register by close of business Wednesday, December 10, 2008, in order to attend. Please submit your name, time of arrival, e-mail address and phone number to Tina Faecke. Non-U.S. citizens must also submit their country of citizenship, title, employer/sponsor, and address. Ms. Faecke’s e-mail address is tina.faecke@nist.gov and her phone number is (301) 975–5911.

Patrick Gallagher,
Deputy Director.

DEPARTMENT OF COMMERCE
National Institute of Standards and Technology
Malcolm Baldrige National Quality Award Board of Overseers

AGENCY: National Institute of Standards and Technology; Department of Commerce.

ACTION: Notice of public meeting.

SUMMARY: Pursuant to the Federal Advisory Committee Act, 5 U.S.C. app. 2, notice is hereby given that there will be a meeting of the Board of Overseers of the Malcolm Baldrige National Quality Award on December 11, 2008. The Board of Overseers is composed of eleven members prominent in the fields of quality, innovation, and performance management and appointed by the Secretary of Commerce, assembled to advise the Secretary of Commerce on the conduct of the Baldrige Award. The purpose of this meeting is to discuss and review information received from the National Institute of Standards and Technology and from the Chair of the Judges Panel of the Malcolm Baldrige National Quality Award. The agenda will include: Report from the Judges’ Panel, Baldrige Program (BNQP) Update, BNQP Strategic Plan, Potential STEM (Science, Technology, Engineering, and Math) Education Program, Use of the Consumer Price Index as an Inflator for the Baldrige Award Application fees, and Recommendations for the NIST Director.

DATES: The meeting will convene December 11, 2008, at 8:30 a.m. and adjourn at 3 p.m. on December 11, 2008.

ADDITIONAL: The meeting will be held at the National Institute of Standards and Technology, Administration Building, Lecture Room B, Gaithersburg, Maryland 20899. All visitors to the National Institute of Standards and Technology site will have to pre-register to be admitted. Please submit your name, time of arrival, email address and phone number to Diane Harrison no later than Monday, December 8, 2008, and she will provide you with instructions for admittance. Ms. Harrison’s e-mail address is diane.harrison@nist.gov and her phone number is (301) 975–2361.

FOR FURTHER INFORMATION CONTACT: Dr. Harry Hertz, Director, Baldrige National Quality Program, National Institute of Standards and Technology, Gaithersburg, Maryland 20899, telephone number (301) 975–2361.

Patrick Gallagher,
Deputy Director.

ANNOUNCEMENT OF THE ESTABLISHMENT OF A LABORATORY ACCREDITATION PROGRAM (LAP) FOR LABORATORIES PERFORMING INTEROPERABILITY, PERFORMANCE, AND CONFORMANCE BIOMETRICS TESTING UNDER THE NATIONAL VOLUNTARY LABORATORY ACCREDITATION PROGRAM AND TECHNICAL REQUIREMENTS FOR SUCH A LAP

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice.

SUMMARY: Under the National Voluntary Laboratory Accreditation Program (NVLAP) the National Institute of Standards and Technology (NIST) announces the establishment of a laboratory accreditation program and the availability of applications for accreditation of laboratories that perform biometric testing including interoperability, performance, and conformance testing using internationally recognized standards developed by the American National Standards Institute (ANSI), NIST, and by the International Committee for Information Technology Standards (INCITS). Additional standards may be identified throughout the development of the accreditation program technical requirements.
performing testing, interoperability, performance, and conformance--biometrics testing under the National Voluntary Laboratory Accreditation Program (73 FR 11093). The comment period closed on March 31, 2008. Five responses to this request for comments were received and are summarized below. NVLAP held a public workshop on July 1, 2008 to solicit further comments on the establishment of a Biometrics Testing LAP and on the technical requirements to be associated with the LAP. A transcript of the workshop question and answer session is available on request from NVLAP, National Institute of Standards and Technology, 100 Bureau Drive, Mail Stop 2140, Gaithersburg, Maryland 20899–2140; phone 301–975–4016; fax 301–926–2884; e-mail: nvlap@nist.gov.

Summary of Comments

Four of five comments received supported NIST’s establishment of an accreditation program to recognize the competence of biometrics testing laboratories in support of DHS. Two responses were from testing laboratories (one non-profit and one for-profit) that provide standards-based performance testing of biometrics technologies. One response was from a state department of justice. One response was from a provider (vendor) of biometric identity management systems, applications and services. The fifth response, from a non-profit accreditation body, stated that there was no need for a government program since there were four nationally and internationally recognized U.S. private sector laboratory accreditation bodies capable of offering this type of accreditation.

Determination

DHS requirements are intended to set a level field for vendors seeking to demonstrate that their equipment meets federal, state and local procurement and grant guidance requirements. These requirements stipulate that vendor equipment must undergo type testing by a third party laboratory that has been accredited by a recognized laboratory accreditation body to specific requirements for laboratories conducting biometric performance testing. These specific requirements include the required minimum performance standard for the enrollment, matching and transaction time metrics for biometric subsystems. Requirements for airport access control systems are further documented in the 2005 TSA Guidance Package. DHS requirements also stipulate the need to ensure consistency across laboratories that perform biometrics subsystem testing. The current estimate of the number of laboratories that are likely to seek accreditation under this program is between three and five.

There are no recognized laboratory accreditation bodies in the private sector that currently meet DHS requirements. Of the five nationally and internationally recognized private sector bodies currently in operation, only one offers accreditation in the general Information Technology field of testing, and none offer accreditation to the DHS-stipulated specific program requirements for biometrics testing.

In addition, the expertise to competently run specific biometrics tests called out by DHS has not been widely demonstrated in the private sector and tests have not been conducted extensively on commercial equipment to date. Test method execution and test result consistency and comparability are critical issues in biometrics testing based on the new applications of biometrics for identity management in homeland security. NIST technical staff are leading and participating in the development of many of these test methods. A laboratory accreditation organization with published accreditation requirements for biometrics testing laboratories, an active proficiency testing program for all participating laboratories, and access to technical experts in the testing methodology associated with new applications of biometrics for identity management in homeland security is needed to support this DHS program. There is no other private sector program that meets these requirements.

Based on careful analysis of comments received both during the public comment period and in the public workshop, and a detailed review of DHS requirements, the Chief of NVLAP has determined that the establishment of a LAP for laboratories performing inoperability, performance, and conformance biometrics testing on Personal Identification Verification equipment used in Homeland Security Applications best meets government needs.

This notice is issued in accordance with NVLAP procedures and general requirements, found in Title 15 Part 25 of the Code of Federal Regulations. NVLAP provides an unbiased, third-party evaluation and recognition of competence. NVLAP accreditation signifies that a laboratory has demonstrated that it operates in accordance with NVLAP management and technical requirements pertaining to quality systems, personnel, accommodation and environment, test and calibration methods, equipment, measurement traceability, sampling, handling of test and calibration items, and test and calibration reports.

NVLAP accreditation does not imply any guarantee (certification) of laboratory performance or test/calibration data. NVLAP accreditation is a finding of laboratory competence.

Technical Requirements for the Accreditation Process: NVLAP assessments are conducted in accordance with the National Voluntary Laboratory Accreditation Program regulations, which are found at 15 CFR part 285. NVLAP accreditation is in full conformance with relevant standards of the International Organization for Standardization (ISO) and the International Electrotechnical Commission (IEC), including ISO/IEC 17025.

Accreditation is granted to a laboratory following successful completion of a process, which includes submission of an application and payment of fees by the laboratory, a review of the laboratory management system documentation, an on-site assessment by technical experts, participation in proficiency testing, and resolution of any management system or technical nonconformities identified during any phase of the application process. The accreditation is formalized through issuance of a Certification of Accreditation and Scope of Accreditation.

General requirements for accreditation are given in NIST Handbook 150, NVLAP Procedures and General Requirements. The specific technical and administrative requirements for the program for accreditation of laboratories that test biometrics are given in the draft NIST Handbook 150–25, Biometrics. Laboratories must meet all NVLAP criteria and requirements in order to become accredited. To be considered for accreditation, the applicant laboratory must provide a completed application to NVLAP, pay all required fees, agree to conditions for accreditation, and must be competent to perform the tests prescribed in the standard.

Application Requirements: (1) Legal name and full address of the laboratory; (2) Ownership of the laboratory; (3) Authorization Representative’s name and contact information; (4) Names, titles, and contact information for laboratory staff nominated to serve as Approved Signatories of test and calibration reports; (5) Organization chart defining relationships that are relevant to performing and calibrations covered in the accreditation request; (6) General description of
laboratory, including its facilities and scope of operations; and (7) Requested scope and accreditation.

For this program, the laboratory shall provide a copy of its management system documents, including quality manual and related documentation, where appropriate, prior to the on-site assessment. NVLAP will review the management system documentation and discuss any nonconformities with the Authorized Representative before the on-site visit. Laboratories that apply for accreditation will be required to pay NVLAP fees and undergo on-site assessment and shall meet proficiency testing requirements before initial accreditation can be granted.

Paperwork Reduction Act: This action contains a collection of information requirement subject to review and approval by the Office of Management and Budget (OMB) under the Paperwork Reduction Act (PRA) of 1995. Collection activities for NVLAP are currently approved by OMB under control number 0693–0003.

Notwithstanding any other provisions of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information unless it displays a currently valid OMB Control Number.

Patrick Gallagher,
Deputy Director.

[Docket No. PTO–C–2008–0056]

National Medal of Technology and Innovation Nomination Evaluation Committee Meeting

ACTION: Notice of closed meeting.

SUMMARY: The National Medal of Technology and Innovation (NMTI) Nomination Evaluation Committee will meet in closed session on Monday, December 15, 2008. The primary purpose of the meeting is the discussion of relative merits of persons and companies nominated for the NMTI award.

DATES: The meeting will convene Monday, December 15, 2008, at 9 a.m., and adjourn at 1 p.m.

ADDRESSES: The meeting will be held at the United States Patent and Trademark Office, 600 Dulany Street, Alexandria, VA, 22314.

FOR FURTHER INFORMATION CONTACT: Jennifer Lo, Program Manager, National Medal of Technology and Innovation Program, United States Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313–1450, telephone (571) 272–7640, or by electronic mail: nmti@uspto.gov.

SUPPLEMENTARY INFORMATION: Pursuant to the Federal Advisory Committee Act, 5 U.S.C. app. 2, notice is hereby given that the NMTI Nomination Evaluation Committee, United States Patent and Trademark Office, will meet at the United States Patent and Trademark Office campus in Alexandria, Virginia. The NMTI Nomination Evaluation Committee was established in accordance with the provisions of the NMTI Nomination Evaluation Committee’s charter and the Federal Advisory Committee Act. The NMTI Nomination Evaluation Committee meeting will be closed to the public in accordance with section 552b(c)(4), (6) and (9)(B) of Title 5, United States Code, because it will involve discussion of relative merits of persons and companies nominated for the NMTI. Public disclosure of this information would likely frustrate implementation of the NMTI program because premature publicity about candidates under consideration for the NMTI award, who may or may not ultimately receive the award, would be likely to discourage nominations for the award. The Secretary of Commerce is responsible for recommending to the President prospective NMTI recipients. The NMTI Nomination Evaluation Committee makes its recommendations for the NMTI candidates to the Secretary of Commerce, who in turn makes recommendations to the President for final selection. NMTI Nomination Evaluation Committee members are drawn from both the public and private sectors and are appointed by the Secretary for three-year terms, with eligibility for one reappointment. The NMTI Nomination Evaluation Committee members are composed of distinguished experts in the fields of science, technology, business and patent law. The General Counsel formally determined on November 21, 2008, pursuant to section 10(d) of the Federal Advisory Committee Act, that the meeting may be closed because Committee members are concerned with matters that are within the purview of 5 U.S.C. 552b(c)(4), (6) and (9)(B). Due to closure of the meeting, copies of the minutes of the meeting will not be available. A copy of the determination is available for public inspection at the United States Patent and Trademark Office.

Dated: November 21, 2008.

Jon W. Dudas,
Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office.

Office of the Secretary

Submission for OMB Review; Comment Request

ACTION: Notice.

The Department of Defense has submitted to OMB for clearance, the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

DATES: Consideration will be given to all comments received by December 29, 2008.

Title, Form and OMB Number: Department of Defense Education Activity (DoDEA) Research Study Request; DoDEA Form 2071.3–F1: OMB Control Number 0704–TB.

Type of Request: New.

Number of Respondents: 75.

Responses per Respondent: 1.

Annual Responses: 75.

Average Burden per Response: 1 hour.

Annual Burden Hours: 75.

Needs and Uses: The Department of Defense Education Activity (DoDEA) is a DoD field activity operating under the direction, authority, and control of the Deputy Under Secretary of Defense, Military Community and Family Policy. The DoDEA operates 223 schools in 16 districts located in 13 foreign countries, seven states, Guam, and Puerto Rico. The DoDEA receives requests from researchers to conduct non-DoDEA sponsored research studies in DoDEA schools, districts, and/or areas. To review the proposed research requests, DoDEA developed DoDEA Form 2071.3–F1, “Research Study Request,” in Administrative Instruction 2071.3 (DoDEA AI 2071.3), to collect information about the researcher, the research project, audience, timeline, and the statistical analyses that will be conducted during the proposed research study. This information is needed to ensure that the proposed non-DoDEA sponsored research does not unduly interfere with the classroom.
