

series proposed by this filing may be added.

2. Statutory Basis

The Exchange believes that the proposal is consistent with the requirements of Section 6(b) of the Act,⁷ in general, and Section 6(b)(5) of the Act,⁸ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Specifically, the current proposed rule change is responsive to the current, unprecedented market conditions, is limited in scope as to QOS in ETF options and as to time, and the proposed additional new series can be added without presenting capacity problems.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing rule does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; or (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act⁹ and Rule 19b-4(f)(6) thereunder.¹⁰

The Exchange has asked the Commission to waive the operative delay to permit the proposed rule change to become operative prior to the 30th day after filing. The Commission has determined that waiving the 30-day operative delay of the Exchange's proposal is consistent with the protection of investors and the public interest because such waiver will enable the Exchange to better meet customer demand in light of recent increased volatility in the marketplace.¹¹ Therefore, the Commission designates the proposal operative upon filing.

At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

IV. Commission's Findings and Order Granting Accelerated Approval of the Proposed Rule Change

After careful consideration, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange¹³ and, in particular, the requirements of Section 6 of the Act.¹⁴ Specifically, the Commission finds that the proposed rule change is consistent with Section 6(b)(5) of the Act,¹⁵ which requires, among other things, that the rules of a national securities exchange be designed to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest.

Listing and Trading of Options on Managed Fund Shares

As set out above, the Exchange's proposed rules include requirements regarding initial and continued listing standards, the creation/redemption process for Managed Fund Shares, and trading halts. Managed Fund Shares must be traded through a national securities exchange or through the facilities of a national securities association, and must be "NMS stock" as defined under Rule 600 of Regulation NMS.¹⁶

The Commission notes that, pursuant to Commentary .06(a) to NYSE Alternext Rule 915 and Commentary .07 to NYSE Alternext Rule 916, Managed Fund Shares will be subject to the initial and continuing eligibility standards for underlying securities provided in Alternext Rule 915 and 916, as applicable. In particular, to be options eligible, a Managed Fund Share must

either meet the criteria and guidelines for underlying securities set forth in Commentary .01 to NYSE Alternext Rule 915, or alternately, the Managed Fund Share must be available for creation or redemption each business day in cash or in kind from the investment company, issuing trust, commodity pool or other entity at a price related to the NAV. In addition, the investment company, issuing trust, commodity pool or other entity shall provide that Managed Fund Shares may be created even though some or all of the securities and/or cash needed to be deposited have not been received by the unit investment trust or the management investment company, provided the authorized creation participant has undertaken to deliver the Managed Fund Shares and/or cash as soon as possible and such undertaking has been secured by the delivery and maintenance of collateral consisting of cash or cash equivalents satisfactory to the fund which underlies the option as described in the prospectus of the Managed Fund Share.

To continue to be eligible to underlie options, the Managed Fund Share must remain an NMS stock listed on a national securities exchange. The Exchange will also consider the suspension of opening transactions in any series of options of the class covering Managed Fund Shares where the Managed Fund Share does not satisfy the requirements set out in Commentary .07 to NYSE Alternext Rule 916. These include: (1) In the case of options on Managed Fund Shares approved pursuant to paragraph (b) under Commentary .06 to NYSE Alternext Rule 915, compliance with paragraphs (1) through (7) of Commentary .01 to NYSE Alternext Rule 916; (2) following the initial twelve-month period, beginning upon the commencement of trading of the Managed Fund Shares on a national securities exchange and being defined as an "NMS stock", there are fewer than 50 record and/or beneficial holders of such Managed Fund Shares for 30 or more consecutive trading days; (3) the value of the index or portfolio of securities, non-U.S. currency, or portfolio of commodities including commodity futures contracts, options on commodity futures contracts, swaps, forward contracts, options on physical commodities and/or Financial Instruments and Money Market Instruments on which the Managed Fund Shares are based is no longer calculated or available. In addition, the Exchange retains discretion to suspend opening transactions in options on

Managed Fund Shares where conditions make further dealings in such options inadvisable.

Furthermore, the Exchange represented that options on Managed Fund Shares will be subject to all Exchange rules governing the trading of equity options and that the rules pertaining to position and exercise limits¹⁷ or margin¹⁸ shall apply as well.

Surveillance

The Commission notes that the Exchange has represented that it will utilize its existing surveillance procedures applicable to options on exchange traded funds, which would include Managed Fund Shares, to monitor trading. In addition, the Exchange would implement any new surveillance procedures it deems necessary to effectively monitor the trading of options on Managed Fund Shares, including adequate comprehensive surveillance sharing agreements (“CSSA”) with markets trading in non-U.S. components,¹⁹ as applicable. Also, the Exchange may obtain trading information via the Intermarket Surveillance Group (“ISG”)²⁰ from other exchanges who are members or affiliates of the ISG. The Exchange represented that it believes that these procedures will be adequate to properly monitor Exchange trading of options on these securities and to deter and detect violations of Exchange rules. This order is based on these representations.

Accelerated Approval

The Commission finds good cause, pursuant to Section 19(b)(2) of the Act,²¹ for approving the proposed rule change prior to the 30th day after the date of publication of notice in the **Federal Register**. The Commission notes this proposed rule change is substantively identical to that of NYSE Arca, Inc. being concurrently approved today, which was published for a 21-day comment period and generated no comments.²² The Commission does not believe that this proposal raise any new regulatory issues. Therefore, the Commission believes that accelerating approval of this proposal should benefit investors by permitting, without undue

delay, options on Managed Fund Shares to trade on NYSE Alternext.

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,²³ that the proposed rule change (SR–NYSEALTR–2008–08) be, and it hereby is, approved on an accelerated basis.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.²⁴

Self-Regulatory Organizations; NYSE Arca, Inc.; Order Granting Approval of Proposed Rule Change Revising NYSE Arca Rule 5.3 To Enable the Listing and Trading of Options on Managed Fund Shares

November 24, 2008.

On October 9, 2008, NYSE Arca, Inc. (“NYSE Arca” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) a proposed rule change pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b–4² thereunder to amend NYSE Arca Rule to list and trade options on Managed Fund Shares. The proposed rule change was published for comment in the **Federal Register** on October 24, 2008 for a 21-day comment period.³ The Commission received no comment letters regarding the proposal. This order approves the proposed rule change.

Managed Fund Shares represent an interest in a registered investment company (“Investment Company”) organized as an open-end management investment company or similar entity. Unlike traditional exchange traded funds Managed Fund Shares are actively managed. Managed Fund Shares, although based upon a publicly disclosed portfolio of securities, each trade as a single exchange-listed equity security. Accordingly, rules pertaining to the listing and trading of standard

equity options would apply to Managed Fund Shares.

After careful consideration, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange⁴ and, in particular, the requirements of Section 6 of the Act.⁵ Specifically, the Commission finds that the proposed rule change is consistent with Section 6(b)(5) of the Act,⁶ which requires, among other things, that the rules of a national securities exchange be designed to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest.

Listing and Trading of Options on Managed Fund Shares

As set out more fully in the Exchange’s notice of its proposal, NYSE Arca’s proposed rules include requirements regarding initial and continued listing standards, the creation/redemption process for Managed Fund Shares, and trading halts. Managed Fund Shares must be traded through a national securities exchange or through the facilities of a national securities association, and must be “NMS stock” as defined under Rule 600 of Regulation NMS.⁷

The Commission notes that, pursuant to NYSE Arca Rules 5.3(g)(1) and 5.4(k), Managed Fund Shares will be subject to the initial and continuing eligibility standards for underlying securities provided in NYSE Arca Rules 5.3 and 5.4, as applicable. In particular, to be options eligible, a Managed Fund Share must either meet the criteria and guidelines for underlying securities set forth in NYSE Arca Rule 5.3(a) and (b), or alternately, the Managed Fund Share must be available for creation or redemption each business day in cash or in kind from or through the issuing trust, investment company, commodity pool or other issuer at a price related to the net asset value. In addition, the issuing trust, investment company, commodity pool, or other issuer is obligated to issue Managed Fund Shares in a specified aggregate number even though some or all of the investment assets needed to be deposited have not been received by the issuing trust, investment company, commodity pool,
