

15 U.S.C. 4301 *et seq.* ("the Act"), Global Universal Design Commission, Inc. ("GUDC") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the name and principal place of business of the standards development organization and (2) the nature and scope of its standards development activities. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to Section 6(b) of the Act, the name and principal place of business of the standards development organization is: Global Universal Design Commission, Inc., Syracuse, New York. The nature and scope of GUDC's standards development activities are: To develop and promote the understanding and use of universal design. Universal design seeks to increase the usability, safety and health of the built environment to support social inclusion of a diverse population in all aspects of society. Universal design is an approach to the design of products and environment which treats all people equally and does not call special attention to the needs of a particular class of people. GUDC seeks to develop universal design standards through a consensus process that will increase choices and accommodate a wide range of preferences and needs, to the greatest extent possible, without the need for adaptation, retrofitting, or specialized design.

Patricia A. Brink,

Deputy Director of Operations, Antitrust Division.

Drug Enforcement Administration

Manufacturer of Controlled Substances; Notice of Registration

By Notice dated July 29, 2008, and published in the **Federal Register** on August 6, 2008 (73 FR 45784), Cambridge Isotope Lab, 50 Frontage Road, Andover, Massachusetts 01810, made application by renewal to the Drug Enforcement Administration (DEA) to be registered as a bulk manufacturer of Morphine (9300), a basic class of controlled substance listed in schedule II.

The company plans to utilize small quantities of the listed controlled

substance in the preparation of analytical standards.

No comments or objections have been received. DEA has considered the factors in 21 U.S.C. 823(a) and determined that the registration of Cambridge Isotope Lab to manufacture the listed basic class of controlled substance is consistent with the public interest at this time. DEA has investigated Cambridge Isotope Lab to ensure that the company's registration is consistent with the public interest. The investigation has included inspection and testing of the company's physical security systems, verification of the company's compliance with state and local laws, and a review of the company's background and history. Therefore, pursuant to 21 U.S.C. 823, and in accordance with 21 CFR 1301.33, the above named company is granted registration as a bulk manufacturer of the basic class of controlled substance listed.

Dated: November 21, 2008.

Joseph T. Rannazzisi,

Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration.
