

the notice includes only existing flexibilities, the proposed flexibilities are not internally contradictory or inconsistent, and timing does not adversely affect other Department initiatives. Each laboratory will document in its own implementing issuances its internal procedures for the use of any flexibility adopted from another demonstration laboratory and disseminate the information to employees and other interested parties.

• Demonstration laboratories are still required to document changes to existing FRNs not under the auspices of subsection 1107(c) and proposed new flexibilities. Normally, changes not covered by subsection 1107(c) to existing FRNs or new initiatives require publication in the **Federal Register**. A draft FRN is forwarded to the DUSD (CPP) for review. Simultaneously copies are to be sent to the DUSD (LABS) and the Component point of contact. When a draft FRN is received, the DUSD (CPP) will request from both DUSD (LABS) and the Component their concurrence, comments, etc. before making a recommendation on the FRN. The DUSD (CPP) forwards the recommendation for approval/disapproval of the FRN to the Under Secretary of Defense for Personnel and Readiness (USD (P&R)). The USD (P&R) retains approval/disapproval authority for new initiatives or change requests not covered by subsection 1107(c). Minor modifications are possible without a FRN if they can be made within the demonstration project's existing authorities and if appropriate notice is given to employees and other interested parties. Each laboratory will document in its own implementing instructions its minor modifications to its demonstration project plan and any associated revised internal procedures. A copy of the implementing instructions will be provided the DUSD (CPP), DUSD (LABS), and Component point of contact.
