Needs and Uses: 47 CFR Section 64.904 requires certain local exchange carriers, in connection with their cost allocation manual filings and the accompanying financial reports the Commission prescribes under 47 U.S.C. Sections 220, 219(b) and 201(b), to have an attest engagement performed by an independent auditor every two years, covering the prior two year period, or have a financial audit performed by an independent auditor every two years, covering the prior two year period. The attest engagement is to be performed in accordance with the attestation standards established by the American Institute of Certified Public Accountants (AICPA), except as otherwise directed by the Chief, Enforcement Bureau. The audit is to be conducted in compliance with generally accepted auditing standards (GAAS), except as otherwise directed by the Enforcement Bureau. The Responsible Accounting Officer letter requires that carriers' independent auditors (a) disclose in writing all relationships between the auditor and its related entities and the carrier and its related entities that in the auditor's professional judgment may reasonably be thought to bear on independence; (b) confirm in writing that in its professional judgment it is independent of the carrier; and (c) discuss the auditor's independence. The information is used to determine whether the independent auditors are performing their audits independently and unbiased of the carrier they audit.

Submission for OMB Review; Comment Request

Proposed Projects

Title: Supporting Healthy Marriage Project Baseline Data Collection Extension OMB No.: 0970-0299.

Description: The Administration for Children and Families (ACF) is conducting an evaluation study titled Supporting Healthy Marriage (SHM). This is a largescale, multi-site, rigorous test of marriage and relationship skills education programs for low-income married couples. The baseline information collection for the study was previously approved by the Office of Management and Budget (OMB Number 0970-0299) and expires on of May 31, 2009. The purpose of this notice is to inform the public of ACF's intent to request an extension of this clearance prior to its expiration.

The SHM project is founded on research that indicates that both adults in healthy marriages and their children do better on a host of outcomes. The evaluation study will determine the interim and long-term effectiveness of eight local programs by comparing outcomes on a range of measures for

couples and children in the program group to a comparable group of couples randomly assigned to a control group.

Baseline information is collected from couples at the time they volunteer to participate in an SHM program. The baseline data collection provides information about the characteristics of the husband and wife and information about their attitudes and beliefs about their relationship at study entry.

This information will be used to inform the public, program operators and policymakers about the characteristics of married couples who volunteer for marriage education programs and, among other uses, it will be used to define and conduct analyses of key subgroups, addressing a key study question of who benefits most from this type of marriage education service.

Respondents: Low-income married couples.

Proposed Project

Title: Head Start Family and Child Experiences Survey (FACES).

OMB No.: 0970-0151.

Description: The Administration for Children and Families (ACF), U.S. Department of Health and Human Services, is planning to collect data on a new cohort for the Head Start Family and Child Experiences Survey (FACES). FACES is a longitudinal study of a

nationally representative sample of Head Start programs and children that will collect information for Head Start performance measures. Data for FACES will be collected annually through interviews with Head Start parents, teachers, program directors and other Head Start staff, as well as direct child assessments and observations of Head Start classrooms.

Information will be collected on a sample of approximately 3,500 children and families from 60 Head Start programs. The methods of data collection will include assessments of Head Start children, interviews with their parents, and ratings by their Head Start teachers. Site visitors will interview Head Start teachers in approximately 350 classrooms and make observations of the types and quality of classroom activities. Interviews will also be conducted with Head Start program directors and other staff. A follow-up for children in Kindergarten will include child assessments, parent interviews, and teacher questionnaires and child ratings.
