

the Errata stated that the Commission would publish a separate notice in the **Federal Register** establishing a period of time for the filing of protests.

Accordingly, any person desiring to be heard concerning the blanket approvals of issuances of securities or assumptions of liability by Mill Run, should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. 18 CFR 385.211, 385.214 (2004). The Commission encourages the electronic submission of protests using the FERC Online link at <http://www.ferc.gov>.

Notice is hereby given that the deadline for filing protests is December 8, 2008.

Absent a request to be heard in opposition to such blanket approvals by the deadline above, Mill Run is authorized to issue securities and assume obligations or liabilities as a guarantor, indorser, surety, or otherwise in respect of any security of another person; provided that such issuance or assumption is for some lawful object within the corporate purposes of Mill Run, compatible with the public interest, and is reasonably necessary or appropriate for such purposes.

The Commission reserves the right to require a further showing that neither public nor private interests will be adversely affected by continued approvals of Mill Run's issuance of securities or assumptions of liability.

Copies of the full text of the Director's Order are available from the Commission's Public Reference Room, 888 First Street, NE., Washington, DC 20426. The Order may also be viewed on the Commission's Web site at <http://www.ferc.gov>, using the eLibrary link. Enter the docket number excluding the last three digits in the docket number field to access the document. Comments, protests, and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

Freeport LNG Development, L.P.; Notice of Petition To Amend

December 2, 2008.

Take notice that on November 19, 2008, Freeport LNG Development, L.P. (Freeport LNG), 333 Clay Street, Suite 5050, Houston, Texas 77002, filed in Docket Nos. CP03-75-003 and CP05-361-001, a petition to amend the orders issued June 18, 2004 in Docket No. CP03-75-000 and September 26, 2006 in Docket No. CP05-361-001, pursuant to section 3 of the Natural Gas Act for authorization to operate its existing liquefied natural gas (LNG) terminal facility located on Quintana Island, Brazoria County, Texas, for the additional purpose of exporting foreign-sourced LNG.

This filing is available for review at the Commission in the Public Reference

Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208-3676; or for TTY, contact (202) 502-8659.

Any initial questions regarding Freeport LNG's proposal in this petition should be directed to William Henry, Freeport LNG Development, L.P., 333 Clay Street, Suite 5050, Houston, Texas 77002, (713) 980-2888 or Lisa M. Toney, Fulbright & Jaworski L.L.P., 666 Fifth Avenue, New York, New York 10103, (212) 318-3009, ltoney@fulbright.com.

Pursuant to Section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

However, a person does not have to intervene in order to have comments

considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit the original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

Comment Date: December 23, 2008.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-8748-6]

Clean Water Act Section 303(d): Availability of Los Cerritos Channel Total Maximum Daily Loads (TMDLs)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: This action announces the availability of EPA proposed total maximum daily loads (TMDLs) for the freshwater portion of Los Cerritos Channel to address elevated metals concentrations pursuant to Clean Water Act section 303(d)(1), and requests public comment. Section 303(d)(1) requires that states submit water quality planning documents called total maximum daily loads for impaired waters for which existing technology-based pollution controls are not stringent enough to attain or maintain state water quality standards. EPA must approve or disapprove the State's submitted TMDLs.

EPA is providing the public the opportunity to review proposed TMDLs for Los Cerritos Channel metals. EPA is establishing these TMDLs in lieu of California because of deadlines associated with the consent decree described under **SUPPLEMENTARY INFORMATION**. EPA will prepare a responsiveness summary that demonstrates how public comments were considered in the final TMDL decisions. The responsiveness document will be available when the TMDLs are established.

DATES: Comments must be submitted to EPA on or before January 22, 2009.

ADDRESSES: Comments on the proposed decisions should be sent to Karen Irwin, Water Division (WTR-2), U.S. Environmental Protection Agency Region IX, 75 Hawthorne Street, San Francisco, CA 94105, telephone (415) 947-4116, facsimile (415) 947-3537, email irwin.karen@epa.gov. Oral comments will not be considered. Copies of the proposed TMDLs for Los Cerritos Channel will be available on EPA Region 9's Web site at <http://www.epa.gov/region9/water/tmdl/303d.html> or by writing or calling Karen Irwin. Underlying documentation comprising the record for these TMDLs is available for public inspection at the above address.

FOR FURTHER INFORMATION CONTACT:

Karen Irwin at (415) 947-4116 or irwin.karen@epa.gov.

SUPPLEMENTARY INFORMATION: Section 303(d) of the Clean Water Act requires states to identify water bodies that do not meet water quality standards and then to establish TMDLs for each water body for each pollutant of concern. TMDLs identify the maximum amount of pollutants that can be discharged to water bodies without causing violations of water quality standards. Los Cerritos Channel is included on the State of California's section 303(d) list of polluted waters due to water quality impacts associated with discharges of

metals. EPA will establish TMDLs for metals in Los Cerritos Channel by March 2012 because of deadlines under a consent decree (*Heal the Bay Inc., et al. v. Browner* C 98-4825 SBA, entered March 24, 1999).

Dated: November 28, 2008.

Alexis Strauss,

Director, Water Division, Region IX.

Final Risk and Exposure Assessment Report for Nitrogen Dioxide (NO₂)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability of final report.

SUMMARY: On November 21, 2008, the Office of Air Quality Planning and Standards (OAQPS) of EPA made available a final report titled, *Risk and Exposure Assessment to Support the Review of the NO₂ Primary National Ambient Air Quality Standard: Final Report*. This final report has two primary purposes. The first is to convey the approaches taken to characterize human exposures and health risks associated with ambient NO₂ and to present the results of these analyses. The second is to present a discussion of the NO₂ scientific evidence and the exposure- and risk-based information specifically as it relates to the current and potential alternative NO₂ standards.
