

following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: 2010 Census Coverage Measurement Independent Listing Operation.

OMB Control Number: None.

Form Number(s): D-1302, D-1302(PR).

Type of Request: New collection.

Burden Hours: 38,563.

Number of Respondents: 1,000,000.

Average Hours per Response: 2 minutes.

Needs and Uses: The U.S. Census Bureau requests authorization from the Office of Management and Budget to conduct the Census Coverage Measurement (CCM) Independent Listing Operation as part of the 2010 Census. The 2010 CCM Independent Listing Operation will be conducted in the U.S. (excluding remote Alaska) and in Puerto Rico, in selected CCM sampled areas. As in the past, the CCM operations and activities will be conducted separate from and independent of the 2010 Census operations.

CCM will be conducted for the 2010 Census to provide estimates of *net coverage error* and *components of coverage error* (omissions and erroneous enumerations) for housing units and persons in housing units to improve future censuses. The data collection and matching methodologies for previous coverage measurement programs were designed only to measure *net coverage error*, which reflects the difference between omissions and erroneous inclusions.

The Independent Listing Operation is the first step in the CCM process. It will be conducted to obtain a complete inventory of all housing unit addresses within the CCM sample block clusters before the 2010 Census enumeration commences. In those block clusters throughout the 50 states (excluding remote Alaska), the District of Columbia, and Puerto Rico, listers will canvass every street, road, or other place where people might live in their assigned block clusters and construct a list of housing units. Listers will contact a member of each housing unit (or proxy, as a last resort) to ensure all units at a given address are identified. They will also identify the location of each housing unit by assigning map spots on block maps provided with their assignment materials.

Completed Independent Listing Books are subject to Dependent Quality Control (DQC) wherein DQC listers return to the field to check 12 housing

units per block cluster from a pre-specified random start to ensure that the work performed is of acceptable quality and to verify that the correct blocks were visited. If the block cluster fails the DQC, then the DQC lister reworks the entire block cluster. The completed listing books are keyed for matching against the census Decennial Master Address File for the same areas.

There will be two Independent Listing Forms, D-1302 and D-1302 (PR). The D-1302 is the English version of the listing form and will be used in CCM sample areas in the 50 states (excluding remote Alaska) and the District of Columbia. The D-1302 (PR) is the Spanish version of the listing form and will be used only in the CCM sample areas in Puerto Rico.

Affected Public: Individuals or households.

Frequency: One time.

Respondent's Obligation: Mandatory.

Legal Authority: Title 13, United States Code, Section 141 authorizes the Secretary of Commerce to conduct a decennial census of the population, and Section 193 authorizes the Secretary to conduct tests to gather supplementary information related to the census.

OMB Desk Officer: Brian Harris-Kojetin, (202) 395-7314.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 7845, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dhynek@doc.gov).

Dated: December 3, 2008.

Crawfish Tail Meat from the People's Republic of China: Amended Final Results of the Administrative Review Pursuant to Final Court Decision

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: December 8, 2008.

FOR FURTHER INFORMATION CONTACT: Scott Lindsay, AD/CVD Operations, Office 6, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-0780.

SUPPLEMENTARY INFORMATION:

Background

This matter arose from a challenge to *Freshwater Crawfish Tail Meat from the People's Republic of China; Notice of Final Results of Antidumping Duty Administrative Review*, 68 FR 19504 (April 21, 2003) (Final Results) and accompanying *Issues and Decision Memorandum (Issues and Decision Memo)* covering the period of review September 1, 2000, through August 31, 2001. In the *Final Results*, the Department of Commerce (the Department) assigned China Kingdom Import & Export Co., Ltd. (China Kingdom) an antidumping duty assessment rate based on total adverse facts available because the evidence gathered at verification established that China Kingdom failed to report its total tail meat production and eight of its eleven factors of production for the period of review. *See Final Results*. Following publication of the *Final Results*, China Kingdom filed a lawsuit with the United States Court of International Trade (CIT) challenging the Department's *Final Results*.

The CIT overturned the Department's determination in the *Final Results* to assign to China Kingdom an antidumping duty assessment rate based on total adverse facts available. *See China Kingdom Import & Export Co. Ltd. v. United States*, Consol. Ct. No. 03-00302, Slip Op. 07-135 (CIT September 4, 2007) (*Remand Order*). In the *Remand Order*, the CIT directed the Department to calculate and assign China Kingdom a new antidumping duty assessment rate in full compliance with the CIT's directives, and that the Department support all its findings with substantial record evidence and include

a reasoned explanation for its determination. Specifically, first, the CIT ordered the Department to make a determination as to the practicability of allowing China Kingdom to explain the deficient responses, that is required by section 782(d) of the Tariff Act of 1930, as amended (the Act), and, in doing so, to afford China Kingdom a reasonable opportunity to explain the deficiency affecting the information on Chaohu Daxin Foodstuff Co., Ltd.'s (Daxin) total production and the calculated data for eight of the eleven factors of production. Second, the CIT specified that once China Kingdom has provided its explanation regarding the deficient information, the Department must make the determinations required by either section 782(d)(1) or (2) of the Act, or both, with respect to the substitute information. Third, the CIT ordered that the Department may use facts otherwise available solely to determine the total amount of Daxin's production of subject merchandise, and to calculate and determine the eight incorrectly reported factors of production during the period of review. Lastly, the CIT instructed that the Department may use adverse inferences only to a limited extent, and must demonstrate that the use of adverse inferences is not punitive, aberrational, or uncorroborated.

On February 1, 2008, the Department released the draft final results of redetermination for comment. No party submitted comments by the February 11, 2008, deadline. On March 4, 2008, the Department filed its final results of redetermination pursuant to the CIT's order. See *Results of Redetermination on Remand Pursuant to China Kingdom Import & Export Co., Ltd. v. United States*. In the remand results, pursuant to the CIT's order, the Department recalculated China Kingdom's margin using adverse facts available only to a limited extent. Specifically, the Department only applied adverse facts available to those factors which China Kingdom incorrectly reported in its responses. Therefore, for the remand results, the Department utilized China Kingdom's correctly reported factors in its margin calculation. On September 12, 2008, the CIT issued its judgment affirming the Department's remand results.

On October 17, 2008, consistent with the decision in *Timken Co. v. United States*, 893 F.2d 337 (Fed. Cir. 1990), the Department notified the public that the CIT's decision was not in harmony with Department's final results. See *Crawfish Tail Meat from the People's Republic of China: Notice of Court Decision Not in Harmony with Final Results of Administrative Review*, 73 FR 61782

(October 17, 2008). There was no appeal of the CIT's decision to the U.S. Court of Appeals for the Federal Circuit filed within the appeal period. Therefore, the CIT's decision is now final and conclusive.

Amended Final Results of the Review

As the litigation in this case has concluded, the Department is amending the *Final Results* to reflect the results of our remand redetermination. The revised dumping margin in the amended final results is as follows:

Exporter/Manufacturer	Weighted-Average Margin (Percent)
China Kingdom Import & Export Co. Ltd.	90.66

The Department will instruct U.S. Customs and Border Protection (CBP) to liquidate entries of freshwater crawfish tail meat from the People's Republic of China during the review period at the assessment rate the Department calculated for the final results of review as amended. We intend to issue assessment instructions to CBP 15 days after the date of publication of these amended final results of review.

This notice is published in accordance with sections 751(a)(1) and 777(i) of the Act.

November 24, 2008.

David M. Spooner,

Assistant Secretary for Import Administration.
