

collection of information requirements to find out if the employer is complying adequately with the provisions of the standards.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is proposing that OMB extend its approval of the information collection requirements contained in the Standards on Longshoring (29 CFR part 1918) and Marine Terminal Operations. The Agency is proposing to retain its current burden hour estimate of 35,948 hours. The Agency will summarize any comments submitted in response to this notice and will include this summary in its request to OMB.

Type of Review: Extension of a currently approved collection.

Title: Longshoring (29 CFR part 1918) and Marine Terminal Operations (29 CFR part 1917).

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows:

- (1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (FAX); or (3) by hard copy. All comments, attachments, and other material must identify the Agency name

and the OSHA docket number for the ICR (Docket No. OSHA-2008-0050). You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional materials must clearly identify your electronic comments by your name, date, and the docket number so the Agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693-2350 (TTY (877) 889-5627).

Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and date of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download through this Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <http://www.regulations.gov> Web site to submit comments and access the docket is available at the Web site's "User Tips" link. Contact the OSHA Docket Office for information about materials not available through the Web site, and for assistance in using the Internet to locate docket submissions.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 030-05224 and 040-08478]

Notice of Consideration of Amendment Requests for Decommissioning of the Bell Laboratories, Murray Hill Facility, Murray Hill, NJ and Opportunity To Request a Hearing

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of amendment request and opportunity to request a hearing.

DATES: A request for a hearing must be filed by February 6, 2009.

FOR FURTHER INFORMATION CONTACT:

Steve Hammann, Health Physicist, Commercial and R&D Branch, Division of Nuclear Materials Safety, Region I, U.S. Nuclear Regulatory Commission, King of Prussia, PA 9406. Telephone: (610) 337-5399; fax number: (610) 337-5269; or e-mail: stephen.hammann@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The Nuclear Regulatory Commission (NRC) is considering issuance of license amendments to Byproduct Materials License No. 29-00170-03 and Source Materials License No. SMB-1260 issued to Bell Laboratories (the Licensee), to authorize decommissioning of its Murray Hill Facility (the Facility) in Murray Hill, New Jersey under the Licensee's proposed Decommissioning Plan (DP). The Licensee requested this action by filing dated June 12, 2008.

An NRC administrative review, documented in a letter to Bell Laboratories dated October 9, 2008, found the DP acceptable to begin a technical review.

If the NRC approves the DP, the approval will be documented in amendments to NRC License Nos. 29-00170-03 and SMB-1260. However, before approving the proposed amendments, the NRC will need to make the findings required by the Atomic Energy Act of 1954, as amended, and NRC's regulations. These findings will be documented in a Safety Evaluation Report and an Environmental Assessment and/or an Environmental Impact Statement. The Licensee's DP proposes release of the Facility for unrestricted use. This would occur following completion of decommissioning activities and verification by the NRC that the radiological criteria for license termination have been met.

II. Opportunity To Request a Hearing

The NRC hereby provides notice that this is a proceeding on the Licensee's application dated June 12, 2008. In accordance with the general requirements in Subpart C of 10 CFR Part 2, as amended on January 14, 2004 (69 FR 2182), any person whose interest may be affected by this proceeding and who desires to participate as a party must file a request for a hearing and a specification of the contentions which the person seeks to have litigated in the hearing.

A request for hearing or a petition for leave to intervene must be filed in accordance with the NRC E-Filing rule, which the NRC promulgated on August 28, 2007 (72 FR 49139). The E-Filing process requires participants to submit and serve documents over the internet or in some cases to mail copies on electronic storage media. Participants may not submit paper copies of their filings unless they seek a waiver in accordance with the procedures described below.

To comply with the procedural requirements of E-Filing, at least ten (10) days prior to the filing deadline, the petitioner/requestor must contact the Office of the Secretary by e-mail at HEARINGDOCKET@NRC.GOV, or by calling (301) 415-1677, to request (1) a digital ID certificate, which allows the participant (or its counsel or representative) to digitally sign documents and access the E-Submittal server for any proceeding in which it is participating; and/or (2) creation of an electronic docket for the proceeding [even in instances in which the petitioner/requestor (or its counsel or representative) already holds an NRC-issued digital ID certificate]. Each petitioner/requestor will need to download the Workplace Forms Viewer™ to access the Electronic Information Exchange (EIE), a component of the E-Filing system. The Workplace Forms Viewer™ is free and is available at <http://www.nrc.gov/site-help/e-submittals/install-viewer.html>. Information about applying for a digital ID certificate is available on NRC's public Web site at <http://www.nrc.gov/site-help/e-submittals/apply-certificates.html>.

Once a petitioner/requestor has obtained a digital ID certificate, had a docket created, and downloaded the EIE viewer; it can then submit a request for hearing or petition for leave to intervene. Submissions should be in Portable Document Format (PDF) in accordance with NRC guidance available on the NRC public Web site at <http://www.nrc.gov/site-help/e->
