Colorado River, and the gathering of specific information concerning these wells.

Description of respondents: The respondents will include well and river-pump owners and operators along the lower Colorado River in Arizona, California, and Nevada. Each diverter (including well pumpers) must be identified and their diversion locations and water use determined.

A respondent may request that the data for their well or river pump be updated after the initial inventory.

Estimated completion time: An average of 20 minutes is required to interview individual well and river-pump owners or operators. Reclamation will use the information collected during these interviews to complete the information collection form.

Annual responses: 1,500.

Annual burden hours: 500 hours.

DEPARTMENT OF JUSTICE

Notice of Lodging of an Amendment to the Consent Decree Under the Comprehensive Environmental Response, Compensation and Liability Act

Notice is hereby given that on November 19, 2008, a proposed Amendment to the Consent Decree ("Amendment") in United States v. Ormet Primary Aluminum Corporation, Civil Action No. C2–95–947, was lodged with the United States District Court for the Southern District of Ohio, Eastern Division.

In 1995, the United States entered into a Consent Decree with Ormet Primary Aluminum Corporation, Inc. ("Ormet Primary"), which settled a matter under the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. 9606 & 9607, for the Ormet Corporation Superfund Site ("Site") in Hannibal, Ohio. Under the Consent Decree, Ormet Primary is required to undertake work to address releases at the Site and provide financial assurance to ensure completion of the work. In 2007, the U.S. Environmental Protection Agency ("U.S. EPA") determined that Ormet Primary had failed to meet the terms of the financial assurance provisions of the Consent Decree. The Amendment addresses Ormet Primary’s failure to have adequate financial assurance by requiring scheduled submissions to the U.S. EPA of letter(s) of credit which by December 21, 2009, in the aggregate, will equal $3,400,000.00. The Amendment also requires, among other things, environmental covenants be recorded with the Register of Deeds, Monroe County, Ohio, identifying use restrictions for the Site and other specified property.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the Amendment. Comments should be addressed to the Assistant
