[TA-W-63,719]

3M Precision Optics, Inc.; Including On-Site Leased Workers From Volt, Cincinnati, OH; Notice of Revised Determination on Reconsideration

On October 10, 2008, the Department issued an Affirmative Determination Regarding Application on Reconsideration applicable to workers

and former workers of the subject firm. The notice was published in the **Federal Register** on October 22, 2008 (73 FR 63021).

The previous investigation initiated on July 21, 2008, resulted in a negative determination issued on September 3, 2008, was based on the finding that imports of optical systems for projection televisions and projectors did not contribute importantly to worker separations at the subject firm and no shift in production to a foreign source occurred. The denial notice was published in the **Federal Register** on September 18, 2008 (73 FR 54174).

In the request for reconsideration, the petitioner provided additional information regarding a shift in

production of optical systems for projection televisions and projectors from the subject firm to China and alleged that imports of projection televisions and projectors increased.

The Department contacted the company official to verify whether the subject firm imported optical systems for projection televisions and projectors following a shift to China.

The investigation on reconsideration revealed that the subject firm shifted production of optical systems for projection televisions and projectors and increased imports of optical systems for projection televisions and projectors during the relevant period. It was also revealed that employment and sales declined at 3M Precision Optics,
