

program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

Applicant: Larry G. Evenson, Reno, NV, PRT-198190.

The applicant requests a permit to import the sport-hunted trophy of one male bontebok (*Damaliscus pygargus pygargus*) culled from a captive herd maintained under the management program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

Applicant: Bill D. Williams, Juntura, OR, PRT-194018.

The applicant requests a permit to import the sport-hunted trophy of one male bontebok (*Damaliscus pygargus pygargus*) culled from a captive herd maintained under the management program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

Endangered Marine Mammals

The public is invited to comment on the following application for a permit to conduct certain activities with endangered marine mammals. The application was submitted to satisfy requirements of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*) and the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), and the regulations governing endangered species (50 CFR Part 17) and marine mammals (50 CFR Part 18). Written data, comments, or requests for copies of the complete applications or requests for a public hearing on these applications should be submitted to the Director (address above). Anyone requesting a hearing should give specific reasons why a hearing would be appropriate. The holding of such a hearing is at the discretion of the Director.

Applicant: Charles Grossman, Xavier University, Cincinnati, OH, PRT-049136.

The applicant requests renewal of his permit to conduct auditory response research with captive held manatees (*Trichechus manatus*) for the purpose of scientific research. This notification covers activities to be conducted by the applicant over a five-year period.

Concurrent with the publication of this notice in the **Federal Register**, the Division of Management Authority is forwarding a copy of the above application to the Marine Mammal Commission and the Committee of Scientific Advisors for their review.

Dated: November 7, 2008.

Lisa J. Lierheimer,

Senior Permit Biologist, Branch of Permits, Division of Management Authority.

Receipt of Applications for Permit

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of applications for permit.

SUMMARY: The public is invited to comment on the following applications to conduct certain activities with endangered species and/or marine mammals.

DATES: Written data, comments or requests must be received by January 9, 2009.

ADDRESSES: Documents and other information submitted with these applications are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act, by any party who submits a written request for a copy of such documents within 30 days of the date of publication of this notice to: U.S. Fish and Wildlife Service, Division of Management Authority, 4401 North Fairfax Drive, Room 212, Arlington, Virginia 22203; fax 703/358-2281.

FOR FURTHER INFORMATION CONTACT: Division of Management Authority, telephone 703/358-2104.

SUPPLEMENTARY INFORMATION:

Endangered Species

The public is invited to comment on the following applications for a permit to conduct certain activities with endangered species. This notice is provided pursuant to Section 10(c) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*). Written data, comments, or requests for copies of these complete applications should be submitted to the Director (address above).

Applicant: Dr. Ajit Varki, Department of Cellular and Molecular Medicine, University of California, San Diego, CA, PRT-196889

The applicant requests a permit to acquire from Coriell Institute, Camden, NJ, in interstate commerce DNA and/or cell lines from gorilla (*Gorilla gorilla*), Bornean orangutan (*Pongo pygmaeus*

and *P. Q. p. pygmaeus*) and Sumatran orangutan (*P. abelii*) for the purpose of scientific research. This notification covers activities to be conducted by the applicant over a one-year period.

Applicant: Larry E. Johnson (dba Safari Enterprises), Boerne, TX, PRT-157476

The applicant requests a permit to export 4 captive bred Cuvier's gazelle (*Gazella cuvieri*) to the Endangered Wildlife Conservation and Breeding Center, Al Ain, United Arab Emirates for the purpose of enhancement of the survival of the species.

Applicant: Hans R. Van Riel, North Las Vegas, NV, PRT-199024

The applicant requests a permit to import the sport-hunted trophy of one male bontebok (*Damaliscus pygargus pygargus*) culled from a captive herd maintained under the management program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

Applicant: Gary D. Steele, Scottsdale, AZ, PRT-198827

The applicant requests a permit to import the sport-hunted trophy of one male bontebok (*Damaliscus pygargus pygargus*) culled from a captive herd maintained under the management program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

Applicant: Alexander T. Barclay, III, San Antonio, TX, PRT-199513

The applicant requests a permit to import the sport-hunted trophy of one male bontebok (*Damaliscus pygargus pygargus*) culled from a captive herd maintained under the management program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

Applicant: James W. Anderson, Centerville, GA, PRT-199530

The applicant requests a permit to import the sport-hunted trophy of one male bontebok (*Damaliscus pygargus pygargus*) culled from a captive herd maintained under the management program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

Marine Mammals

The public is invited to comment on the following application for a permit to conduct certain activities with endangered marine mammals and/or marine mammals. The application was submitted to satisfy requirements of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*) and/or the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), and the regulations governing endangered species (50 CFR Part 17)

and/or marine mammals (50 CFR Part 18). BILLING CODE 4310-55-P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[WY-920-1320-EL, WYW154432]

Notice of Competitive Coal Lease Sale, Wyoming

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of competitive coal lease sale.

SUMMARY: Notice is hereby given that certain coal resources in the North Maysdorf Coal Tract described below in Campbell County, Wyoming, will be reoffered for competitive lease by sealed bid in accordance with the provisions of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 181 *et seq.*).

DATES: The lease sale reoffer will be held at 10 a.m., on Thursday, January 29, 2009. Sealed bids must be submitted on or before 4 p.m., on Wednesday, January 28, 2009.

ADDRESSES: The lease sale reoffer will be held in the First Floor Conference Room (Room 107), of the Bureau of Land Management (BLM) Wyoming State Office, 5353 Yellowstone Road, P.O. Box 1828, Cheyenne, WY 82003. Sealed bids must be submitted to the Cashier, BLM Wyoming State Office, at the address given above.

FOR FURTHER INFORMATION CONTACT:

Mavis Love, Land Law Examiner, or Robert Janssen, Coal Coordinator, at 307-775-6258, and 307-775-6206, respectively.

SUPPLEMENTARY INFORMATION: This coal lease sale is being held in response to a lease by application (LBA) filed by Cordero Mining Company, Gillette, Wyoming. The North Maysdorf Tract was previously offered on October 18, 2007, and March 19, 2008, and the one bid received at each of those two sales was rejected because it did not meet the BLM's estimate of fair market value. The coal resource to be offered consists of all reserves recoverable by surface mining methods in the following-described lands located in central Campbell County, approximately 2 miles east of State Highway 59, 4 miles south of Bishop Road, and is adjacent to the southern lease boundary of the Belle Ayr Mine and the northwest lease boundary of the Cordero Rojo Mine:

T. 47 N., R. 71 W., 6th P.M., Wyoming
Section 7: Lots 5, 12, 13, 20;
Section 8: Lots 3 through 6, 11 through 13.
Containing 445.89 acres more or less.

The tract is adjacent to Federal coal leases to the north and east held by the Belle Ayr and Cordero Rojo Mines, respectively. It is adjacent to additional unleased Federal coal to the west and south. It is also adjacent to about 40 acres of private coal controlled by the Cordero Rojo Mine. All of the acreage offered has been determined to be suitable for mining. Features such as pipelines can be moved to permit coal recovery. In addition, oil and/or gas wells have been drilled on the tract. The estimate of the bonus value of the coal lease will include consideration of any future production from these wells. An economic analysis of this future income stream will determine whether a well is bought out and plugged prior to mining or re-established after mining is completed. The surface estate of the tract is owned by Cordero Mining Company, Caballo Rojo, Inc. and Foundation Wyoming Land Company.

The tract contains surface mineable coal reserves in the Wyodak seam currently being recovered in the adjacent, existing mine. On the LBA tract, the Wyodak seam is generally a

single seam averaging approximately 70 feet thick. The overburden depths range from 170-360 feet thick on the LBA.

The tract contains an estimated 54,657,000 tons of mineable coal. This estimate of mineable reserves includes the main Wyodak seam but does not include any tonnage from localized seams or splits containing less than 5 feet of coal. It does not include the adjacent private coal although these reserves are expected to be recovered in conjunction with the LBA. The total mineable stripping ratio (BCY/Ton) of the coal is about 3.7:1. Potential bidders for the LBA should consider the recovery rate expected from thick seam mining.

The North Maysdorf LBA coal is ranked as subbituminous C. The overall average quality on an as-received basis is 8586 BTU/lb with about 0.27% sulfur. These quality averages place the coal reserves near the middle of the range of coal quality currently being mined in the Wyoming portion of the Powder River Basin.

The tract will be leased to the qualified bidder of the highest cash amount provided that the high bid meets or exceeds the BLM's estimate of the fair market value of the tract. The minimum bid for the tract is \$100 per acre or fraction thereof. No bid that is less than \$100 per acre, or fraction thereof, will be considered. The bids should be sent by certified mail, return receipt requested, or be hand delivered. The Cashier will issue a receipt for each hand-delivered bid. Bids received after 4 p.m., on Wednesday, January 28, 2009, will not be considered. The minimum bid is not intended to represent fair market value. The fair market value of the tract will be determined by the Authorized Officer after the sale. The lease issued as a result of this offering will provide for payment of an annual rental of \$3.00 per acre, or fraction thereof, and a royalty payment to the United States of 12.5 percent of the value of coal produced by strip or auger mining methods and 8 percent of the value of the coal produced by underground mining methods. The value of the coal will be determined in accordance with 30 CFR 206.250.

Bidding instructions for the tract offered and the terms and conditions of the proposed coal lease are available from the BLM Wyoming State Office at the addresses above. Case file documents, WYW154432, are available for inspection at the BLM Wyoming State Office.
