*Comment Date:* 5 p.m. Eastern Time on Monday, December 22, 2008.

Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket Nos. CP07-62-000, CP07-63-000, CP07-64-000, CP07-65-000]

#### **AES Sparrows Point LNG, LLC; Mid-Atlantic Express, L.L.C.; Notice of Availability of the Final Environmental Impact Statement for the Proposed Sparrows Point LNG Terminal and Pipeline Project**

December 5, 2008.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared this final Environmental Impact Statement (EIS) for the construction and operation of a liquefied natural gas (LNG) import terminal and natural gas pipeline facilities proposed by AES Sparrows Point LNG, LLC and Mid-Atlantic Express, L.L.C. (collectively referred to as AES) in the above-referenced dockets. The Project facilities would be located

in Baltimore, Harford, and Cecil Counties, Maryland, and in Lancaster and Chester Counties, Pennsylvania.

The final EIS was prepared to satisfy the requirements of the National Environmental Policy Act (NEPA). The U.S. Army Corps of Engineers (COE), the U.S. Coast Guard, (Coast Guard), and the U.S. Environmental Protection Agency (EPA) are cooperating agencies for the development of this EIS. A cooperating agency has jurisdiction by law or special expertise with respect to potential environmental impacts associated with the proposal and is involved in the NEPA analysis.

Based on the analysis included in the EIS, the FERC staff concludes that if the Project is constructed and operated in accordance with applicable laws and regulations, and with implementation of AES's proposed mitigation measures, and the additional mitigation measures recommended by staff, it would have mostly limited adverse environmental impacts.

AES proposes to construct and operate an LNG import terminal in an industrial port setting on Sparrows Point, in Baltimore County, Maryland. The LNG terminal would consist of facilities capable of unloading LNG ships, storing up to 480,000 cubic meters (m<sup>3</sup>) of LNG (10.2 billion cubic feet of natural gas equivalent), vaporizing the LNG, and sending out natural gas at a baseload rate of 1.5 billion cubic feet per day (Bcfd). The maximum potential gas sendout capacity without expansion is 1.595 Bcfd. Mid-Atlantic Express proposes to interconnect its pipeline with three existing interstate natural gas pipelines by construction of a single, approximate 88-mile-long pipeline north, to the vicinity of Eagle, Pennsylvania.

The final EIS addresses the potential environmental effects of the construction and operation of the following LNG terminal and natural gas pipeline facilities.

- A ship unloading facility, with two berths, capable of receiving LNG ships with capacities up to 217,000 m<sup>3</sup>;
- Three 160,000 m<sup>3</sup> (net capacity) full-containment LNG storage tank, comprised of 9 percent nickel inner tank, pre-stressed concrete outer tank, and a concrete roof;
- A closed-loop shell and tube heat exchanger vaporization system;
- Various ancillary facilities including administrative offices, warehouse, main control room, security building, and a platform control room;
- Meter and regulation station within the LNG Terminal site;
- Dredging an approximate 118 acre area in the Patapsco River to -45 feet

below mean lower low water to accommodate the LNG vessels; and

- Approximately 88 miles of 30-inch-diameter natural gas pipeline (approximately 48 miles in Maryland and 40 miles in Pennsylvania), a pig launcher and receiver facility at the beginning and ending of the pipeline, 10 mainline valves, and three meter and regulation stations, one at each of three interconnection sites at the end of the pipeline.

The Project would also include the vessel transit from the LNG vessel's entrance into U.S. territorial waters, through its transit to and from the LNG terminal at Sparrows Point.

The final EIS has been placed in the public files of the FERC and is available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street, NE., Room 2A, Washington, DC 20426, (202) 502-8371.

Only volume 1 of the final EIS, containing text of the analysis, was printed in hard copy. Volume 2, containing additional appendices, was produced as .pdf files on a compact disk (CD) that can be read by a computer with a CD-ROM drive. A limited number of hard copies and CDs of the final EIS are available from the FERC's Public Reference Room, identified above. This final EIS is also available for public viewing on the FERC's Internet Web site at <http://www.ferc.gov>, via the eLibrary link.

Copies of this final EIS have been mailed to Federal, State, and local agencies; elected officials; Indian tribes and Native American organizations with an interest in the project area; interveners; regional environmental organizations and public interest groups; affected landowners; local libraries and newspapers; and other interested parties. Hard copies of volume 1 were mailed to those who specifically requested them, while all others on the mailing list were sent both volumes of the EIS on CDs.

Additional information about the project is available from the Commission's Office of External Affairs at 1-866-208-FERC (3372). The administrative public record for this proceeding to date is on the FERC Internet Web site (<http://www.ferc.gov>). Go to Documents & Filings and choose the eLibrary link. Under eLibrary, click on "General Search," and enter the docket number excluding the last three digits in the Docket Number field (e.g., CP07-62). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at: [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or toll free at 1-866-208-3676, or for TTY call

202-502-8659. The eLibrary link on the FERC Internet Web site also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission now offers a free service called eSubscription that allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. To register for this service, go to the eSubscription link on the FERC Internet Web site (<http://www.ferc.gov/docs-filing/esubscription.asp>).

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. EC09-27-000]

**Babcock & Brown LP; Babcock & Brown Renewable Holdings Inc.; Babcock & Brown Wind Partners U.S. LLC; Gamesa Energy USA, LLC; North Allegheny Wind, LLC; Notice of Filing**

December 5, 2008.

Take notice that on December 4, 2008, Gamesa Energy USA, LLC (GEUSA), Babcock & Brown LP, Babcock & Brown Renewable Holdings Inc. (BBRHI), Babcock & Brown Wind Partners U.S. LLC, and North Allegheny Wind, LLC (North Allegheny) filed an Application For Order Authorizing Disposition of Jurisdictional Facilities, whereby GEUSA would sell all of the membership interest in North Allegheny to BBRHI or its designee, pursuant to section 203 of the Federal Power Act, 16 U.S.C. 824b, and part 33 of the Regulations of the Federal Energy Regulatory Commission, 18 CFR 33 *et seq.*

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or

protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov), or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

*Comment Date:* 5 p.m. Eastern Time on December 19, 2008.
