Integrated Science Assessment for Oxides of Nitrogen and Sulfur—Environmental Criteria

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Availability.

SUMMARY: The U.S. Environmental Protection Agency is announcing the availability of a final document entitled, "Integrated Science Assessment for Oxides of Nitrogen and Sulfur—Ecological Criteria," and the supplementary annexes (EPA/600/R-08/082F). The document was prepared by the National Center for Environmental Assessment (NCEA) within EPA's Office of Research and Development as part of the review of the secondary National Ambient Air Quality Standards (NAAQS) for oxides of nitrogen and sulfur. EPA's secondary NAAQS are based on ecological and welfare effects.

DATES: The document will be available on or about December 12, 2008.

ADDRESSES: The "Integrated Science Assessment for Oxides of Nitrogen and Sulfur—Environmental Criteria" will be available primarily via the Internet on the National Center for Environmental Assessment's home page under the Recent Additions and Publications menus at <http://www.epa.gov/ncea>. A limited number of CD-ROM or paper copies will be available. Contact Ms. Ellen Lorang by phone (919-541-2771), fax (919-541-5078), or e-mail (lorang.ellen@epa.gov) to request either of these, and please provide your name, your mailing address, and the document title, "Integrated Science Assessment for Oxides of Nitrogen and Sulfur—Environmental Criteria" (EPA/600/R-08/082F), to facilitate processing of your request.

FOR FURTHER INFORMATION CONTACT: For technical information, contact Tara Greaver, Ph.D., NCEA [telephone: 919-541-2435; facsimile: 919-541-5078; or e-mail: greaver.tara@epa.gov].

SUPPLEMENTARY INFORMATION: Section 108(a) of the Clean Air Act directs the Administrator to identify certain pollutants that "may reasonably be anticipated to endanger public health and welfare" and to issue air quality criteria for them. These air quality criteria are to "accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all identifiable effects on public health or welfare which may be expected from the presence of [a] pollutant in the ambient air. * * *" Under section 109 of the Act, EPA is then to establish NAAQS for each pollutant for which EPA has issued criteria. Section 109(d) of the Act requires subsequent periodic review and, if appropriate, revision of existing air quality criteria to reflect advances in scientific knowledge on the effects of the pollutant on public health and welfare. EPA is also to revise the NAAQS, if appropriate, based on the revised air quality criteria.

Oxides of nitrogen and sulfur are two of six principal (or "criteria") pollutants for which EPA has established air quality criteria and NAAQS. EPA periodically reviews the scientific basis for these standards by preparing an Integrated Science Assessment (ISA) (formerly called an Air Quality Criteria Document). The ISA and supplementary annexes, in conjunction with additional technical and policy assessments, provide the scientific basis for EPA decisions on the adequacy of a current NAAQS and the appropriateness of new or revised standards. The Clean Air Scientific Advisory Committee

(CASAC), an independent science advisory committee established pursuant to section 109 of the Clean Air Act and part of the EPA's Science Advisory Board (SAB), provides independent scientific advice on NAAQS matters, including advice on EPA's draft ISAs.

EPA formally initiated its current review of the criteria for oxides of nitrogen and sulfur in December 2005 (70 FR 73236) and May 2006 (71 FR 28023) respectively, requesting the submission of recent scientific information on specified topics. In the initial stages of the criteria reviews, EPA recognized the merit of integrating the science assessment for these two pollutants due to their combined effects on atmospheric chemistry, deposition processes, and environment-related public welfare effects. In July 2007 (72 FR 34004), EPA held a workshop to discuss, with invited scientific experts, initial draft materials prepared in the development of the ISA and supplementary annexes for oxides of nitrogen and sulfur. EPA's "Draft Plan for Review of the Secondary National Ambient Air Quality Standards for Nitrogen Dioxide and Sulfur Dioxide" was made available in September 2007 for public comment and was discussed by the Clean Air Scientific Advisory Committee (CASAC) via a publicly accessible teleconference consultation on October 30, 2007 (72 FR 57568). EPA made its Draft Plan available on EPA's Web site: http://www.epa.gov/ttn/naaqs/standards/no2so2sec/cr_pd.html. The draft "Integrated Science Assessment for Oxides of Nitrogen and Sulfur—Environmental Criteria; First External Review Draft" was released for review on December 21, 2007 (72 FR 72719). The CASAC reviewed the first draft document at a public peer review meeting on April 2–3, 2008. EPA addressed comments from the CASAC and the public in the second external review draft document, "Integrated Science Assessment for Oxides of Nitrogen and Sulfur—Environmental Criteria; Second External Review Draft," which was released for public comment on August 12, 2008 (72 FR 46908). The second draft was reviewed by the CASAC at a public meeting on October 2–3, 2008. EPA has considered comments by CASAC and by the public in preparing this final ISA.

Dated: December 4, 2008.

Acting Director, National Center for Environmental Assessment.

Maine Marine Sanitation Device Standard—Receipt of Petition

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice—Receipt of Petition.

SUMMARY: Notice is hereby given that a petition has been received from the state of Maine requesting a determination by the Regional Administrator, U.S. Environmental Protection Agency, that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the waters of Kennebunk, Kennebunkport and Wells.

DATES: Comments due by January 12, 2009.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA—R01—OW—2008—0875, by one of the following methods: <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

- *E-mail:* rodney.ann@epa.gov.
- *Fax:* (617) 918–0538.

Mail and hand delivery: U.S.

Environmental Protection Agency—New England Region, One Congress Street, Suite 1100, COP, Boston, MA 02114–2023. Deliveries are only accepted during the Regional Office's normal hours of operation (8 a.m.–5 p.m., Monday through Friday, excluding legal holidays), and special arrangements should be made for deliveries of boxed information.

Instructions: Direct your comments to Docket ID No. EPA—R01—OW—2008—0875. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through <http://www.regulations.gov>, or e-mail. The <http://www.regulations.gov> Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through <http://www.regulations.gov> your e-mail address will be automatically captured

and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket: All documents in the docket are listed in the <http://www.regulations.gov> index. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copy-righted material, will be publicly available only in hard copy. Publicly available docket materials are available either electronically in <http://www.regulations.gov> or in hard copy at the U. S. Environmental Protection Agency—New England Region, One Congress Street, Suite 1100, COP, Boston, MA 02114–2023. Such deliveries are only accepted during the Regional Office's normal hours of operation, and special arrangements should be made for deliveries of boxed information. The Regional Office is open from 8 a.m.–5 p.m. Monday through Friday, excluding legal holidays. The telephone number is (617) 918–1538.
