National Oceanic and Atmospheric Administration

RIN 0648-XM08

Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Adjustment to Exempted Fishing Permit

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Assistant Regional Administrator for Sustainable Fisheries, Northeast Region, NMFS (Assistant Regional Administrator), has made a preliminary determination that an amendment to an Exempted Fishing Permit (EFP) application submitted by the University of Maryland Eastern Shore (UMES) contains all of the required information and warrants further consideration. The Assistant Regional Administrator has made a preliminary determination that the adjusted activities authorized under this amended EFP would be consistent with the goals and objectives of the Northeast (NE) Multispecies and Monkfish Fishery Management Plans (FMPs). However, further review and consultation may be

necessary before a final determination is made to reissue the EFP. Therefore, NMFS announces that the Assistant Regional Administrator proposes to recommend that an EFP be reissued that would allow one commercial fishing vessel to conduct fishing operations that are otherwise restricted by the regulations governing the fisheries of the Northeastern United States. This EFP, which would continue to enable researchers to study the effects of climate on the distribution and catch rates of monkfish, would adjust the exemptions from the NE multispecies regulations as follows: Gulf of Maine (GOM) Rolling Closure Area (RCA) I, rather than RCA III. The exemption from NE multispecies effort control measures will remain the same as with the original EFP. Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed EFPs.

DATES: Comments must be received on or before December 29, 2008.

ADDRESSES: You may submit written comments by any of the following methods:

- Email: *DA8-272@noaa.gov*. Include in the subject line “Comments on Revised UMES Monkfish EFP .”
- Mail: Patricia A. Kurkul, Regional Administrator, NMFS, NE Regional Office, 1 Blackburn Drive, Gloucester, MA 01930. Mark the outside of the

SUPPLEMENTARY INFORMATION: An application for an EFP amendment was submitted on October 15, 2008, by Andrea K. Johnson, Ph.D., Research Assistant Professor at UMES, for a project funded under the New England and Mid-Atlantic Fishery Management Councils’ Monkfish Research Set-Aside (RSA) Program. The primary goal of this study is to investigate the influence of temperature on monkfish distribution and abundance, as well as determine age and growth patterns, spawning frequency, feeding rates, and cannibalism. This information will provide information on the biology of monkfish that could be used to enhance the management of this species.

The original EFP granted an exemption for one vessel to fish for monkfish using gillnets inside the GOM RCA III during May 2008. The vessel originally issued the EFP later decided not to participate in this project and a new vessel was issued the EFP on October 14, 2008. With this change to a new vessel, the research area was revised to reflect the new vessel owner’s familiarity with monkfish fishing grounds. This EFP revision would grant an exemption for the new vessel to fish in 30-minute square number 122, rather than 137, inside the GOM RCA I during
